SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a document entitled “Guidance for Industry: Manufacturing Biological Intermediates and Biological Drug Substances Using Spore-Forming Microorganisms” dated September 2007. The document provides guidance to manufacturers using spore-forming microorganisms in the production of certain biological products. The guidance document provides recommendations to industry in response to changes made to the requirements for spore-forming microorganisms to allow greater flexibility in manufacturing.

In the **Federal Register** of December 30, 2003, FDA published the direct final rule entitled “Revision of the Requirements for Spore-Forming Microorganisms” (68 FR 75116) and the accompanying proposed rule entitled “Revision of the Requirements for Spore-Forming Microorganisms; Companion to Direct Final Rule” (68 FR 75179) to modify the regulatory requirements for the manufacturing of biological products with spore-formers to allow greater manufacturing flexibility. The modifications were intended to provide alternatives to the then-existing requirements for separate, dedicated facilities and equipment for work with spore-forming microorganisms. In the **Federal Register** of May 14, 2004 (69 FR 26768), FDA published the “Revision of the Requirements for Spore-Forming Microorganisms; Confirmation of Effective Date” confirming the effective date of June 1, 2004, for the direct final rule.

In the **Federal Register** of February 24, 2005 (70 FR 9084), FDA announced the availability of the draft guidance dated February 2005. FDA received a few comments on the draft guidance, and those comments were considered as the guidance was finalized. In addition, editorial changes were made to improve clarity. The guidance announced in this notice finalizes the draft guidance dated February 2005.

The guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115).

The guidance represents the FDA’s current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments regarding this guidance. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy.
