

needs of the fair market value determination process.

The statement must also identify each block upon which a bidder participated in a bid but for which it does not possess or control such depth data and information.

In the event your company supplies any type of data to the MMS, in order to get reimbursed, your company must be registered with the Central Contractor Registration (CCR) at <http://www.ccr.gov>. This is a requirement that was implemented on October 1, 2003, and requires all entities doing business with the Government to complete a business profile in CCR and update it annually. Payments are made electronically based on the information contained in CCR. Therefore, if your company is not actively registered in CCR, the MMS will not be able to reimburse or pay your company for any data supplied.

An Example of the Preferred Format for the Geophysical Data and Information Statement and a sample of the Geophysical Envelope Preferred Format are included in the FNOS 205 Package.

Please also refer to NTL No. 2003-G05 for more detail concerning submission of the Geophysical Data and Information Statement, making the data available to the MMS following the lease sale, preferred format, reimbursement for costs, and confidentiality.

National Park Service

Off-Road Vehicle Management Plan, Environmental Impact Statement, Glen Canyon National Recreation Area, Arizona and Utah

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of intent to prepare an Environmental Impact Statement for an Off-Road Vehicle Management Plan, Glen Canyon National Recreation Area, Arizona and Utah.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service is preparing an Environmental Impact Statement (EIS) for an Off-Road Vehicle (ORV) Management Plan for Glen Canyon National Recreation Area, Arizona and Utah. This effort will result in an ORV Management Plan/EIS to guide the management of ORV use at Glen Canyon National Recreation Area (NRA). The ORV Management Plan/EIS may also form the basis for a special regulation pursuant to 36 CFR 4.10 to regulate ORV use at Glen Canyon NRA.

The ORV Management Plan/EIS would address three spheres of ORV use at Glen Canyon: (1) At the Lone Rock Beach area; (2) at 14 designated accessible shoreline areas; and (3) on 388 miles of park roads. The ORV Management Plan/EIS will assess potential environmental impacts associated with a range of reasonable alternatives for managing ORV impacts on park resources such as threatened and endangered species, soils, vegetation, wildlife, cultural resources, and other appropriate topics. Socioeconomic impacts and effects on visitor experience and public safety will also be analyzed.

DATES: To determine significant issues related to ORV management at Glen Canyon NRA, and to identify a range of alternatives for ORV management, the National Park Service will hold public scoping workshops in Page, Arizona, Escalante, Utah, and Monticello, Utah.
