SUPPLEMENTARY INFORMATION:

BACKGROUND:

Title V of the Trade and Development Act of 2000 (the Act) created two tariff rate quotas (TRQs), providing for temporary reductions in the import duties on limited quantities of two categories of worsted wool fabrics suitable for use in making suits, suit-type jackets, or trousers: (1) for worsted wool fabric with average fiber diameters greater than 18.5 microns (Harmonized Tariff Schedule of the United States (HTS) heading 9902.51.11); and (2) for worsted wool fabric with average fiber diameters of 18.5 microns or less (HTS heading 9902.51.12). On August 6, 2002, President Bush signed into law the Trade Act of 2002, which includes several amendments to Title V of the Act. On December 3, 2004, the Act was further amended pursuant to the Miscellaneous Trade Act of 2004, Public Law 108-429, by increasing the TRQ for worsted wool fabric with average fiber diameters greater than 18.5 microns, HTS 9902.51.11, to an annual total level of 5.5 million square meters, and extending it through 2007, and increasing the TRQ for average fiber diameters of 18.5 microns or less, HTS 9902.51.15 (previously 9902.51.12), to an annual total level of 5 million square meters and extending it through 2006. On August 17, 2006 the Act was further amended pursuant to the Pension Protection Act of 2006, Public Law 109-280, which extended both TRQs, 9902.51.11 and 9902.51.15, through 2009.

The Act requires that the TRQs be allocated to persons who cut and sew men's and boys' worsted wool suits, suit-type jackets and trousers in the United States. On October 24, 2005, the Department adopted final regulations establishing procedures for allocating the TRQ. See 70 FR 61363; 19 CFR 335. In order to be eligible for an allocation, an applicant must submit an application on the form provided at <http://web.ita.doc.gov/tacgi/wooltrq.nsf/TRQApp> to the address listed above by 5 p.m. on October 5, 2007 in compliance with the requirements of 15 CFR 335. SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) designed the halibut subsistence fishing reporting instruments in this collection to work in conjunction with other halibut harvest assessment measures to retrieve essential Pacific halibut information while minimizing the reporting burden on subsistence halibut fishermen. Ceremonial and Educational Permits in International Pacific Halibut Commission (IPHC) Area 2C or 3A are available exclusively to Alaska Native Tribes listed in 50 CFR 300.65(f)(2). The permits consist of a laminated permit card and a harvest log. Eligible Alaska Native tribes are limited to one Ceremonial Permit Coordinator per tribe, and one authorized instructor per Educational Program. Both permits expire 30 days from date of issuance.

A Community Harvest Permit (CHP) is issued to an Alaska Native Tribe, or to eligible rural communities in the absence of a tribe, provided the tribe or community is listed in § 300.65(f)(1) or

(f)(2). An eligible tribe or community selects individual harvesters who possess particular expertise in halibut fishing to harvest halibut on behalf of the community or tribe under reduced gear and harvest restrictions. A CHP Coordinator maintains possession of the CHP log at all times and issues the CHP permit card to each eligible subsistence fisherman. The CHP Coordinator records harvest information from each fisherman in the CHP log and returns it to NMFS. The CHP permit expires one year from the date of issuance.

II. Method of Collection

Ceremonial harvest and Community harvest applications may be applied for online through the Internet. Educational Permit applications may be completed on-screen, printed, and submitted by mail or fax.
