Technical Amendments to Federal Motor Carrier Safety Regulations

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Final rule.

SUMMARY: This final rule makes technical corrections throughout 49 Code of Federal Regulations subtitle B, chapter III. In 2007, the FMCSA moved to 1200 New Jersey Avenue, SE., Washington, DC 20590. This rule changes obsolete references to the old address. In addition, we are making minor editorial changes to correct errors and omissions and improve clarity. This rule does not make any substantive changes to the affected parts of the Federal Motor Carrier Safety Regulations.

DATES: Effective October 1, 2007.

SUPPLEMENTARY INFORMATION:**Legal Basis for the Rulemaking**

The provisions of the Federal Motor Carrier Safety Regulations (FMCSRs) amended by this rule are based on many different statutes. The legal authority for each of those provisions was explained when the requirement was originally adopted and is summarized at the beginning of each part in title 49, Code of Federal Regulations (CFR). No further analysis is required here.

A few of the amendments made by this rule are required by the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA–LU), Public Law 109–59, August 10, 2005. Because the SAFETEA–LU mandates left the Federal Motor Carrier Administration (FMCSA) no discretion, the changes (described later in the preamble) are appropriate for a technical amendment.

Title 49 CFR, subtitle B, chapter III contains all the FMCSRs.

Background

In 2007, FMCSA moved its headquarters from 400 Seventh Street, SW., Washington, DC 20590 to 1200 New Jersey Avenue, SE., Washington, DC 20590–0001. The move makes it necessary to amend the CFR to change references to our address wherever they occur in the regulations.

This document also makes editorial changes to correct inaccurate references and citations, improve clarity, and fix errors. These minor editorial changes are set out below, in a section-by-section description of the changes.

Changes in SAFETEA–LU affected the financial responsibility requirements of both property and passenger carriers.

Section 4120(b)(1) of SAFETEA–LU amended the reach of the financial responsibility statute for property carriers from “transportation of property for compensation by motor vehicle * * *” [49 U.S.C. 31139(b)(1)] to “transportation of property by *commercial motor vehicle* * * *” Section 4120(a)(1) changed the reach of the financial responsibility statute from “transportation of passengers for compensation by motor vehicle * * *” [49 U.S.C. 31138(a)] to “transportation of passengers by *commercial motor vehicle* * * *”

A commercial motor vehicle, for these purposes, means a self-propelled or towed vehicle used on the highways in interstate commerce to transport passengers or property, if the vehicle—

(A) Has a gross vehicle weight rating or gross vehicle weight of at least 10,001 pounds, whichever is greater;

(B) Is designed or used to transport more than 8 passengers (including the driver) for compensation;

(C) Is designed or used to transport more than 15 passengers, including the driver, and is not used to transport passengers for compensation * * * [49 U.S.C. 31132(1)(A)–(C)].

Part 387 of 49 CFR has to be changed to reflect these modifications to FMCSA's authority to set insurance standards.

As a result of the change by section 4120(b)(1), the FMCSA no longer has the authority to set insurance standards for small freight vehicles with a GVW/GVR under 10,001 pounds (unless they are hauling placardable quantities of hazardous materials). We are deleting § 387.303(b)(1)(i) to remove the reference to those small freight vehicles. In addition, section 4120(a)(1) modified FMCSA's authority to set insurance standards for passenger carriers. At or below the 15-passenger threshold, FMCSA's authority is limited to passenger vehicles “designed or used to transport more than 8 passengers (including the driver) for compensation.” We are removing the reference in § 387.303 (b)(1)(ii) to “Any vehicle with a seating capacity of 15 passengers or less.” We are adding, instead, a reference to “Any vehicle designed or used to transport more than 8 passengers (including the driver) for compensation.”

These amendments do not impose any new requirements and make no substantive changes to the CFR. Notice and comment are unnecessary.

Section by Section

Section 381.315. Paragraph (d)(2) is amended by replacing the old uniform resource locator (URL) for the DOT

Dockets Management System with a new reference to the Federal Docket Management System at <http://www.regulations.gov>.

Section 385.13. We are amending paragraph (d) by renumbering the subparagraphs and making wording changes to improve clarity.

Section 385.423. Paragraph (c) is amended by replacing the reference to §§ 386.31 and 386.33 with a new reference to §§ 386.5, 386.6, and 386.8. Sections 386.31 and 386.33 were deleted and superseded by §§ 386.6 and 386.5, respectively, on May 18, 2005 (70 FR 28467–28486). The cross reference to § 386.8 is added for clarification.

Part 385 Appendix B, Explanation of Safety Rating Process, is changed to reflect previous amendments to the CFR that were inadvertently never incorporated in the appendix. Before part 382 was revised on August 17, 2001 (66 FR 43103), the post-accident testing requirements for alcohol and controlled substances testing were both in § 382.303(a). For clarification, the revision kept the alcohol testing requirement in paragraph (a) and put the controlled substances testing requirement in paragraph (b). The same 2001 revision of § 382.115 clarified that all the previous implementation dates had elapsed and required all motor carriers, both domestic and foreign, to implement the testing program requirements when they begin operating commercial motor vehicles in the United States. We are changing part 385 Appendix B to correctly reflect those 2001 revisions.

