OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 591

RIN 3206-AL28

Nonforeign Area Cost-of-Living Allowance Rates; Puerto Rico and Hawaii County, HI

AGENCY: Office of Personnel Management.

ACTION: Proposed rule.

SUMMARY: The Office of Personnel Management (OPM) is proposing to change the cost-of-living allowance (COLA) rates received by certain white-collar Federal and U.S. Postal Service employees in Puerto Rico and Hawaii County, HI. The proposed rate changes are the result of interim adjustments OPM calculated based on relative Consumer Price Index differences between the cost-of-living allowance areas and the Washington, DC, area. OPM is also proposing an additional one-time adjustment to the Puerto Rico COLA rate based on the impact of the new sales tax in Puerto Rico.

DATES: We will consider comments received on or before November 5, 2007.

ADDRESSES: Send or deliver comments to Charles D. Grimes III, Deputy Associate Director for Performance Management and Pay Systems, Strategic Human Resources Policy Division, Office of Personnel Management, Room 7300B, 1900 E Street, NW., Washington, DC 20415-8200; fax: (202) 606-4264; or e-mail: COLA@opm.gov.

FOR FURTHER INFORMATION CONTACT: J. Stanley Austin, (202) 606-2838; fax: (202) 606-4264; or e-mail: COLA@opm.gov.

SUPPLEMENTARY INFORMATION: Section 5941 of title 5, United States Code, authorizes Federal agencies to pay cost-of-living allowances (COLAs) to white-collar Federal and U.S. Postal Service employees stationed in Alaska, Hawaii, Guam and the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands (USVI). Executive Order 10000,

as amended, delegates to the Office of Personnel Management (OPM) the authority to administer nonforeign area COLAs and prescribes certain operational features of the program. OPM conducts living-cost surveys in each allowance area and in the Washington, DC, area to determine whether, and to what degree, COLA area living costs are higher than those in the DC area. OPM sets the COLA rate for each area based on the results of these surveys.

As required by section 591.223 of title 5, Code of Federal Regulations, OPM conducts COLA surveys once every 3 years on a rotating basis. For areas not surveyed during a particular year, OPM adjusts COLA rates by the relative change in the Consumer Price Index (CPI) for the COLA area compared with the Washington, DC, area. (See 5 CFR 591.224-591.226.) OPM adopted these regulations pursuant to the stipulation for settlement in *Caraballo et al. v. United States*, No. 1997-0027 (D.V.I.), August 17, 2000. *Caraballo* was a class-action lawsuit which resulted in many changes in the COLA methodology and regulations.

OPM computed interim adjustments based on the relative change in the CPI for the Pacific and Caribbean COLA areas. A separate notice on the calculation of these interim adjustments accompanies this proposed rule. The interim adjustments indicate that, except for Hawaii County and Puerto Rico, the COLA rates for the Pacific and Caribbean COLA areas are currently set at the appropriate levels. For Hawaii County, the adjustments indicate that the COLA rate should be increased from 17 percent to 18 percent. For Puerto Rico, the adjustments indicate the COLA rate should be increased from 10.5 percent to 11 percent. This increase in Puerto Rico supersedes the 1-percent reduction proposed by OPM on October 27, 2006, at 71 FR 63176, based on the 2005 survey results.

Puerto Rico Sales Tax Adjustment

On July 4, 2006, the Puerto Rico government enacted the Tax Justice Act of 2006 (Act No. 117, HB 2193), which established a new Commonwealth sales and use tax of 5.5 percent and authorized an additional municipal sales and use tax of up to 1.5 percent. To measure the impact of the new sales tax on living costs in Puerto Rico, we

applied the sales tax to covered items priced in OPM's 2005 Puerto Rico COLA survey. (The law exempted many items from coverage; e.g., most grocery items, cars, rent, prescription drugs, many professional services, health insurance, and school tuition.) We then recalculated the Puerto Rico price index incorporating the sales tax. The index increased by 1.9 points to 112.94, which translates to a COLA rate of 13 percent. Therefore, to account for this additional cost to Federal employees in Puerto Rico, we are proposing to increase the Puerto Rico COLA rate to 13 percent.

Airworthiness Directives; Boeing Model 737-600, -700, -700C, -800, and -900 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for all Boeing Model 737-600, -700, -700C, -800, and -900 series airplanes. This proposed AD would require a one-time inspection to determine the material of the forward and aft gray water drain masts. For airplanes having composite gray water drain masts, this proposed AD would also require installation of a copper bonding jumper between a ground and the clamp on the tube of the forward and aft gray water composite drain masts. This proposed AD results from a report of charred insulation blankets and burned wires around the forward gray water composite drain mast found during an inspection of the forward cargo compartment on a Model 767-300F airplane. We are proposing this AD to prevent a fire near a composite drain mast and possible disruption of the electrical power system caused by a lightning strike on a composite drain mast, which could result in the loss of several functions essential for safe flight.

DATES: We must receive comments on this proposed AD by October 22, 2007.

Discussion

We have received a report indicating that, during an inspection of the forward cargo compartment on a Model 767-300F airplane, an operator found charred insulation blankets and burned wires around the forward gray water composite drain mast. Additional charring on the insulation blankets was noticed several feet away along the routing of the drain mast's ground wire and power wires. Analysis of the
