

**FOR FURTHER INFORMATION CONTACT:**

Nadene G. Kennedy at the above address or (703) 292-7405.

**SUPPLEMENTARY INFORMATION:** The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

*Description of Permit Modification Requested:* The Foundation issued a permit (2007-003) to Dr. Rennie S. Holt on December 26, 2006. The issued permit allows the applicant to census, tag, collect samples and instrument mammals (Antarctic Fur, Leopard, Southern Elephant, Ross, Weddell and Crabeater seals) and seabirds (Chinstrap and Gentoo penguins, Cape Petrels, Giant Petrels, Brown Skuas, South Pole Skuas, Sheathbills, Kelp gulls, and Blue-eyed Shag).

The applicant requests a modification to his permit to collect a single whisker from each captured Fur or Leopard seal for measuring stable isotope ratios to infer trophic levels. Collection will occur while the animal is anesthetized for tagging or instrumentation.

*Location:* Cape Shirreff, Livingston Island (including San Telmo islands), Seal Island and King George Island.

*Dates:* November 1, 2007 to April 30, 2011.

**Nadene G. Kennedy,**

*Permit Officer, Office of Polar Programs.*

## NATIONAL SCIENCE FOUNDATION

### Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

**AGENCY:** National Science Foundation.

**ACTION:** Notice of Permit Modification Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

**SUMMARY:** The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45, Part 670 of the Code of Federal

Regulations. This is the required notice of a requested permit modification.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application by September 27, 2007. Permit applications may be inspected by interested parties at the Permit Office, address below.

**ADDRESSES:** Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

**FOR FURTHER INFORMATION CONTACT:**

Nadene G. Kennedy at the above address or (703) 292-7405.

**SUPPLEMENTARY INFORMATION:** The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

*Description of Permit Modification Requested:* The Foundation issued a permit (2007-007) to Dr. Markus

Horning on October 12, 2006. The issued permit allows the applicant to restrain/immobilize up to 48 Weddell seals over a 2 year period, tag, collect samples and temporarily apply instrumentation.

The applicant requests modifications to his permit to:

(1) Pre-tag adult females >21 years (non-pregnant, non-lactating) only if they are encountered at a time when they cannot be properly instrumented (bad weather or all instruments already deployed). Pre-tagging would involve up to 2-6 adult females and would allow for easier tracking and location for further instrumentation.

(2) Increase the number of Weddell seals sampled from 48 to 60.

(3) Opportunistically collect and export to the U.S. up to 100 Weddell seal fecal samples for future assessment of the cumulative effect of research activities on Weddell seals, by way of analysis of stress hormone levels (corticosteroids).

(4) Enter the Cape Royds Antarctic Specially Protected Area (ASPA 121) only on a contingency basis should a seal wander into the area and the applicant needs to retrieve an instrument package.

*Location:* McMurdo Sound sea ice.

*Dates:* October 1, 2007 to February 28, 2008.

**Nadene G. Kennedy,**

*Permit Officer, Office of Polar Programs.*

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission—new, revision, or extension: Extension.

2. The title of the information collection: 10 CFR Part 19, "Notices, Instructions, and Reports to Workers: Inspection and Investigations."

3. The form number if applicable: N/A.

4. How often the collection is required: As necessary in order that adequate and timely reports of radiation exposure be made to individuals involved in NRC-licensed activities.

5. Who will be required or asked to report: Licensees authorized to receive, possess, use, or transfer material licensed by the NRC.

6. An estimate of the number of annual responses: 4,906 responses (256 plus 4,650 recordkeepers).

7. The estimated number of annual respondents: 4,650 licensees.

8. An estimate of the total number of hours needed annually to complete the requirement or request: 35,674 hours (4,553 hours for reporting and 31,121 hours for recordkeeping).

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: N/A.

10. Abstract: Title 10 of the Code of Federal Regulations, Part 19, requires licensees to advise workers on an annual basis of any radiation exposure they may have received as a result of

NRC-licensed activities or when certain conditions are met. These conditions apply during termination of the worker's employment, at the request of a worker, former worker, or when the worker's employer (the NRC licensee) must report radiation exposure information on the worker to the NRC. Part 19 also establishes requirements for instructions by licensees to individuals participating in licensed activities and options available to these individuals in connection with Commission inspections of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, Title II of the Energy Reorganization Act of 1974, and regulations, orders and licenses thereunder regarding radiological working conditions.

The worker should be informed of the radiation dose he or she receives because: (a) That information is needed by both a new employer and the individual when the employee changes jobs in the nuclear industry; (b) the individual needs to know the radiation dose received as a result of an accident or incident (if this dose is in excess of the 10 CFR Part 20 limits) so that he or she can seek counseling about future work involving radiation, medical attention, or both, as desired; and (c) since long-term exposure to radiation may be an adverse health factor, the individual needs to know whether the accumulated dose is being controlled within NRC limits. The worker also needs to know about health risks from occupational exposure to radioactive materials or radiation, precautions or procedures to minimize exposure, worker responsibilities and options to report any licensee conditions which may lead to or cause a violation of Commission regulations, and individual radiation exposure reports which are available to him.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by September 27, 2007. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Nathan Frey, Desk Officer, Office of Information and Regulatory Affairs (3150-0044), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to [Nathan.Frey@omb.eop.gov](mailto:Nathan.Frey@omb.eop.gov) or submitted by telephone at (202) 395-4650.

The NRC Clearance Officer is Margaret A. Janney, 301-415-7245.

Dated at Rockville, Maryland, this 21st day of August, 2007.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Revision.

2. The title of the information collection: 10 CFR Part 34—Licenses for Radiography and Radiation Safety Requirements for Radiographic Operations.

3. The form number if applicable: N/A.

4. How often the collection is required: Applications for new licenses and amendments may be submitted at any time. Applications for renewal are submitted every 10 years. Reports are submitted as events occur.

5. Who will be required or asked to report: Applicants for and holders of specific licenses authorizing the use of licensed radioactive material for radiography.

6. An estimate of the number of annual responses: 778 (NRC licensees 60 plus 113 recordkeepers and

Agreement State licensees 198 plus 407 recordkeepers).

7. The estimated number of annual respondents: 253 (55 NRC Licensees and 198 Agreement State Licensees).

8. An estimate of the total number of hours needed annually to complete the requirement or request: The number of hours needed annually to complete the requirement or request: 199,125 hours. The NRC licensees total burden is 43,397 hours (72 reporting hrs [an average of 1.2 hours per response] plus 43,325 recordkeeping hrs [an average of 383 hours per recordkeeper]). The Agreement State licensees total burden is 155,728 hours (269 reporting hrs [an average of 1.4 hour per response] plus 155,459 recordkeeping hrs [an average of 382 hours per recordkeeper]).

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: N/A.

10. Abstract: 10 CFR Part 34 establishes radiation safety requirements for the use of radioactive material in industrial radiography. The information in the applications, reports and records is used by the NRC staff to ensure that the health and safety of the public is protected and that licensee possession and use of source and byproduct material is in compliance with license and regulatory requirements.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852.
