

was reviewed by the SAB (see http://www.epa.gov/sab/pdf/sab_05_004.pdf). EPA used advice received from the SAB and comments from stakeholders to develop an improved and updated draft Report on the Environment 2007. The Report on the Environment 2007 consists of: a Science Report (ROE 2007 Science Report) containing detailed scientific and technical information, a Highlights Document written for concerned citizens, and an electronic document facilitating access to material in the reports. The ROE 2007 Science Report asks key questions about the current status of, and trends in, the condition of the environment and human health. These questions are intended to be relevant to EPA's current regulatory and programmatic activities and mission, and they have been answered using a suite of environmental and human health indicators.

EPA's Office of Research and Development requested that the SAB review the ROE 2007 Science Report. In response to EPA's request, the SAB Staff office formed the Panel for the Review of EPA's 2007 Report on the Environment. Background information on the Panel formation process was provided in a **Federal Register** notice published on May 25, 2006 (71 FR 30138). The Panel has previously held a teleconference and a face-to-face meeting (72 FR 29498). Information about the SAB Panel for the Review of EPA's 2007 Report on the Environment is available on the SAB Web site at: <http://www.epa.gov/sab>.

Availability of Meeting Materials: The draft Report on the Environment 2007: Science Report reviewed by the SAB Panel is available on the following EPA Office of Research and Development Web Site: <http://cfpub.epa.gov/ncea/cfm/recordisplay.cfm?deid=140917>. The agenda and other material for the upcoming public teleconference will be posted on the SAB Web Site at: <http://www.epa.gov/sab/> in advance of the teleconference.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the SAB Panel to consider during the advisory process. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes per speaker, with no more than a total of 30 minutes for all speakers. Interested parties should contact Dr. Armitage, DFO, in writing (preferably via e-mail) at the contact information noted above, no later than October 17, 2007 to be placed on a list of public speakers for the teleconference. **Written Statements:**

Written statements should be received in the SAB Staff Office by October 17, 2007 so that the information may be made available to the SAB Panel members for their consideration.

Guidance on Recommended Environmental Hazard Statements for Outdoor Residential Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Agency seeks public comment on a draft Pesticide Registration (PR) Notice entitled “Environmental Hazard Statements for Outdoor Residential Pesticides”. The proposed guidance is directed toward current or prospective registrants of outdoor residential use pesticides on recommended environmental hazard language. This guidance recommends new environmental hazard statements that are designed to replace language created for agricultural products with statements that are easier for consumers to understand. The new environmental hazard statements are divided by product type (e.g., liquid ready-to-use, broadcast granular), and recommends specific language for each product type to minimize risks to the human health and the environment, with emphasis on reducing risks to water. Revisions to product labels using these new statements may be made by notification.
