BILLING CODE 6560-50-S

**DEPARTMENT OF HOMELAND SECURITY**

**Federal Emergency Management Agency**

**44 CFR Part 67**

[Docket No. FEMA-B-7728 and FEMA-D-7812]

**Proposed Flood Elevation Determinations**

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

**FOR FURTHER INFORMATION CONTACT:** William R. Blanton, Jr., Engineering Management Section, Mitigation Division, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State or regional entities. These

proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

*National Environmental Policy Act.* This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

*Regulatory Flexibility Act.* As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

*Regulatory Classification.* This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

*Executive Order 13132, Federalism.* This proposed rule involves no policies that have federalism implications under Executive Order 13132.

*Executive Order 12988, Civil Justice Reform.* This proposed rule meets the applicable standards of Executive Order 12988.

**List of Subjects in 44 CFR Part 67**

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

1. The Commission has before it the "Motion for Withdrawal of the Further Notice of Proposed Rulemaking and for the Issuance of a Revised Further Notice" filed on August 23, 2006 (the "Motion for Withdrawal") by the Diversity and Competition Supporters (collectively, "MMTC"). MMTC states that the Commission's Further Notice of Proposed Rule Making (FNPRM) in the media ownership proceeding, 71 FR 45511, August 9, 2006, is flawed and should be withdrawn, revised, and republished. The FNPRM invited comment on the several media ownership rules adopted by the Commission in its *2002 Biennial Review Order*, 68 FR 46286, August 5, 2003, and the pending petitions for reconsideration of the *2002 Biennial Review Order*, and initiates the statutorily mandated 2006 quadrennial review of the Commission's media ownership rules. Specifically, MMTC asserts that the FNPRM is deficient because it fails to: (1) identify and describe MMTC's minority ownership proposals remanded by the court in *Prometheus Radio Project, et al. v. FCC*, 373 F.3d 372 (3d Cir. 2004); (2) refer to or seek comment on a definition of a socially and economically disadvantaged business ("SDB"); and (3) identify section 257 of the Telecommunications Act of 1996 as a central legal basis for minority ownership relief. MMTC requests that the Commission restart the ownership proceeding.

2. The FNPRM sought comment on MMTC's various proposals, as well as on the general issue of fostering minority and female ownership. We urged commenters to explain the effects, if any, that their rule proposals would have on ownership of broadcast outlets by minorities, women and small businesses. Given the impact of these issues on our comprehensive ownership review, we believe it would be beneficial to issue this Second FNPRM to set forth in greater detail the proposals MMTC identified in its Motion for Withdrawal and to clarify the record as requested by MMTC. Thus, in this Second FNPRM, we seek comment on the proposals MMTC submitted in the 2002 biennial review proceeding, as they are described in Appendix A, as well as on the proposals submitted to the Commission by the Advisory Committee on Diversity for Communications in the Digital Age ("Diversity Committee"), which are also described in Appendix A and are set forth more fully in the Committee's recommendations to the Commission. See <http://www.fcc.gov/DiversityFAC/> for a full listing of Diversity Committee meetings, recommendations and white papers. In order to consider fully the issues raised by MMTC, as discussed further below, we consolidate our ongoing section 257 proceeding with this proceeding.

3. We find it unnecessary to adopt the specific approach suggested by MMTC that we rescind and reissue the FNPRM in its entirety. The approach we take, in conjunction with the initial FNPRM, provides ample notice to the commenting public on the specific issues germane to our media ownership review, including those raised by MMTC relating to ownership diversity.
