BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army

Intent To Grant a Partially Exclusive License for a U.S. Army Owned Invention to Machining Technologies, Inc.

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: The Department of the Army announces that, unless there is an objection, after 15 days it intends to grant a partially exclusive license to Machining Technologies, Inc., a corporation having a place of business in Hebron, Maryland, on "Semi Permanent backup Iron Sight", U.S. patent number 6,779,290. Any license granted shall comply with 35 U.S.C. 209 and 37 CFR part 404.

DATES: File written objections by October 9, 2007.

FOR FURTHER INFORMATION CONTACT: Mr. Timothy S. Ryan, Technology Transfer Program Manager, AMSRD-AAR-EMB, U.S. Army ARDEC, Picatinny Arsenal, NJ 07806-5000, e-mail: *timothy.s.ryan@us.army.mil*, (973) 724-7953.

SUPPLEMENTARY INFORMATION: Written objections must be filed within 15 days from publication date of this notice in the **Federal Register**. Any license granted shall comply with 35 U.S.C. 209 and 37 CFR part 404.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Navy

Revised Notice of Intent To Prepare an Environmental Impact Statement/Overseas Environmental Impact Statement for the Undersea Warfare Training Range and Notice of Request for Public Scoping Comments

AGENCY: Department of the Navy, DoD.

ACTION: Revised Notice of Intent.

SUMMARY: This notice is issued to advise the public that the Draft Environmental Impact Statement/Overseas Environmental Impact Statement (EIS/OEIS) for the Undersea Warfare Training Range (USWTR) will be revised, and to invite the public to provide comments for consideration during preparation of the revised EIS/OEIS.

In compliance with Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality Regulations (40 CFR Parts 1500-1508), and Executive Order 12114, the Department of Navy (Navy) announced the preparation of an EIS for the then "East Coast Shallow Water Training Range EIS/OEIS" on May 13, 1996 (FR 22028) and invited the public to comment on the scope of the EIS/OEIS. Subsequently, a Draft EIS/OEIS was released on October 28, 2005 (FR 62107) to evaluate the potential environmental consequences associated with constructing and operating an Undersea Warfare Training Range (USWTR). In response to comments received from federal agencies, state agencies, and members of the public, Navy determined that the DEIS should be revised and a new DEIS issued, incorporating suggestions received during the public review and comment period. The changes contemplated involve the addition of an alternative and a modification of the methodology used to analyze impacts on marine mammals. Given the nature of these changes, the Navy has decided to reopen the scoping process and invites the public to submit any comments relevant to the scope of issues to be addressed in the revised EIS/OEIS.

Scoping comments previously submitted following publication of the 1996 NOI are still valid and will be considered.

All comments received during the Oct 2005 DEIS public review and comment period will be considered during the course of this scoping process and need not be resubmitted.

The proposed action is to instrument an approximate 500-square-nautical-

mile area of the ocean with undersea cables and sensor nodes, creating a USWTR, and to use the USWTR for anti-submarine warfare (ASW) training. The purpose of the proposed action is to enable the Navy to train effectively in an ocean environment encompassing required water depths (e.g., 120 to 900 feet depth) at a suitable location for Navy Atlantic Fleet units. Training typically would involve an individual unit or up to three vessels and two aircraft using the range at any one time.

The Navy anticipates analyzing four alternative sites. The candidate sites are located in the Atlantic Ocean approximately 30 to 50 nautical miles offshore, within existing Navy Operating Areas (OPAREAs). The three candidate sites previously identified as alternatives would continue to be considered: Offshore of northeastern Virginia, offshore of southeastern North Carolina, and offshore of northeastern Florida. A site offshore of central South Carolina will be added as a fourth alternative.

FOR FURTHER INFORMATION CONTACT: USWTR EIS/OEIS Project Manager, Facilities Engineering Command Atlantic, 6506 Hampton Boulevard, Norfolk, Virginia 23508-1278; telephone: 757-322-4398; facsimile: 757-322-4894. Additional background information on the USWTR, including the prior DEIS and the public comments received, will remain available during this re-opened scoping process via the Web site <http://projects.earthtech.com/USWTR/>.

