SUPPLEMENTARY INFORMATION:

Title: WIC Breastfeeding Peer Counseling Study.

OMB Number: Not yet assigned.

Form Number: N/A.

Expiration Date: Not yet determined.

Type of Request: New collection of information.

Abstract: Beginning in Fiscal Year 2004 and continuing through to the present, Congress appropriated about \$15 million per year for States to support breastfeeding peer counseling in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC). Prior research has suggested that peer counseling may increase breastfeeding duration rates, and is associated with positive outcomes in minority groups that have proven difficult for WIC to support in

the initiation and continuation of breastfeeding. A primary objective of the WIC Breastfeeding Peer Counseling Study is to assess the implementation of the Loving Support peer counseling program, specifically developed for WIC, in the 86 States and Indian Tribal Organizations that have accepted peer counseling funds, and in a sample of 40 local WIC agencies and organizations that collaborate with these agencies, and in 20 local WIC clinics.

Affected Public: Multiple respondents may be required to complete each data collection instrument. At the State level, respondents include State WIC directors, State WIC breastfeeding and peer counseling coordinators, and State budget officers. At the local level, respondents will include staff at the local WIC agency, including the local WIC director, local breastfeeding and peer counselor coordinators, budget officer, peer counselors, and the person that manages the local WIC agency database; local WIC clinic director or supervisor, local WIC clinic peer counseling coordinator or supervisor, and peer counselors; and the contact person for an agency or organization that collaborates on the local WIC Loving Support peer counseling program.

Estimated Number of Respondents: 618 total. This includes directors of 86 State WIC agencies who will complete a web-based survey, likely with the aid of 86 State breastfeeding or peer counseling coordinators and 86 State WIC budget officers. Interviews at the local WIC agency will include 40 local WIC directors, 40 local WIC breastfeeding or peer counselor coordinators, 40 local WIC budget officers, 40 local WIC agency database managers; and an average of two peer counselors per local WIC agency (80 peer counselors). Forty individuals representing organizations that collaborate with local WIC agencies (e.g., hospitals) will also be interviewed. Interviews at 20 local clinics will be held with 20 local WIC clinic directors or supervisors, 20 local WIC clinic peer counselor coordinators or supervisors, and an average of two peer counselors per local WIC clinic (40 peer counselors).

SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The Codex Committee on Nutrition and Foods for Special Dietary Uses (CCNFSDU) was established to study specific nutritional problems assigned to it by the Commission and advise the Commission on general nutritional issues; to draft general provisions as appropriate, concerning the nutritional aspects of all foods; to develop standards, guidelines, or related texts for foods for special dietary uses, in cooperation with other committees when necessary; and to consider, amend if necessary, and endorse provisions on nutritional aspects proposed for
