AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps

are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Section, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director of FEMA has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Media Bureau, at the request of Woman's World Broadcasting, Inc., deletes vacant Channel 296A at Lynchburg, Tennessee, from the FM Table of Allotments, and allots Channel 230A at Lynchburg, Tennessee, as a vacant channel in the FM Table of Allotments. The purpose of this channel substitution is to accommodate a change of community for FM Station WTSH, which is moving from Rockmart to Aragon, Georgia. The reference coordinates for Channel 230A at Lynchburg, Tennessee, are 35-21-58 NL and 86-17-18 WL, at a site 12.1 km (7.5 miles) northeast of Lynchburg. The Media Bureau also dismisses a

counterproposal filed by Bart Walker to allot Channel 230A to Wartrace, Tennessee, as a first local aural service. See **SUPPLEMENTARY INFORMATION.**

DATES: This rule is effective October 17, 2007.

ADDRESSES: Secretary, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

Deborah A. Dupont, Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Report and Order*, MB Docket No. 05-282, adopted June 13, 2007, and released June 15, 2007. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257), 445 12th Street, SW., Washington, DC 20554. The Commission will send a copy of this Report and Order in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

Every FM channel change set forth in the Report and Order formerly required rule changes to Section 73.202(b), the FM Table of Allotments. See 70 FR 66329 (November 2, 2005). As a result of changes to the Commission's processing rules, modifications of FM channels for existing stations are no longer listed in Section 73.202(b) and are instead reflected in the Media Bureau's Consolidated Data Base System

(CDBS). See *Revision of Procedures Governing Amendments to FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services, Report and Order*, 21 FCC Rcd 14212 (December 20, 2006). Only the substitution of Channel 230A for vacant Channel 296A at Lynchburg, Tennessee, which involves an amendment to Section 73.202(b), is summarized and published in the **Federal Register**. Although the *Report and Order*, as revised, sets forth an effective date of October 8, 2007, the amendment to the FM Table of Allotments and the specified FM license modifications will be effective 30 days after publication of this summary in the **Federal Register** in compliance with Sections 1.427 and 1.429 of the Commission's rules.
