

Multispecies Fishery Management Plan adopted a system to coordinate the management of trans-boundary stocks of cod, haddock, and yellowtail flounder with Canada. As part of that system, each year, the Trans-Boundary Resource Assessment Committee (TRAC) conducts assessments of Eastern Georges Bank cod and haddock, and Georges Bank yellowtail flounder. These assessments provide the scientific advice used to determine management measures (including Total Allowable Catches, or TACs) for the U.S./Canada fishing area (see 50 CFR 648.85(a)). The TRAC is scheduled for June 12–15, 2007 in St. Andrews, New Brunswick, Canada.

Items for discussion at this meeting:

1. Northeast Fisheries Science Center assessment biologists will brief the public on the catches (landings and discards) and survey data that will be used in the 2007 assessments of Eastern Georges Bank cod and haddock, and Georges Bank yellowtail flounder.

2. Fishermen are encouraged to attend and provide their observations on fishing for cod, haddock, and yellowtail flounder on Georges Bank in calendar year 2006.

Assessment results will not be presented because the assessment will not be completed until the following week.

Discussion will be restricted to those issues specifically identified in this notice.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

### Office of the Secretary

#### Defense Science Board

**AGENCY:** Department of Defense.

**ACTION:** Notice of advisory committee meetings.

**SUMMARY:** The Defense Science Board Task Force on Integrating Sensor-Collected Intelligence will meet in closed session on October 16–17, 2007; at Science Applications International Corporation (SAIC), 4001 N. Fairfax Drive, Arlington, VA. The briefing will contain proprietary material and ensuing discussions will be at the collateral secret level.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At the meeting, the Defense Science Board Task Force will: Assess the sufficiency of support for U.S. military forces by current and planned intelligence, surveillance and reconnaissance systems.

The task force's findings and recommendations, pursuant to 41 CFR 102–3.140 through 102–3.165, will be presented and discussed by the membership of the Defense Science Board prior to being presented to the Government's decision maker. Pursuant to 41 CFR 102–3.120 and 102–3.150, the Designated Federal Officer for the Defense Science Board will determine and announce the **Federal Register** when the findings and recommendations of the October 16–17, 2007 meeting are deliberated by the Defense Science Board.

Interested persons may submit a written statement for consideration by the Defense Science Board. Individuals submitting a written statement must submit their statements to the Designated Federal Official at the address detailed below, at any point, however, if a written statement is not received at least 10 calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the Defense Science Board. The Designated Federal Official will review all timely submissions with the Defense Science Board Chairperson, and ensure they are provided to members of the Defense Science Board the meeting that is the subject of this notice.
