[Docket No. 061020273–7001–03]

RIN 0648–XC05

Fisheries of the Northeastern United States; Summer Flounder Fishery; Commercial Quota Harvested for Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS announces that the 2007 summer flounder commercial quota allocated to the Commonwealth of Massachusetts has been harvested. Vessels issued a commercial Federal fisheries permit for the summer flounder fishery may not land summer flounder in Massachusetts for the remainder of calendar year 2007, unless additional quota becomes available through a transfer from another state. Regulations governing the summer flounder fishery require publication of this notification to advise Massachusetts that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing summer flounder in Massachusetts.

FOR FURTHER INFORMATION CONTACT: Emily Bryant, Fishery Management Specialist, (978) 281–9244.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in §648.100.

The initial total commercial quota for summer flounder for the 2007 calendar year was set equal to 7,789,800 lb (3,533 mt) (71 FR 75134, December 14, 2006). This quota was increased through an emergency action to 10,267,098 lb (4,658 mt) (72 FR 2458, January 19, 2007). The percent allocated to vessels landing summer flounder in Massachusetts is 6.82046 percent, resulting in a commercial quota of 700,270 lb (318 mt). The 2007 allocation was reduced to 684,331 lb (310 mt) when research set-aside was deducted and then reduced to 654,285 (297 mt) after the 2006 overages had been applied.

Section 648.101(b) requires the Administrator, Northeast Region, NMFS (Regional Administrator) to monitor state commercial quotas and to determine when a state’s commercial quota has been harvested. NMFS then publishes a notification in the Federal Register to advise the state and to notify Federal vessel and dealer permit holders that, effective upon a specific date, the state’s commercial quota has been harvested and no commercial quota is available for landing summer flounder in that state. The Regional Administrator has determined, based upon dealer reports and other available information, that Massachusetts has harvested its quota for 2007.

The regulations at §648.4(b) provide that Federal permit holders agree, as a condition of the permit, not to land summer flounder in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hours, August 16, 2007, further landings of summer flounder in Massachusetts by vessels holding summer flounder commercial Federal fisheries permits are prohibited for the remainder of the 2007 calendar year, unless additional quota becomes available through a transfer and is announced in the Federal Register. Effective 0001 hours, August 16, 2007, federally permitted dealers are also notified that they may not purchase summer flounder from federally permitted vessels that land in Massachusetts for the remainder of the calendar year, or until additional quota becomes available through a transfer from another state.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

James P. Burgess,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
