

U.S.C. 9622(h)(1): In accordance with section 122(i) of CERCLA, 42 U.S.C. 9622(i), notice is hereby given that the terms of the Agreement have been agreed to by CBS Corporation and EPA. By the terms of the proposed Agreement, CBS Corporation will pay a total of \$178,118.15 to the Hazardous Substance Superfund. This payment represents approximately 3.292% of the \$5,410,636.40 in past response costs incurred by EPA for response actions conducted at the Site through September 30, 2006. CBS Corporation's predecessor (Wyoming Mineral Corporation) manifested 51,122.50 gallons of hazardous substances to the Site. This amount represents approximately 3.292% of the 1,552,849.32 gallons of hazardous substances manifested to the Site by all generators. The amount that CBS Corporation will pay, as shown above, was based upon the number of gallons of hazardous substances manifested to the Site. To be eligible for the settlement, CBS Corporation must have submitted a response to EPA's Request for Information.

It is so agreed:

Dated: July 31, 2007.

Michael T. Risner,

*Acting Assistant Regional Administrator,
Office of Enforcement, Compliance, and
Environmental Justice, Region 8.*

SUPPLEMENTARY INFORMATION: OMB Control Number: None.

Title: Consummations of Assignments and Transfers of Control of Authorization.

Form Nos.: Not applicable.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents: 589 respondents; 589 responses.

Estimated Time Per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 589 hours.

Total Annual Cost: \$118,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

The Commission does not provide assurances of confidentiality to entities submitting their filings and applications. However, entities may request confidential treatment of their applications and filings under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Federal Communications Commission is requesting that the Office of Management and Budget (OMB) approve the establishment of a new collection for consummation of assignments and transfers of control of station authorization. A consummation is a party's notification to the Commission that a transaction (assignment or transfer of control of station authorization) has been

completed within a designated period of time. A consummation is applicable to all international telecommunications services, including International High Frequency (IHF), Section 214 Applications (ITC), Satellite Space Stations (SAT), Submarine Cable Landing Licenses (SCL) and Satellite Earth Station (SES) stations. Currently, applicants send multiple letters to various offices within the Commission for each file number and call sign that are part of the consummation. The new, proposed consummation module will eliminate the applicant's requirement to notify the Commission by letter with the details of the consummation. With this new collection the applicant will complete an on-line form (consummation module) in the Commission's electronic International Bureau Filing System ("IBFS"). After the applicant enters the FCC Registration Number (FRN) in the form, the system will generate a list of file numbers and call signs that are related to the FRN. The applicant can select the file numbers and call signs that are part of the consummation. The consummation module: (1) Saves time for the applicants and the Commission staff because the information is readily accessible for viewing and processing 24 hours a day/7 days a week, (2) eliminates the applicants completion by paper and mailing of letters, and (3) expedites the Commission staff's receipt of consummations in a timely manner. Without this collection of information, the Commission would not have critical information such as a change in a controlling interest in the ownership of the licensee. Furthermore, the Commission would not have the authority to review assignments and transfers of control of satellite licenses to determine whether the initial license was obtained in good faith with the intent to construct a satellite system.

Federal Communications Commission.

Secretary.
