SUPPLEMENTARY INFORMATION:

Background

Section 9 (a) and (b) of the National Environmental Education Act of 1990 (Pub. L. 101-619) mandates a National Environmental Education Advisory Council. The Advisory Council provides the Administrator with advice and recommendations on EPA implementation of the National Environmental Education Act. In general, the Act is designed to increase public understanding of environmental issues and problems, and to improve the training of environmental education professionals. EPA will achieve these goals, in part, by awarding grants and/or establishing partnerships with other Federal agencies, state and local education and natural resource agencies, not-for-profit organizations, universities, and the private sector to encourage and support environmental education and training programs. The Council is also responsible for preparing a national biennial report to Congress that will describe and assess the extent and quality of environmental education, discuss major obstacles to improving environmental education, and identify the skill, education, and training needs for environmental professionals.

The National Environmental Education Act requires that the Council be comprised of eleven (11) members appointed by the Administrator of EPA. Members represent a balance of perspectives, professional qualifications, and experience. The Act specifies that members must represent the following sectors: primary and secondary education (one of whom shall be a classroom teacher)—two members; colleges and universities—two members; business and industry—two members; non profit organizations involved in environmental education—two members; state departments of education and natural resources—one member each; senior Americans—one member. Members are chosen to represent various geographic regions of the country, and the Council strives for a diverse representation. The professional backgrounds of Council members should include education, science, policy, or other appropriate disciplines. Each member of the Council shall hold office for a one (1) to three (3) year period. Members are expected

to participate in up to two (2) meetings per year and monthly or more conference calls per year. Members of the Council shall receive compensation and allowances, including travel expenses, at a rate fixed by the Administrator.

Expertise Sought

The NEEAC staff office seeks candidates with demonstrated experience and/or knowledge in any of the following environmental education issue areas:

(a) Integrating environmental education into state and local education reform and improvement; (b) state, local and tribal level capacity building; (c) cross-sector partnerships; (d) leveraging resources for environmental education; (e) design and implementation of environmental education research; (f) evaluation methodology; professional development for teachers and other education professionals; and (g) targeting under-represented audiences, including low-income, multi-cultural, senior citizens and other adults.

The NEEAC staff office is also looking for individuals who demonstrate the ability to make the time commitment, strong leadership skills, strong analytical skills, strong communication and writing skills, the ability to stand apart and evaluate programs in an unbiased manner, team players, have the conviction to follow-through and to meet deadlines, and the ability to review items on short notice.

How To Submit Applications

Any interested and qualified individuals may be considered for appointment on the National Environmental Education Advisory Council. Applications should be submitted in electronic format to the Designated Federal Officer potter.ginger@epa.gov and contain the following: Contact information including name, address, phone and fax numbers and an email address; a curriculum vita or resume; the specific area of expertise in environmental education and the sector/slot the applicant is applying for; recent service on other national advisory committees or national professional organizations and; a one-page commentary on the applicant's philosophy regarding the need for, development, implementation and/or management of environmental education nationally. Additionally, a supporting letter of endorsement is required. This letter may also be submitted electronically as described above.

Persons having questions about the application procedure or who are

unable to submit applications by electronic means, should contact Ginger Potter, DFO, at the contact information provided above in this notice. Non-electronic submissions must contain the same information as the electronic. The NEEAC Staff Office will acknowledge receipt of the application. The NEEAC Staff Office will develop a short list of for more detailed consideration. Short list candidates will be required to fill out the Confidential Disclosure Form for Special Government Employees Serving Federal Advisory Committees at the U.S. Environmental Protection Agency (EPA Form 3110-48). This confidential form allows government officials to determine whether there is a statutory conflict between that person's public responsibilities (which include membership on a Federal advisory committee) and private interests and activities and the appearance of a lack of impartiality as defined by Federal regulation. The form may be viewed and downloaded from the following URL address: <http://www.epa.gov/sab/pdf/epaform3110-48.pdf>.

Dated: September 10, 2007.

Ginger Potter,

Designated Federal Officer.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202-564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated April 6, 2007 (92 FR 17156).

Draft EISs

EIS No. 20070185, ERP No. D-FHW-E40813-GA, Northwest I-75/I-575 Corridor Project, Transportation Improvements, Funding, Cobb and Cherokee Counties, GA.

Summary: EPA expressed environmental concerns about the consideration of alternatives, lack of analysis for mobile source air toxics,

noise impacts, significant impacts to low-income and minority communities and water quality impacts. EPA recommends several mitigation and enhancement measures that could be implemented during and after construction to assist in minimizing impacts to the environment. Rating EC2.

EIS No. 20070212, ERP No. D-TVA-E39069-AL, Bear Creek Dam Leakage Resolution Project, To Modify Dam and Maintain Summer Pool Level of 576 Feet, Bear Creek Dam, Franklin County, AL.

Summary: EPA expressed environmental concerns about wetlands losses through changes in reservoir pool and downstream flows. EPA recommends monitoring and suggest that a Bear Creek Watershed Team be formed to help control reservoir water quality. Rating EC2.

EIS No. 20070221, ERP No. D-AFS-J65483-MT, Butte Resource Management Plan, Implementation, Beaverhead, Broadwater, Deerlodge, Gallatin, Jefferson, Lewis and Clark, Silver Bow and Park Counties, MT.

Summary: EPA expressed environmental concerns about impacts to ecosystem processes, water and habitat quality. EPA requested additional information to fully assess and mitigate all potential impacts of management. Rating EC2.

EIS No. 20070270, ERP No. D-NRC-D09802-MD, License Renewal of the National Bureau of Standards Reactor (NBSR), Renew the Operating License for an Additional 20 Years, National Institute of Standards and Technology (NIST), NUREG-1873, Montgomery County, MD.

Summary: EPA does not object to the proposed action. Rating LO.

EIS No. 20070298, ERP No. D-AFS-J65487-UT, Millville Peak/Logan Peak Road Relocation Project, Provide a Safe, Reliable, Ground Access Route, Logan Ranger District, Wasatch-Cache National Forest, Cache County, UT.

Summary: EPA expressed environmental concerns about the loss of acreage and associated roadless values associated with constructing five miles of new road. EPA requested additional mitigation measures to address the safety issue posed by the high voltage power cable that is becoming increasingly exposed and additional documentation of "irreparable resource damage" to the existing roads as the basis for allowing road construction in roadless areas. Rating EC2.
