Technical Corrections to the Export Administration Regulations**AGENCY:** Bureau of Industry and Security, Commerce.**ACTION:** Final rule; correction.

SUMMARY: This rule amends the Export Administration Regulations (EAR) by making the following changes: Correcting citations in several sections of the EAR, removing an endnote to the Entity List, reinserting the grace period provision for support documents, clarifying when an Automated Export System or Shipper's Export Declaration record must be filed, adding omitted information to certain Export Control Classification Numbers (ECCNs), removing references to the International Munitions List, and removing or editing references to ECCNs that have either changed or do not exist.

DATES: This rule is effective August 6, 2007.

SUPPLEMENTARY INFORMATION:

This rule makes the following corrections to the Export Administration Regulations.

Corrections to Citations in the EAR

This rule makes corrections to citations to three different subject matters in the EAR. First, throughout the EAR, many sections refer readers to the General Prohibitions, which affirmatively state licensing requirements for transactions and activities subject to the EAR. The General Prohibitions can be found in part 736 of the EAR, but several locations in the EAR cite part 734 instead. This rule corrects inaccurate citations to the General Prohibitions in the note to § 740.12(a), in paragraphs (f) and (i) in Supplement No. 2 to part 748, and in § 752.6(c).

Next, § 762.7 discusses the required period of retention for recordkeeping under the EAR, and paragraph (b) refers to “§ 765.5(c)(4)(ii)” for recordkeeping related to voluntary disclosures. However, part 765 does not exist in the EAR. Thus, this rule replaces that reference with the correct citation, which is § 764.5(c)(4)(ii).

Lastly, the definition for “Hold Without Action (HWA)” in § 772.1 refers to “§ 750.4(c)” for circumstances in which license applications may be held without action. However, § 750.4(c) refers to initial processing of applications, so this rule replaces “§ 750.4(c)” with the correct citation, which is § 750.4(b).

Correction to the Removal of Indian Entities From the Entity List

In accordance with the Next Steps in Strategic Partnership between the United States and India, the Bureau of Industry and Security (BIS) published a final rule on August 30, 2005 (70 FR 51251) removing certain Indian entities from the Entity List. One of the changes made concerned the removal of the second entry for the Department of Atomic Energy. The second entry for that entity contained the phrase “balance of plant”, which was found in the column for License review policy. Prior to the August 30, 2005 final rule, a superscript “1” was located next to “balance of plant” to reference an endnote found at the end of Supplement No. 4 to Part 744, which further elaborated on the phrase. When the prior rule removed the second entry containing the superscript “1”, it did not remove the endnote as well; thus, endnote 1 has remained with no corresponding text. As a result, this rule removes endnote 1 for “balance of plant” from the end of Supplement No. 4 to Part 744.

Reinsertion of Grace Period Provision for Support Documents

On June 19, 2007, BIS published a final rule (72 FR 33646) that inadvertently removed and reserved paragraph (a) in § 748.12 (special provisions for support documents), which should have remained in the EAR. Therefore, this rule corrects that removal by adding paragraph (a) back into § 748.12.

Clarification on Filing an AES or SED Record for Exports Requiring a License

Section 758.1 introduces the Shipper's Export Declaration (SED) and Automated Export System (AES), which are used by the Bureau of Census to compile data on trade statistics and used by BIS to collect data on export

controls. Paragraph (b) of § 758.1 details when an SED or AES record is required when exporting an item subject to the EAR. Prior to this rule, paragraph (b)(2) stated that an exporter must file an SED or AES “[f]or all exports subject to the EAR that require a license, regardless of value, or destination;”. This wording could cause ambiguity as to whether this paragraph requires an SED or AES record to be filed for the export of items having a license requirement that can be overcome by a license exception. The wording in paragraph (b)(2) is meant to apply only to those items having a license requirement that cannot be overcome by a license exception. Consequently, this rule changes the wording to read: “[f]or all exports subject to the EAR that require submission of a license application, regardless of value or destination;”.

Addition of “License Exceptions” and “List of Items Controlled” Sections to ECCN 0A987, Addition of “Reason for Control” Paragraph to ECCNs 1C239 and 1C240, and Addition of ECCNs to “Related Controls” Paragraph of ECCN 1C239

On April 13, 1999, BIS (then the Bureau of Export Administration, or BXA) published a final rule (64 FR 17968) that added Export Control Classification Number (ECCN) 0A987 to the Commerce Control List for optical sighting devices for firearms. Prior to that rule, optical sighting devices for firearms were controlled under ECCN 0A985 (then partially titled “Optical sighting devices for firearms (including shotguns controlled by ECCN 0A984); discharge type arms * * *; and parts, n.e.s.”). In order to further clarity and consistency, BIS transferred optical sighting devices for firearms to a new ECCN. However, when ECCN 0A987 was added to the Commerce Control List, no License Exceptions section and no List of Items Controlled section were included. Since ECCN 0A985 previously controlled optical sighting devices for firearms, this rule adds a License Exceptions section and List of Items Controlled section to ECCN 0A987 that are identical to those respective sections in ECCN 0A985.

In addition, ECCNs 1C239 (certain high explosives) and 1C240 (certain nickel powder or porous nickel metal) currently list the applicable controls and country chart columns, but they do not list each reason for control at the beginning of the License Requirements section of each entry. Therefore, this rule adds the applicable reasons for control by adding nuclear nonproliferation (“NP”) and anti-

terrorism (“AT”) to both ECCNs 1C239 and 1C240.

