The TSC assists the screening agency in resolving any screening complaints that may relate to terrorist watch list information, but does not receive or respond to individual complaints directly. However, if TSC receives any such complaints, TSC will forward them to the appropriate screening agency.

Additional information about the redress process and how to file a complaint with a screening agency is available on TSC's Web site at <http://www.fbi.gov/terrorinfo/counterrorism/redress.htm>.

SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Longshore and Harbor Workers' Compensation Act. The Act provides for continuation of death benefits for a child or certain other surviving dependents after the age of 18 (to age 23) if the dependent qualifies as a student as defined in Section 2 (18) of the Act. Regulation 20 CFR 702.121 addresses the use of forms for the reporting of required information. The LS-266 is submitted by the parent or guardian of the dependent for whom continuation of benefits is sought. The statements contained on the form must be verified by an official of the educational institution. The information is used by the Department of Labor to determine whether a continuation of the benefits is justified. This information collection is currently approved for use through December 31, 2007.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
