

Notices

Federal Register

Vol. 72, No. 168

Thursday, August 30, 2007

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

AGENCY FOR INTERNATIONAL DEVELOPMENT

Privacy Act of 1974, System of Records

AGENCY: United States Agency for International Development.

ACTION: Notice to delete systems of records.

SUMMARY: Pursuant to the Privacy Act of 1974 (U.S.C. 552a), as amended, the United States Agency for International Development (USAID) is deleting nine systems of records notices in its existing inventory.

DATES: This proposed action will be effective on October 1, 2007.

ADDRESSES: Comments may be submitted by any of the following methods:

eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions on submitting comments.

E-mail: privacy@usaid.gov

Fax: (703) 666-1466.

Mail: Chief Privacy Officer, United States Agency for International Development, 1300 Pennsylvania Avenue, NW., Suite 2.12-003, Washington, DC 20523-2120.

FOR FURTHER INFORMATION CONTACT: Ms. Barbara English, Office of Human Resources, Policy, Planning and Information Division either by e-mail at benglish@usaid.gov or by phone on (202) 712-1913.

SUPPLEMENTARY INFORMATION: USAID has reviewed its Privacy Act systems of records. As a result of this review, USAID is deleting nine systems of records notices in its existing inventory. All nine systems being deleted are covered under government-wide systems of records. The specific deletions are set forth below.

Dated: August 20, 2007.

Philip M. Heneghan,
Chief Privacy Officer, USAID.

SYSTEM NAME:

AID-1, Foreign Service Employee Personnel Records System.

Reason: The records contained in this system of records are covered by OPM/GOVT-1 (General Personnel Records), a government-wide system of record.

SYSTEM NAME:

AID-2, Civil Service Employee Office Personnel Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-1 (General Personnel Records), a government-wide system of record.

SYSTEM NAME:

AID-6, Recruiting, Examining, Placement and Employee Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-5 (Recruiting, Examining, Placement and Employee Records), a government-wide system of record.

SYSTEM NAME:

AID-7, Foreign Service Personnel Evaluation Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-2 (Employee Performance File System Records), a government-wide system of record.

SYSTEM NAME:

AID-11, Employee Conduct and Discipline Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-3 (Adverse Actions and Actions Based on Unacceptable Performance), a government-wide system of record.

SYSTEM NAME:

AID-12, Executive Assignment Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-1 (General Personnel Records), a government-wide system of record.

SYSTEM NAME:

AID-13, Orientation and Training Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-1 (General Personnel Records), a government-wide system of record.

SYSTEM NAME:

AID-14, Awards and Incentive Records.

Reason: The records contained in this system of records are covered by OPM/GOVT-2 (Employee Performance File System Records), a government-wide system of record.

SYSTEM NAME:

AID-24, Emergency Case File.

Reason: The records contained in this system of records are covered by OPM/GOVT-1 (General Personnel Records), a government-wide system of record.

BILLING CODE 6116-01-P

DEPARTMENT OF AGRICULTURE

Forest Service

Plumas National Forest, Feather River Ranger District, CA; Flea Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA Forest Service will prepare an environmental impact statement to disclose the environmental effects resulting from construction of fuel breaks known as defensible fuel profile zones (DFPZs); harvest and reforestation of timber stands; restoration and enhancement of aquatic and riparian habitat; improvement of wildlife habitat and long term watershed condition; underburning to improve the health of unique plant communities; and road construction, reconstruction, and decommissioning.

DATES: Comments concerning the scope of the analysis must be received within 30 days of the publication of this notice in the **Federal Register**. The draft environmental impact statement is expected by January 2008, and the final environmental impact statement is expected by April 2008.

ADDRESSES: Send written comments to Karen Hayden, District Ranger, Plumas National Forest, Feather River Ranger District, 875 Mitchell Ave, Oroville, CA 95965. Comments may be (1) Mailed to the Responsible Official; (2) hand-delivered between the hours of 8 a.m.–4:30 p.m., Monday through Friday, excluding holidays; (3) faxed to (530) 532-1210; or (4) electronically mailed

to: *comments-pacificsouthwest-plumas-featherrvr@fs.fed.us*.