Section 386.2. In the definition of “Assistant Administrator,” § 386.2 is amended by correcting the reference to the United States Code (U.S.C.). The citation, which now reads “49 U.S.C. 113(d),” is changed to read “49 U.S.C. 113(e).”

Section 386.7. We are removing the paragraph designation (a) to correct the section.

Section 387.303. Because of the changes in SAFETEA–LU, described in the “Background” section above, paragraph (b)(1)(i) is rescinded and the table in (b)(1)(ii) is changed. In paragraph (b)(1)(ii), the second entry in the table, which used to cover any passenger vehicle with “a seating capacity of 15 passengers or less,” now is limited to vehicles “designed or used to transport more than 8 passengers (including the driver) for compensation.” Paragraph (b)(1)(ii) is also corrected to remove an obsolete reference to effective dates.

Section 389.5. We are clarifying paragraph (b) by renumbering and by adding a reference to the *regulations.gov*

Web site where readers can have access to the Federal Docket Management System. We are also changing the address in paragraph (a).

Section 390.27. The table is corrected by moving New Mexico into the Western Service Center, which now has responsibility for that State. This document also changes the addresses for the Eastern, Southern, and Western Service Centers.

Section 391.23. Paragraph (c)(4) is corrected by changing “For a drivers” to “For drivers,” to make the sentence grammatically correct.

Section 392.9. Paragraph (a)(1) is amended to correct the cross reference to reflect changes published in the **Federal Register** on September 27, 2002 (67 FR 61225). The new reference is to §§ 393.100 through 393.136

Section 395.1. On August 25, 2005 (70 FR 50071), the Agency amended the hours of service rules but in instructing the revision of paragraph (g), the Agency inadvertently omitted paragraphs (g)(3)(i) through (iv) of § 395.1 from the annual Code of Federal Regulations for October 1, 2005, and October 1, 2006. The 2005 amendment should have specified the revision of paragraph (g)(3) introductory text; the Agency never intended to remove paragraphs (g)(3)(i) through (iv). We are reinstating those paragraphs to correct that omission. Therefore, amendatory instruction 39 in this rule revises paragraph (g)(3) to correctly reinstate paragraphs (g)(3)(i) through (iv).

Rulemaking Analyses and Notices

Administrative Procedure Act

The Administrative Procedure Act provides exceptions to its notice and public comment procedures when an agency finds there is good cause on the basis that those procedures are “impracticable, unnecessary, or contrary to the public interest.” (See 5 U.S.C. 553(b).) As stated above, the amendments made by this final rule merely update mailing addresses, correct inadvertent errors and omissions, remove obsolete references, and make minor editorial changes to improve clarity and consistency. These amendments do not impose any new requirements, nor do they make any substantive changes to the CFR. For these reasons, the FMCSA finds good cause that notice and public comment are unnecessary. Further, the Agency finds good cause under 5 U.S.C. 553(d)(3) to make the amendments effective upon publication.

Executive Order 12866 (Regulatory Planning and Review) and DOT Regulatory Policies and Procedures

The FMCSA has determined that this action is not a significant regulatory action within the meaning of Executive Order 12866 or within the meaning of Department of Transportation regulatory policies and procedures. The Office of Management and Budget (OMB) did not review this document. We expect the final rule will have minimal costs; therefore, a full regulatory evaluation is unnecessary.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (5 U.S.C. 601–612), FMCSA has evaluated the effects of this rule on small entities. Because the rule only makes editorial corrections and places no new requirements on the regulated industry, FMCSA certifies that this action will not have a significant economic impact on a substantial number of small entities.

Unfunded Mandates Reform Act of 1995

This rulemaking will not impose an unfunded Federal mandate, as defined by the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1532, *et seq.*), that will result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$120 million or more in any 1 year.

Executive Order 12988 (Civil Justice Reform)

This action will meet applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Executive Order 13045 (Protection of Children)

The FMCSA analyzed this action under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. We determined that this rulemaking will not concern an environmental risk to health or safety that may disproportionately affect children.

Executive Order 12630 (Taking of Private Property)

This rulemaking does not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Executive Order 13132 (Federalism)

The FMCSA analyzed this rule in accordance with the principles and criteria contained in Executive Order 13132. The FMCSA has determined that this rulemaking will not have a substantial direct effect on States, nor will it limit the policy-making discretion of the States. Nothing in this document will preempt any State law or regulation. The FMCSA has therefore determined this rule does not have federalism implications.

Executive Order 12372 (Intergovernmental Review)

The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this action.

Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)) requires that FMCSA consider the impact of paperwork and other information collection burdens imposed on the public. We have determined that no new information collection requirements are associated with this final rule.

