SUPPLEMENTARY INFORMATION: On June
25, 2007, the Architectural and

of intent to establish an advisory
committee to make recommendations on
issues related to the effectiveness of
emergency alarm systems for
individuals with hearing loss or
deafness on passenger vessels. (72 FR
34653; June 25, 2007). The notice
identified the interests that are likely to
be significantly affected by this
rulemaking:

disabilities concerned about emergency
alarm systems on passenger vessels;
- Passenger vessel operators;
- Manufacturers and designers of
emergency alarm systems on passenger
vessels; and

For the reasons stated in the notice of

public interest. The Access Board has

appointed the following organizations

Committee on issues of interest to them
and the Committee. Members of groups
or individuals who are not members of
the Committee may also have the
opportunity to participate with
subcommittees of the Committee. The
Access Board believes that participation
of this kind can be very valuable for the
advisory committee process. Additionally,
all interested persons will have the
opportunity to comment when
proposed rules regarding passenger
vessel accessibility are issued in the
Federal Register by the Access Board.

The meeting site is accessible to
individuals with disabilities. Sign
language interpreters, an assistive
listening system, and computer assisted
real-time transcription (CART) will be
provided. Persons attending the meeting

Approval and Promulgation of Air Quality Implementation Plans; Virginia; State Implementation Plan Revision Variance for International Paper, Franklin Paper Mill, VA

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Virginia for the purpose of establishing a variance for the International Paper, Franklin Paper Mill facility located in Franklin, Virginia. The variance provides regulatory relief from compliance with state regulations governing new source review for the implementation of the International Paper, Franklin Paper Mill innovation project. In lieu of compliance with these regulatory requirements, the variance requires the facility to comply with site-wide emission caps. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.