FOR FURTHER INFORMATION CONTACT: John Zarlengo, Project Leader, Feather River Ranger District, 875 Mitchell Avenue, Oroville, CA 95965, or call (530) 532-8932.

SUPPLEMENTARY INFORMATION: The Flea Project area is located within the Feather River Ranger District of the Plumas National Forest in Butte County. Encompassing approximately 11,000 acres, the project area is located north and east of Paradise, from De Sabla in the northwest to Jorbo Gap in the southeast, and north and west of Mayaro and North Fork of the Feather River in the northeast. Treatment units range in elevation from 1,600 to 4,300 feet above sea level. Communities in and near the project area include Paradise, Magalia, DeSabella, Yankee Hill, Concow, Pulga and Mayaro.

The Flea Project is proposed as part of a broad resource management program to promote the ecological health of lands and economic health and stability of communities in the northern Sierra Nevada under the authority of the Herger-Feinstein Quincy Library Group Forest Recovery Act (HFQLG Act).

Purpose and Need for Action

The Forest Service has identified the following project objectives: (1) Protect communities and forest ecosystems from high-intensity wildfires; (2) promote a healthy all-aged, multistoried, fire-resilient forest; (3) contribute to the stability and economic health of communities; (4) promote the health of unique plant communities; (5) promote healthy aquatic and riparian ecosystems, and improve long term watershed condition; and (6) improve wildlife habitat.

Proposed Action

To achieve project objectives, the Forest Service proposes to construct approximately 2,007 acres of fuelbreaks known as Defensible Fuel Profile Zones (DFPZ). A DFPZ is a strategically located strip of land approximately 1/2 mile in width on which fuels, both living and dead, have been modified in order to reduce the potential for sustained crown fire and to allow fire suppression personnel a safer location from which to take action against a wildfire. The DFPZs in the Flea Project would be part of a larger, strategic system of DFPZs on the Plumas National Forest, adjacent private lands, and other national forests.

Proposed DFPZs are generally located on ridges, along roads, or adjacent to

private property within wildland urban interface with tree crowns spaced at a distance that reduces the potential for crown fire spread (generally 40 percent canopy cover). DFPZs would be constructed through mechanically thinning and biomass removal on approximately 671 acres, mastication on approximately 456 acres, underburning on approximately 447 acres, and hand cutting, piling, and burning on approximately 433 acres.

The Forest Service proposes to harvest up to 5 million board feet of timber from group selection units (228 acres), and DFPZ mechanical thinning units (546 acres). Group selection involves harvest of trees less than 30-inches in diameter from small (0.5 to 2 acres) groups. Over time, this would create an uneven-aged (all-aged) forest made up of a mosaic of small groups of same-aged trees.

Use of existing and temporary roads would be needed to access group selection and DFPZ treatment areas. An estimated 13.4 miles of existing road would be reconstructed with 0.45 additional miles of new classified road construction and 4.5 miles of new temporary spur construction. An estimated 9.5 miles of system roads would be decommissioned or closed by various methods, such as ripping and seeding, re-contouring, and installing barriers. Future use of all other roads and user-developed OHV routes in the Flea Project area would be determined by the Plumas National Forest's travel management process. Improve the health of serpentine plant communities through the use of prescribed fire. Underburn approximately 100 acres included as DFPZ treatment.

Aquatic and riparian restoration projects include restoring and enhancing aquatic, native plant, and riparian habitat and improving long term watershed condition by decommissioning 9.5 miles of system roads, replacing or upgrading three culverts to restore aquatic species passage to approximately 5 miles of upstream habitat; and stabilizing stream channels and banks.

Habitat for northern goshawk would be improved by enhancing tree growth and health, and by creating a more desirable open understory on 84 acres included as DFPZ treatment.

Responsible Official

Karen L. Hayden, District Ranger, 875 Mitchell Ave., Oroville, CA 95965 is the Responsible Official. The Forest Service intends to use Stewardship contracting authority to apply the value from timber harvest to offset costs of fuel treatments.