National Environmental Policy Act

The FMCSA analyzed this final rule for the purpose of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) and determined under our environmental procedures Order 5610.1, issued March 1, 2004 (69 FR 9680), that this action would not have any effect on the quality of the environment. Therefore, this final rule is categorically excluded from further analysis and documentation in an environmental assessment or environmental impact statement.

The FMCSA also analyzed this rule under the Clean Air Act, as amended (CAA), section 176(c) (42 U.S.C. 7401 *et seq.*), and implementing regulations promulgated by the Environmental Protection Agency. Approval of this action is exempt from the CAA's general conformity requirement since it will have no effect on the environment.

Executive Order 13211 (Energy Effects)

The FMCSA analyzed this action under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We determined that it is not a "significant energy action" under that Executive Order

because it will not be economically significant and will not be likely to have an adverse effect on the supply, distribution, or use of energy.

operations in commerce. The out-of-service order shall apply both to the motor carrier's operations in interstate commerce and to its operations affecting interstate commerce.

(2) If a motor carrier's intrastate operations are declared out of service by a State, FMCSA must issue an order placing out of service the carrier's operations in interstate commerce. The following conditions apply:

(i) The State that issued the intrastate out-of-service order participates in the

Motor Carrier Safety Assistance Program and uses the FMCSA safety rating methodology provided in this part; and

(ii) The motor carrier has its principal place of business in the State that issued the out-of-service order.

(iii) The order prohibiting the motor carrier from operating a CMV in interstate commerce shall remain in effect until the State determines that the carrier is fit.

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason quota transfer.

SUMMARY: NMFS announces that State of Florida is transferring commercial bluefish quota to the State of New Jersey from its 2007 quota. By this action, NMFS adjusts the quotas and announces the revised commercial quota for each state involved.

DATES: Effective September 26, 2007 through December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Emily Bryant, Fishery Management Specialist, (978) 281-9244, fax (978) 281-9135.

SUPPLEMENTARY INFORMATION: Regulations governing the Atlantic bluefish fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned among the coastal states from Florida through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.160.

Two or more states, under mutual agreement and with the concurrence of the Administrator, Northeast Region, NMFS (Regional Administrator), can transfer or combine bluefish commercial quota under § 648.160(f). The Regional Administrator is required to consider the criteria set forth in § 648.160(f)(1) in

the evaluation of requests for quota transfers or combinations.

Florida has agreed to transfer 309,125 lb (140,160 kg) of its 2007 commercial quota to New Jersey. The Regional Administrator has determined that the criteria set forth in § 648.160(f)(1) have been met. The revised bluefish quotas for calendar year 2007 are: New Jersey, 1,579,605 lb (716,496 kg); and Florida, 553,488 lb (251,057 kg).

Classification

This action is taken under 50 CFR part 648 and is exempt from review under Executive Order 12866.

Fisheries of the Northeastern United States; Summer Flounder, Scup, and Black Sea Bass Fisheries; Framework Adjustment 7

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to implement measures contained in Framework Adjustment 7 (Framework 7) to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP). Framework 7 will broaden the FMP stock status determination criteria for summer flounder, scup, and black sea bass, while maintaining objective and measurable criteria for identifying when the FMP stocks are overfished or approaching an overfished condition. The framework action will also establish acceptable categories of

peer review for providing new or revised stock status determination criteria for the Council to use in its annual management measures for each species. This action is necessary to ensure that changes or modification to the stock status determination criteria constituting the best available peer reviewed scientific information are accessible for the management of these three species in as timely a manner as is possible. The intended effect of this action is to improve the timeliness and efficiency of incorporating the best available scientific information, consistent with National Standards 1 and 2 of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), into the management processes for the three species covered by the FMP.

DATES: This rule is effective October 31, 2007.

ADDRESSES: Copies of Framework Adjustment 7 are available from Daniel T. Furlong, Executive Director, Mid-Atlantic Fishery Management Council, Room 2115, Federal Building, 300 South New Street, Dover, DE 19901-6790. The framework document is also accessible via the Internet at <http://www.nero.noaa.gov>.

FOR FURTHER INFORMATION CONTACT: Michael Ruccio, Fishery Policy Analyst, (978) 281-9104.

SUPPLEMENTARY INFORMATION:

Background

The proposed rule for Framework 7 was published in the **Federal Register** on August 6, 2007 (72 FR 43587). A complete discussion of the development and rationale for the framework appeared in the preamble of the proposed rule and is not repeated here.

The current stock status determination criteria for summer flounder (*Paralichthys dentatus*), scup (*Stenotomus chrysops*), and black sea bass (*Centropristis striata*) are found in Amendment 12 to the FMP. Prior to the development of Framework 7, the Mid-Atlantic Fishery Management Council (Council) would be required to enact a framework adjustment or an amendment to the FMP to modify or replace these stock status determination criteria on a case-by-case basis.
