Proposed Project

Select Agent Distribution Activity: Request for Select Agent (OMB Control No. 0920-0591)—Extension with change—National Center for Preparedness, Detection, and Control of Infectious Diseases (NCPDCID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention is requesting a three year extension to continue data collection under the Select Agent Distribution Activity. The form used for this activity is currently approved under OMB Control No. 0920-0591. The purpose of this data collection is to provide a systematic and consistent mechanism to review requests that come to CDC for Select Agents. The term select agents is used to described a limited group of viruses, bacteria, rickettsia, and toxins that have the potential for use as agents of bioterrorism, inflicting significant morbidity and mortality on susceptible populations. In light of current terrorism concerns and the significant NIH grant monies directed toward Select Agent research, CDC receives hundreds of requests for Select Agents from researchers. The approximately 900 applicants are required to complete an application form in which they identify themselves and their institution, provide a Curriculum Vitae or biographical sketch, a summary of their research proposal, and sign indemnification and material transfer agreement statements. A user fee will be collected to recover costs for materials, handling and shipping (except for public health laboratories). The cost to the respondent will vary based on which agent is requested. In this request, CDC is requesting approval for approximately 450 hours; no change from the currently approved burden. The only change to this data collection request is updating the name of the National Center on the application form. The National Center for Preparedness, Detection, and Control of Infectious Diseases officially became a National Center in April, 2007.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Researcher	900	1	30/60	450

Dated: September 25, 2007.

I. Background

A. Medicare Part A—Hospital Insurance

Under section 1816 of the Social Security Act (the Act), public or private organizations and agencies participate in the administration of Part A (Hospital Insurance) of the Medicare program under agreements with CMS. These agencies or organizations, known as fiscal intermediaries (FIs), determine whether medical services are covered under Medicare, determine correct payment amounts and then make payments to the health care providers (for example, hospitals, skilled nursing facilities (SNFs), and community mental health centers) on behalf of the beneficiaries. Section 1816(f) of the Act requires us to develop criteria, standards, and procedures to evaluate an FI's performance of its functions under its agreement.

Section 1816(e)(4) of the Act requires us to designate regional agencies or organizations, which are already Medicare FIs under section 1816 of the Act, to perform claim processing functions for freestanding home health agency (HHA) claims. We refer to these organizations as Regional Home Health Intermediaries (RHHIs) under the 42 CFR 421.117.

The evaluation of FI performance is part of our contract management process. These evaluations need not be limited to the current fiscal year (FY), other fixed term basis, or agreement term.

B. Medicare Part B—Supplementary Medical Insurance

Under section 1842 of the Act, we are authorized to enter into contracts with carriers to fulfill various functions in the administration of Part B, Supplementary Medical Insurance of the Medicare program. Beneficiaries,