Nature of Decision To Be Made

The Responsible Official will decide whether to implement this proposal, an alternative design that moves the project area towards the desired conditions, or not to implement any project at this time.

Scoping Process

Public questions and comments regarding this proposal are an integral part of this environmental analysis process. Comments will be used to identify issues and develop alternatives to the proposed action. To assist the Forest service in identifying and considering issues and concerns related to the proposed actions, comments should be as specific as possible.

Information about the proposed action will be mailed to the adjacent landowners, as well as to those people and organizations that have indicated a specific interest in the project, to Native American entities, and federal, state, and local agencies. The public will be notified of any meetings regarding this proposal by mailings and press releases sent to local newspapers and media. A community meeting in the project area is planned for January 2008, although specific information is not available at this time.

Preliminary Issues

The following preliminary issues have been identified for this proposal: (a) Impacts of ground disturbing activities on watershed condition, (b) impacts of activities on highly erodible soils, (c) economic feasibility of the project due to high treatment and regeneration costs, and (d) impacts of activities on habitat used by the California spotted owl and northern goshawk. Continued analysis will determine the relevance of these preliminary issues. Additional issues may be identified during the scoping process.

Permits or Licenses Required

No federal permits, licenses, or entitlements are necessary to implement the proposed project. State requirements, based on federal laws, and administered by the County Agricultural Commissioner for air quality management will be followed. These requirements include burning only on permissive burn days or receiving a special variance prior to ignition. Smoke permits are required from the Northern Sierra and Feather River Air Quality Management Districts (AQMD) prior to any understory or pile burning. Timber Harvest Activity Waivers are required from the California Regional Water Quality Control Board.

Comment Requested

This notice of intent initiates the scoping process which guides the development of the environmental impact statement. The public is encouraged to take part in the process and is encouraged to visit with Forest Service officials at any time during the analysis and prior to the decision. The Forest Service will be seeking information, comments, and assistance from Federal, State, and local agencies and other individuals or organizations that may be interested in, or affected by, the proposed vegetation management activities.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the

adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Dated: August 21, 2007.

Karen L. Hayden,

District Ranger.

BILLING CODE 3410-11-M

COMMISSION ON CIVIL RIGHTS**Agenda and Notice of Public Meeting of the Hawaii State Advisory Committee; Correction**

A correction is hereby made to the meeting notice of the Hawaii Advisory Committee that appeared in the second column, first paragraph, at line 8, on August 22, 2007, in Vol. 72 of the **Federal Register** at page 46953. The time for convening the meeting should be 10 a.m. No other corrections are made to that notice.

Dated at Washington, DC, August 27, 2007.

Ivy L. Davis,

*Acting Chief, Regional Programs
Coordination Unit.*

BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE**International Trade Administration**

(A-533-820)

Certain Hot-Rolled Carbon Steel Flat Products From India: Extension of Time Limits for the Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Victoria Cho, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230; telephone: (202) 482-5075.

SUPPLEMENTARY INFORMATION:**Background**

On February 2, 2007, the U.S. Department of Commerce ("Department") published a notice of initiation of the administrative review of the antidumping duty order on hot-rolled carbon steel flat products from India, covering the period December 1, 2005 to November 30, 2006. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 72 FR 5005 (February 2, 2007). The preliminary results of this review are currently due no later than September 2, 2007.

Extension of Time Limit of Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245-day period to issue its preliminary results to up to 365 days.

We determine that completion of the preliminary results of this review within the 245-day period is not practicable for the following reasons. This review covers four companies, and to conduct the sales and cost analyses for each company requires the Department to gather and analyze a significant amount of information pertaining to each company's sales practices, manufacturing costs and corporate relationships. Given the number and complexity of issues in this case, and in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the preliminary results of review by 108 days. Therefore, the preliminary results are now due no later than December 19, 2007. The final results continue to be due 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: August 23, 2007.

Gary Taverman,

Acting Deputy Assistant Secretary for Import Administration.
