NUCLEAR REGULATORY COMMISSION

Revised Notice of Intent To Prepare a Generic Environmental Impact Statement for Uranium Milling Facilities

AGENCY: United States Nuclear Regulatory Commission (NRC).

ACTION: Revised notice of intent (NOI).

SUMMARY: This notice revises a notice published on July 24, 2007 in the *Federal Register* (72 FR 141) which informed the public of the NRC's intent to prepare a Generic Environmental Impact Statement (GEIS) in accordance with the National Environmental Policy Act (NEPA) and NRC's NEPA implementing regulations contained in 10 CFR part 51. The purpose of this revised notice is to (1) Announce that an additional scoping meeting will be held in Gallup, New Mexico on September 27, 2007 and (2) extend the scoping comment period to October 8, 2007. The GEIS will assess the potential environmental impacts associated with uranium recovery at milling facilities employing the in-situ leach (ISL) process. The GEIS may also assess the potential environmental impacts of alternative methods of uranium recovery (including the conventional milling process).

DATES: The NRC has recently held public meetings in Casper, Wyoming and Albuquerque, New Mexico as part of the public scoping process required by NEPA. In response to public requests, the public scoping period for the GEIS has been extended to October 8, 2007. Written comments submitted by mail should be postmarked by that date to ensure consideration. Comments mailed after that date will be considered to the extent possible.

In addition, the NRC will conduct a third public meeting in Gallup, New

Mexico to assist in defining the appropriate scope of the GEIS, including the significant environmental issues to be addressed. The meeting date, time and location are listed below:

Meeting Date: September 27, 2007, 9 p.m. to 9:30 p.m.

Meeting Location: Best Western Inn and Suites, 3009 West Hwy 66, Gallup, NM 87301-6813, Phone (505) 722-2221.
