

Indiana. The notice was published in the **Federal Register** on May 9, 2007 (72 FR 26424).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of evaporators and radiators/heat exchanges for the automotive industry.

The investigation revealed that the leased workers of the above listed firms were contracted to work on-site at the Connersville, Indiana location of Visteon Systems, LLC Climate Control Division. These workers provided a variety of functions supporting the production of evaporators and radiator/heat exchange units manufactured at the subject firm. The Department has determined that the above listed on-site worker groups are in support of the production of evaporators and radiator/heat exchange units at the subject firm and are sufficiently under the control of the subject firm.

Since the workers of Visteon Systems, LLC, Climate Control Division, Evaporators and Radiator/Heat Exchange, Connersville, Indiana are certified eligible to apply for ATAA, the Department is extending that eligibility to the employees of the above listed firms working on-site at the subject firm.

The intent of the Department's certification is to include all workers employed at Visteon Systems, LLC, Climate Control Division, Evaporators and Radiator/Heat Exchange, Connersville, Indiana who were adversely affected by a shift in production to Mexico.

The amended notice applicable to TA-W-61,157 is hereby issued as follows:

"Workers of Visteon Systems, LLC, Climate Control Division, Evaporators, Connersville, Indiana (TA-W-61,157) and Visteon Systems, LLC Climate Control Division, Radiator/Heat Exchange, Connersville, Indiana (TA-W-61,157A), including on-site leased workers from CDI-IT Services and Synova, employed through IBM Corporation, Securitas Security Services USA, Inc., Premier Mfg. **SUPPLEMENTARY INFORMATION:** On May 17, 2007, the Department published a Final Rule to protect the integrity of the permanent labor certification program, to reduce the incentives and opportunities for fraud, and to further fulfill the Department's statutory obligation to protect the wages and working conditions of U.S. workers. 72 FR 27904 (May 17, 2007). If appropriate, DOL may determine that no response is required.
