

summer flounder Federal permit holders until it is determined that the quota has been fully harvested.

DATES: Effective 0001 hours, October 10, 2007, through December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Emily Bryant, Fishery Management Specialist, (978) 281-9244.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.100.

NMFS, in compliance with regulations found at 50 CFR part 648, closed the Federal commercial summer flounder fishery for the State of Connecticut after determining through quota monitoring that Connecticut had harvested its allocated summer flounder quota. This closure published at 72 FR 48945, August 27, 2007, was effective August 27, 2007, and was intended to last through December 31, 2007.

Later analyses comparing electronic dealer reports to commercial fishermen logbooks and Federal fishing vessel trip reports have revealed instances of summer flounder landings being attributed to Connecticut that were actually landed in other states. Due to this new information, Connecticut has reinstated a possession limit for the commercial harvest of summer flounder of 75 lb (34 kg). This notification announces NMFS's decision to allow Federally permitted vessels to land summer flounder in Connecticut until the quota is determined to be fully harvested. Therefore, effective 0001 hours October 10, 2007, through December 31, 2007, further landings of summer flounder in Connecticut by vessels holding summer flounder commercial Federal fisheries permits are allowed until the remaining quota has been harvested. Effective 0001 hours, October 10, 2007, through December 31, 2007, federally permitted dealers are also notified that they may purchase summer flounder from federally permitted vessels that land in Connecticut for the remainder of the quota harvest.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 3, 2007.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Services.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 070213033-7033-01]

RIN 0648-XD21

Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel in the Western Aleutian District of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Atka mackerel in the Western Aleutian District of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2007 Atka mackerel total allowable catch (TAC) in the Western Aleutian District of the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 4, 2007, through 2400 hrs, A.l.t., December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Jennifer Hogan, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2007 Atka mackerel TAC in the Western Aleutian District of the BSAI is 8,880 metric tons (mt) as established by the 2007 and 2008 final harvest specifications for groundfish in the BSAI (72 FR 9451, March 2, 2007).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2007 Atka mackerel TAC in the Western Aleutian District of the BSAI will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 8,870 mt, and is setting aside the remaining 10 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the Western Aleutian District of the BSAI.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Atka mackerel in the Western Aleutian District of the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 3, 2007.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 3, 2007.

Emily H. Menashes
