For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in

Approval and Promulgation of Implementation Plans and Designations of Areas for Air Quality Planning Purposes; Georgia: Redesignation of the Murray County 8-Hour Ozone Nonattainment Area to Attainment for Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On June 15, 2007, the State of Georgia, through the Georgia Environmental Protection Division (EPD), submitted a request to redesignate the Murray County 8-hour ozone nonattainment area (Murray County Area) to attainment for the 8-hour ozone National Ambient Air Quality Standard (NAAQS); and to approve a State Implementation Plan (SIP) revision containing a maintenance plan for the Murray County Area. The Murray County 8-hour nonattainment ozone area is a partial county area, comprised of the portion of Murray County that makes up the Chattahoochee National Forest. In this action, EPA is proposing to approve Georgia's 8-hour ozone redesignation request for the Murray County Area. Additionally, EPA is proposing to approve the 8-hour ozone maintenance plan for the Murray County Area, including the regional motor vehicle emissions budgets (MVEBs) for nitrogen oxides (NO_x) and volatile organic compounds (VOCs). This proposed approval of Georgia's redesignation request is based on EPA's determination that Georgia has demonstrated that the Murray County Area has met the criteria for redesignation to attainment specified in the Clean Air Act (CAA), including the determination that the Murray County 8-hour ozone nonattainment area has attained the 8-hour ozone standard. In this action, EPA is also describing the status of its transportation conformity adequacy determination for the new regional MVEBs for 2018 that are contained in the 8-hour ozone maintenance plan for the Murray County Area.