SUPPLEMENTARY INFORMATION: The Navy requires an undersea warfare training range off the east coast of the U.S. to support training in safe and controlled locations while providing an ocean environment that is consistent with real-world threat conditions. Range instrumentation is required to provide real-time feedback to Navy participants. The offshore instrumented area would be connected to shore via a trunk cable, which allows data gathered during exercises to be transferred for participant feedback.

The Navy's mission is to maintain, train, and equip combat-ready naval forces capable of winning wars, deterring aggression and maintaining freedom of the seas. For that reason, 10 U.S.C. 5062 directs the Chief of Naval Operations to train all naval forces for combat. Therefore, naval forces must have access to training areas where they can develop and maintain skills for wartime missions. ASW is a Navy core capability and is critical to the Navy's mission. The Navy must be trained and capable with active sonars in littoral

waters to provide assured access for the U.S. to strategic areas worldwide. Surface ships, aircraft, and submarines conduct ASW and would be the principal users of the USWTR. The proposed action also would require logistical support for ASW training, for example, the handling (launch and recovery) of non-explosive exercise torpedoes.

The EIS/OEIS will evaluate the potential environmental effects associated with: Physical environment; water resources; sound in the water; biological resources, including marine mammals, fish, and threatened and endangered species; coastal uses and resources; socioeconomic resources; and cultural resources. The analysis will include an evaluation of direct and indirect impacts, and will account for cumulative impacts from other actions. No decision will be made to implement any alternative until the EIS/OEIS process is completed and a Record of Decision is signed by the Assistant Secretary of the Navy (Installations and Environment).

The Navy is re-opening a scoping period to identify new community concerns and local issues to be addressed in the EIS/OEIS. Federal agencies, state agencies, local agencies, and interested persons are encouraged to provide written comments to the Navy to identify specific issues or topics of environmental concern that should be addressed in the EIS/OEIS. Comments previously submitted in response to the October 2005 draft EIS will be considered as scoping comments, and need not be resubmitted. Written comments must be postmarked by October 22, 2007, and should be mailed to: Naval Facilities Engineering Command, Atlantic, 6506 Hampton Boulevard, Norfolk, Virginia 23508-1278, Attention: USWTR EIS/OEIS Project Manager, telephone: 757-322-4398, facsimile: 757-322-4894.

Dated: September 18, 2007.

T.M. Cruz,

Lieutenant, Judge Advocate General's Corps, U.S. Navy, Federal Register Liaison Officer.

BILLING CODE 3810-FF-P

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Acting Leader, Regulatory Information Management Services, Office of Management, invites comments on the proposed information

collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before November 20, 2007.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: September 14, 2007.

James Hyler,

Acting Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of Management.

Office of Postsecondary Education

Type of Review: Revision.

Title: Targeted Teacher Shortage Areas.

Frequency: Annually.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 57.

Burden Hours: 4,560.

Abstract: This request is for approval of record-keeping and reporting requirements that are contained in the Federal Family Education Loan Program (FFELP) regulations which address the targeted teacher deferment provision of the Higher Education Act of 1965, as amended. The information collected is necessary for a state to support its annual request for designation of teacher shortage areas within the state. The collection of certification documentation by the borrower/scholar is necessary to support his/her request for a deferment/reduction in teaching obligation or cancellation of their loan debt.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3460. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW, Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Correction notice.

SUMMARY: On September 12, 2007, the Department of Education published a notice in the **Federal Register** (Page 52090, Column 2) for the information collection, "Early Childhood Longitudinal Study Birth Cohort, Kindergarten Year Delayed Entry and Repeaters." This notice hereby corrects the burden hours to 2,408 and the annual responses to 8,787.

The IC Clearance Official, Regulatory Information Management Services,
