

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****50 CFR Part 660**

[Docket No. 060824226–6322–02]

RIN 0648–AV69

**Magnuson-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Biennial Specifications and Management Measures; Inseason Adjustments; Correction**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; inseason adjustments to groundfish anagement measures; correction.

**SUMMARY:** This final rule corrects publication errors in the final rule announcing inseason changes to management measures in the commercial Pacific Coast groundfish fishery, which were published in the **Federal Register** on July 5, 2007, and are effective August 1, 2007. This correction reinstates several trip limits in the limited entry commercial groundfish trawl fishery that were

inadvertently omitted in the final rule. These changes ensure that the trip limits, intended to allow fisheries to access more abundant groundfish stocks while protecting overfished and depleted stocks, remain in place.

**DATES:** Effective 0001 hours (local time) August 1, 2007.

**FOR FURTHER INFORMATION CONTACT:**

Gretchen Arentzen (Northwest Region, NMFS), phone: 206–526–6147, fax: 206–526–6736 and e-mail [gretchen.arentzen@noaa.gov](mailto:gretchen.arentzen@noaa.gov).

**SUPPLEMENTARY INFORMATION:****Electronic Access**

This final rule is accessible via the Internet at the Office of the Federal Register's Web site at <http://www.gpoaccess.gov/fr/index.html>. Background information and documents are available at the Pacific Fishery Management Council's (Council's) Web site at <http://www.pcouncil.org/>.

**Background**

This correction reinstates several limited entry trawl commercial trip limits that were published in a proposed rule on September 29, 2006 (71 FR 57764) and implemented in a final rule on December 29, 2006 (71 FR 78638). Trip limits are an important management measure used in the Pacific Coast groundfish fishery to allow

fisheries to access more abundant groundfish stocks while protecting overfished and depleted stocks. The trip limits that are the subject of this correction are contained in Tables 3 (North) and 3 (South) to part 660 subpart G.

**Need for the Correction**

Due to a formatting error, these trip limits were inadvertently omitted during the publication of inseason changes on July 5, 2007 (72 FR 36617), which are effective August 1, 2007.

**List of Subjects in 50 CFR Part 660**

Fisheries and fishing.

Dated: July 31, 2007.

**James P. Burgess,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

■ 50 CFR part 660 is corrected by making the following correcting amendments:

**PART 660—FISHERIES OFF WEST COAST STATES**

■ 1. The authority citation for part 660 continues to read as follows:

**Authority:** 16 U.S.C. 1801 et seq.

■ 2. Tables 3 (North) and 3 (South) to part 660 subpart G are revised to read as follows:

**BILLING CODE** 3510–22–P

**Table 3 (North) to Part 660, Subpart G -- 2007-2008 Trip Limits for Limited Entry Trawl Gear North of 40°10' N. Lat.**  
 Other Limits and Requirements Apply -- Read § 660.301 - § 660.399 before using this table

Selective flatfish trawl gear is required shoreward of the RCA; all trawl gear (large footrope, selective flatfish trawl, and small footrope trawl gear) is permitted seaward of the RCA. Large footrope trawl gear is prohibited shoreward of the RCA. Midwater trawl gear is permitted only for vessels participating in the primary whiting season.

See § 660.370 and § 660.381 for Additional Gear, Trip Limit, and Conservation Area Requirements and Restrictions. See §§ 660.390-660.394 and §§ 660.396-660.399 for Conservation Area Descriptions and Coordinates (including RCAs, YRCA, CCAs, Farallon Islands, Cordell Banks, and EFHCAs).

State trip limits and seasons may be more restrictive than federal trip limits, particularly in waters off Oregon and California.

TABLE 3 (North) cont'

1/ Bocaccio, chilipepper and cowcod are included in the trip limits for minor shelf rockfish.  
 2/ Splitnose rockfish is included in the trip limits for minor slope rockfish.  
 3/ "Other flatfish" are defined at § 660.302 and include butter sole, curfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.  
 4/ The minimum size limit for lingcod is 24 inches (61 cm) total length.  
 5/ "Other fish" are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greenling. Cabezon is included in the trip limits for "other fish."  
 6/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at §§ 660.391-660.394.  
 7/ The "modified 200 fm" line is modified to exclude certain petrale sole areas from the RCA.  
 8/ If a vessel has both selective flatfish gear and large or small footrope gear on board during a cumulative limit period (either simultaneously or successively), the most restrictive cumulative limit for any gear on board during the cumulative limit period applies for the entire cumulative limit period.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.
