

23, 2007. The final results of this review are currently due by August 10, 2007.

Extension of Time Limit of Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), and 19 CFR 351.213(h)(2), if the Department determines that it is not practicable to complete the review within the designated time period, the Department may extend the time limit for issuing the final results in a review from 120 days to 180 days after publication of the preliminary results.

The Department determines that it would not be practicable to complete the final results of this administrative review within the current time period. Given the extended briefing schedule and the new SV information submitted by parties, the Department requires additional time to analyze the parties’ information and arguments, which encompass several issues the Department considers to be extraordinarily complicated, including, but not limited to, the valuation of the ammonia input. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of this review by 60 days, until October 9, 2007.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: July 17, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.
