SUPPLEMENTARY INFORMATION:

Title: Milk and Milk Products Surveys.

OMB Control Number: 0535-0020.
Expiration Date of Approval: December 31, 2007.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production. The Milk and Milk Products Surveys obtain basic agricultural statistics on milk production and manufactured dairy products from farmers and processing plants throughout the nation. Data are gathered for milk production, dairy products, evaporated and condensed milk, manufactured dry milk, and manufactured whey products. Milk production and manufactured dairy products statistics are used by the U.S. Department of Agriculture (USDA) to help administer federal programs and by the dairy industry in planning, pricing, and projecting supplies of milk and milk products.

Authority: Voluntary dairy information reporting is conducted under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 (7 U.S.C. 2276), which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. Mandatory dairy product information reporting is based on the Agricultural Marketing Act of 1946, as amended by the Dairy Market Enhancement Act of 2000 and the Farm Security and Rural Development Act of 2002 (U.S.C. 1637-1637b). This program requires each manufacturer to report to USDA the price, quantity, and moisture content of dairy products sold and each entity storing dairy products to report

information on the quantity of dairy products stored. Any manufacturer that processes, markets, or stores less than 1,000,000 pounds of dairy products per year is exempt. USDA is required to maintain information, statistics, or documents obtained under these Acts in a manner that ensures that confidentiality is preserved regarding the identity of persons and proprietary business information, subject to verification by the Agricultural Marketing Service under Public Law No. 106-532.

This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, codified at 44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 8 minutes per response. This average is based on the 8 different surveys in the information collection: 4 weekly, 2 monthly, 1 quarterly, and 1 annual. Total annual response is estimated to be 95,000 with an average annual frequency of 3.65 responses per respondent.

Respondents: Farms and businesses.

Estimated Number of Respondents: 26,000.

Estimated Total Annual Burden on Respondents: 12,800 hours. Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, the Agency Clearance Officer, at (202) 720-5778.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, July 18, 2007.

Joseph T. Reilly,

Associate Administrator.

BILLING CODE 3410-20-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Correction: Compliance of National Marine Fisheries Service Permits With the Debt Collection Improvement Act of 1996

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

SUPPLEMENTARY INFORMATION: All NOAA National Marine Fisheries Service (NMFS) permit forms not already requiring Tax Identifying Numbers (Employer ID Number and/or Social Security Number) and Date of Incorporation and/or Date of Birth) will be revised to require this information, following procedures as laid out by the Paperwork Reduction Act. This notice applies to all NMFS permits information collections for which rulemaking is not needed in conjunction with such revisions. Proposed rules will be issued for all collections whose regulations require amendment for such revisions.

In addition to the notice published on *June 6, 2007*, this action applies to the following NOAA NMFS permit collections: OMB Control Numbers:

1. 0648-0240, Application to Shuck Surf Clams/Ocean Quahogs at Sea.
2. 0648-0345, Southeast Region Bycatch Reduction Device Certification Family of Forms.

The sentence following the original list should now read "All but five of these seventeen permit collections currently require some or most of this information."

DATES: The original deadline for public comment remains the same (August 6, 2007).

ADDRESS: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and

Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of these information collections; they also will become a matter of public record.

Dated: July 26, 2007.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XB70

Small Takes of Marine Mammals Incidental to Specified Activities; Low-Energy Marine Seismic Survey in the Northeast Pacific Ocean, September 2007

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental take authorization; request for comments.

SUMMARY: NMFS has received an application from Scripps Institute of Oceanography (SIO) for an Incidental Harassment Authorization (IHA) to take marine mammals incidental to conducting a low-energy marine seismic survey in the northeastern Pacific Ocean during September, 2007. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an IHA to SIO to incidentally take, by Level B harassment only, several species of marine mammals during the aforementioned activity.

DATES: Comments and information must be received no later than August 31, 2007.

ADDRESSES: Comments on the application should be addressed to P. Michael Payne, Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910-3225. The mailbox address for providing email comments is PR1.0648XB70@noaa.gov. NMFS is not responsible for e-mail comments sent to addresses other than the one provided here. Comments sent via e-mail, including all attachments, must not exceed a 10-megabyte file size.

A copy of the application containing a list of the references used in this document may be obtained by writing to the address specified above, telephoning the contact listed below (see **FOR FURTHER INFORMATION CONTACT**), or visiting the internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm#applications>.

Documents cited in this notice may be viewed, by appointment, during regular business hours, at the aforementioned address.

FOR FURTHER INFORMATION CONTACT:

Candace Nachman or Jolie Harrison, Office of Protected Resources, NMFS, (301) 713-2289.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring, and reporting of such takings are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as "...an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock

through effects on annual rates of recruitment or survival.

Section 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the U.S. can apply for an authorization to incidentally take small numbers of marine mammals by harassment. Except with respect to certain activities not pertinent here, the MMPA defines "harassment" as:

any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [Level A harassment]; or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [Level B harassment].

Section 101(a)(5)(D) establishes a 45-day time limit for NMFS review of an application followed by a 30-day public notice and comment period on any proposed authorizations for the incidental harassment of marine mammals. Within 45 days of the close of the comment period, NMFS must either approve or deny the authorization.

Summary of Request

On May 4, 2007, NMFS received an application from SIO for the taking, by Level B harassment only, of 32 species of marine mammals incidental to conducting, with research funding from the National Science Foundation (NSF), an ocean-bottom seismograph (OBS) deployment and a magnetic, bathymetric, and seismic survey program off the Oregon coast in the northeastern Pacific Ocean during September, 2007. The purpose of the research program is to record microearthquakes in the forearc to determine whether seismicity on the plate boundary is characteristic of a locked or a freely slipping fault plane. OBSs will be deployed and left in place for a year, and a seismic survey will be used to locate the instruments accurately and precisely on the seafloor and to characterize the shallow sediment structure around the instrument. Seismometers measure movement in the Earth's crust. About 90 percent of all natural earthquakes occur under water, where great pressure and cold make measurements difficult. The OBS was developed for this task. Scientists use seismometer data to calculate the energy released by earthquakes. Also included in the research is the use of a magnetometer and sub-bottom profiler.

Description of the Activity

The seismic surveys will involve one vessel, the R/V *Wecoma* (*Wecoma*),