Lastly, this rule provides additional guidance by alerting readers of ECCN 1C239 to similar export controls found in related ECCNs. Specifically, this rule adds language to the “Related Controls” paragraph of ECCN 1C239 to refer readers to ECCNs 1C018 (commercial charges and devices containing energetic materials on the Wassenaar Arrangement Munitions List and certain chemicals) and 1C992 (certain commercial charges and devices containing energetic materials and nitrogen trifluoride in a gaseous state).

Removal of References to the International Munitions List

This rule removes references to the International Munitions List found in various parts of the EAR and in three separate ECCNs. The International Munitions List was a term used by the Coordinating Committee on Multilateral Export Controls (CoCom). CoCom was a multilateral organization that restricted strategic exports to controlled countries. On March 31, 1994, CoCom disbanded and was later replaced by the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods and Technologies. Due to the United States’s membership in the Wassenaar Arrangement, this rule removes “International Munitions List” and replaces it with “Wassenaar Arrangement Munitions List” in §§ 738.2(d)(1), 744.17(d), 744.21(f), and 750.4(b)(6)(ii)(E), as well as in the headings of ECCNs 1B018, 2B018, and 8A018 on the Commerce Control List.

Removal of Nonexistent ECCN References Related to “Space Qualified” Items

Section 740.2 details restrictions which prevent the use of any License Exceptions. One such restriction on the use of License Exceptions involves “space qualified” items, found in paragraph (a)(7) of § 740.2. That paragraph lists ECCN 6D104 and ECCN 6E102 as two ECCN entries for the “software” and “technology”, respectively, for certain “space qualified” commodities. However, ECCNs 6D104 and 6E102 do not currently exist on the Commerce Control List; thus, this rule removes those references to ECCNs 6D104 and 6E102 from § 740.2(a)(7).

Similarly, ECCN 6D001 also contains a reference to ECCN 6E102. In ECCN 6D001, the Related Controls paragraph instructs readers to “[s]ee also 6D991, and ECCNs 6E001 (‘development’) and 6E102 (‘use’) for ‘technology’ for items controlled under this entry.” This rule

revises that sentence to read “See also 6D991, and ECCN 6E001 (‘development’) for ‘technology’ for items controlled under this entry.”

Correction to the ECCN for Mobile Devices for Reexport to Sudan Under License Exception APR

On July 23, 1999, BIS (then BXA) published a final rule (64 FR 40106) that moved mobile communication devices from ECCN 5A991.f to ECCN 5A991.g. This renumbering of paragraphs in ECCN 5A991 was done pursuant to Wassenaar Arrangement review. Later, on May 26, 2000, BIS published another final rule (65 FR 34073) that reflected the classification change for mobile devices in § 742.10(a)(2), which lists the ECCNs that are allowed for reexport to Sudan, under anti-terrorism controls. However, that May 26, 2000, final rule did not update the classification change for mobile devices for § 740.16(i), which lists the ECCNs that are permitted for reexport to Sudan without a license under License Exception APR (additional permissive reexports). Prior to the May 26, 2000, final rule, the ECCNs listed in § 742.10(a)(2) matched the ECCNs listed in § 740.16(i). To ensure conformity, this final rule updates § 740.16(i) to replace “5A991.f” with “5A991.g”, which will make the requirements concerning reexports to Sudan under License Exception APR consistent with the list of items allowed for reexport to Sudan under § 742.10.

Although the Export Administration Act expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as extended by the Notice of August 3, 2006, 71 FR 44551 (August 7, 2006), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule involves a collection of information subject to the requirements of the PRA. This collection has previously been approved by OMB under control number 0694–0088 (Multi-Purpose

Application), which carries a burden hour estimate of 58 minutes to prepare and submit form BIS-748.

Miscellaneous and recordkeeping activities account for 12 minutes per submission. BIS expects that this rule will not change that burden hour estimate.

3. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Steven Emme, Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.

End-User Statement or Statement by Ultimate Consignee or Purchaser is imposed or extended by a change in the regulations, the license application need not conform to the new support documentation requirements for a period of 45 days after the effective date of the regulatory change published in the Federal Register.

(1) Requirements are usually imposed or extended by virtue of one of the following:

(i) Addition or removal of national security controls over a particular item; or

(ii) Development of an Import Certificate/Delivery Verification or End-User Certificate program by a foreign country; or

(iii) Removal of an item from eligibility under the Special Comprehensive License described in part 752 of the EAR, when you hold such a special license and have been exporting the item under that license.

(2) License applications filed during the 45 day grace period must be accompanied by any evidence available to you that will support representations concerning the ultimate consignee, ultimate destination, and end use, such as copies of the order, letters of credit, correspondence between you and ultimate consignee, or other documents received from the ultimate consignee. You must also identify the regulatory change (including its effective date) that justifies exercise of the 45 day grace period. Note that an Import Certificate or End-User Statement will not be accepted, after the stated grace period, for license applications involving items that are no longer controlled for national security reasons. If an item is removed from national security controls, you must obtain a Statement by Ultimate Consignee and Purchaser as described in § 748.11 of this part. Likewise, any item newly controlled for national security purposes requires support of an Import Certificate or End-User Statement as described in § 748.10 of this part after expiration of the stated grace period.
