Aldicarb Reregistration Eligibility Decision; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the N-methyl carbamate pesticide aldicarb, and opens a public comment period on this document. The Agency's risk assessments and other related documents also are available in the aldicarb Docket. Aldicarb is a restricted use systemic insecticide, acaricide and nematocide used to control various insect species, including nematodes. Aldicarb is registered for use on agricultural crops including citrus, cotton, dry beans, peanuts, pecans, potatoes, sorghum, soybeans, sugar beets, sugarcane, sweet potatoes, and seed alfalfa (CA). In addition, aldicarb may be applied to field grown ornamentals (CA) and tobacco, and on coffee grown in Puerto Rico. There are no aldicarb products intended for sale to homeowners or for use in residential settings. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed a RED for the N-methyl carbamate pesticide, aldicarb under section 4(g)(2)(A) of FIFRA. Aldicarb is a restricted use systemic insecticide, acaricide and nematocide used to control various insect species. Aldicarb is registered for

use on agricultural crops including citrus, cotton, dry beans, peanuts, pecans, potatoes, sorghum, soybeans, sugar beets, sugarcane, sweet potatoes, and seed alfalfa (CA). In addition, aldicarb may be applied to field grown ornamentals (CA) and tobacco, and on coffee grown in Puerto Rico. There are no aldicarb products intended for sale to homeowners or for use in residential settings. EPA has determined that the data base to support reregistration is substantially complete and that products containing aldicarb are eligible for reregistration provided the risks are mitigated either in the manner described in the RED or by another means that achieves equivalent risk reduction. Upon submission of any required product specific data under section 4(g)(2)(B) of FIFRA and any necessary changes to the registration and labeling (either to address concerns identified in the RED or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) of FIFRA for products containing aldicarb.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, aldicarb was reviewed through the full 6-Phase process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for aldicarb.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. The Agency is issuing the aldicarb RED for public comment. This comment period is intended to provide an additional opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for aldicarb. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and regulations.gov. If any comment significantly affects the document, EPA also will publish an amendment to the RED in the **Federal Register**. In the absence of substantive comments requiring changes, the aldicarb RED will be implemented as it is now presented.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration, before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Announcement of the National Enforcement and Compliance Assurance Priorities for Fiscal Years 2008, 2009 and 2010

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This Notice is a Federal Agency announcement of the triennial national enforcement and compliance assurance priorities to be addressed for fiscal years 2008, 2009 and 2010. EPA appreciates the comments submitted in March 2007 during the priority identification process in response to the February 9, 2007 **Federal Register** Notice (72 FR 6239). The final priority selections have been incorporated into the EPA's Office of Enforcement and Compliance Assurance National Program Managers' (NPM) Guidance (which provides national program direction for all EPA Regional offices). These priorities also support implementation of the enforcement and

compliance goals and objectives outlined in Goal 5 of EPA's Strategic Plan, as mandated under the Government Performance and Results Act.

FOR FURTHER INFORMATION CONTACT:

Christopher Knopes, Deputy Director, National Planning Measures and Analysis Staff; telephone: (202) 564-2337 or facsimile: (202) 564-0027, e-mail address: knopes.christopher@epa.gov.

SUPPLEMENTARY INFORMATION:

A. General Information

EPA's Office of Enforcement and Compliance Assurance (OECA) selects multi-year national priorities focusing on specific environmental problems, risks, or patterns of noncompliance. A performance based strategy is developed for each national priority to characterize the problem and set goals for addressing it. The intent of this Notice is to announce EPA's enforcement and compliance assurance priorities for the years 2008-2010.

The FY 2008-2010 OECA national priorities are shown below.

- Clean Water Act—Stormwater.
- Clean Water Act—Combined Sewer Overflow.
- Clean Water Act—Sanitary Sewer Overflow.
- Clean Water Act—Concentrated Animal Feeding Operations.
- Clean Air Act—New Source Review/Prevention of Significant Deterioration.
- Clean Air Act—Air Toxics.
- RCRA & CERCLA—Financial Assurance.
- RCRA—Mineral Processing.
- Indian Country.

The FY 2005-2007 Petroleum Refining priority will not continue into FY 2008-2010 as a national priority. The priority has met its primary goal of addressing 80% of the national refining capacity and was returned to the core program at the end of FY 2006. It is important to note that discontinuation as a national priority does not mean that the Agency will no longer focus on this area, but rather the work will continue as part of the Agency's core program activities.

For each of the national priority areas, EPA has developed a strategy designed to achieve specific goals. The strategy summaries included here contain a description of the environmental problem or noncompliance problem; why the Office of Enforcement and Compliance Assurance is addressing the problem; how the problem will be addressed; and, highlights the progress made by the priorities for fiscal year 2005 through 2007. The strategy
