

tools used by the Agency to estimate emissions from nonroad equipment. Data to be collected include usage rates (activity) and "in-use" or "real-world" emission rates.

The collection is a survey, to be conducted by the Office of Transportation and Air Quality (OTAQ) in the Office of Air and Radiation (OAR). Development of rapid in-use instrumentation promises to substantially reduce the cost of emissions measurement for nonroad equipment. This study combines rapid in-use measurement capability with statistical survey design to improve the representation of nonroad engine populations. The goal is to conduct a survey designed to develop methods and protocols needed to collect data on activity and in-use emissions of diesel nonroad equipment. Response to the survey is voluntary.

The target population includes nonroad equipment used by commercial establishments in the construction sector. The study area for this collection will be EPA Region 7. To estimate the prevalence of equipment ownership in the target sectors, establishments will be requested to respond to brief interviews regarding their equipment ownership and use. For a subset of establishments, emissions and usage will be measured using portable on-board electronic instrumentation. Emissions instrumentation will measure carbon dioxide (CO<sub>2</sub>) and several air pollutants on an instantaneous basis during normal operation over a period of one to three days. Air pollutants to be measured include carbon monoxide (CO), total hydrocarbons (THC), oxides of nitrogen (NO<sub>x</sub>) and particulate matter (PM). The usage instrument will measure engine on/off over a period of approximately one month. Data will be collected during normal operation at the respondents' facilities or work sites.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.15 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to

respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR submitted for renewal will provide a detailed explanation of the Agency's estimate, which is briefly summarized here:

*Estimated Total Number of Potential Respondents:* 4,020.

*Frequency of Response:* On occasion.

*Estimated Total Average Number of Responses for Each Respondent:* One.

*Estimated Total Annual Burden Hours:* 580.

*Estimated Total Annual Costs:* \$52,000. This includes an estimated burden cost of \$52,000 and an estimated cost of \$0.0 for capital investment or maintenance and operational costs.

#### **What Is the Next Step in the Process for This ICR**

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

**SECURITY CLASSIFICATION:**

Low.

**SYSTEM LOCATION:**

HRSA IC, Circle Solutions, Inc., 8280 Greensboro Drive, Suite 300, McLean, VA 22102.

**CATEGORIES OF INDIVIDUALS COVERED BY THE  
SYSTEM:**

Members of the public who request information or publications from the HRSA IC.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

The system includes: names, addresses, and telephone numbers of individuals who have placed orders via telephone, web, or written request for a 12-month period within receipt of the request.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

5 U.S.C. 552.

**PURPOSE(S):**

To facilitate the delivery of publications and the response to questions pertaining to HRSA programs as requested by members of the general public.

**ROUTINE USES OF RECORDS MAINTAINED IN THE  
SYSTEM, INCLUDING CATEGORIES OF USERS AND  
THE PURPOSES OF SUCH USES:**

1. Disclosure may be made to a congressional office from the records of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

2. In the event of litigation where the defendant is: (a) The Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) The United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or, (c) Any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, for example in defending a claim against the Public Health Service based upon an individual's mental or physical condition and alleged to have arisen because of activities of the Public Health Service in connection with such individual, disclosure may be made to the Department of Justice to enable that Department to present an effective defense, provided that such disclosure is compatible with the purpose for which the records were collected.

3. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred to the appropriate agency, whether Federal, State or local, charged with enforcing or implementing the statute or rule, regulation or order issued pursuant thereto.

**STORAGE:**

All records are maintained in computer data files on servers maintained by the HRSA IC.

**RETRIEVABILITY:**

Records are maintained for ready retrieval and customer quality assurance by HRSA IC staff by requestor name for orders placed within the previous rolling 12-month period.

**SAFEGUARDS:**

1. *Authorized Users:* Access to records is limited to designated HRSA IC staff. The HRSA IC maintains current lists of authorized users. All computer equipment and files are stored in areas where fire and life safety codes are
