DATES: Only written comments and/or application for a license, which are received by the NIH Office of Technology Transfer on or before December 17, 2007 will be considered.

ADDRESSES: Requests for a copy of the patent applications, inquiries, comments and other materials relating to the contemplated license should be directed to: Fatima Sayyid, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852–3804; Telephone: (301) 435–4521; Facsimile: (301) 402–0220; e-mail: *Fatima.Sayyid@nih.hhs.gov*.

SUPPLEMENTARY INFORMATION: The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within 60 days from the date of this published Notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Properly filed competing applications for a license filed in response to this notice will be treated as objections to the contemplated license. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: October 11, 2007.

Steven M. Ferguson,

Director, Division of Technology Development and Transfer, Office of Technology Transfer, National Institutes of Health.

BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Prospective Grant of Exclusive License: Treatment of Proliferative Disorders Using an Unexpected mTOR Kinase Inhibitor

AGENCY: National Institutes of Health, Public Health Service, HHS.

ACTION: Notice.

SUMMARY: This is notice, in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i), that the National Institutes of Health (NIH), Department of Health and Human Services (HHS), is contemplating the grant of an exclusive license to practice the invention embodied in PCT patent application PCT/US2004/041265 filed December 9, 2004, entitled: ''Methods for Suppressing an Immune Response or Treating a Proliferative Disorder'' [HHS Reference Number: E–259–2003/0–PCT–02], to Emiliem, Inc., a Delaware Corporation, having a place of business in Emeryville, California. The field of use may be limited to the use of 2-(4-piperazinyl) substituted 4H-1-benzopyran-4-one compounds, including 2-(4-piperazinyl)-8-phenyl-4H-1-benzopyran-4-one (LY303511), for the treatment of cancer and/or other proliferative disorders not currently licensed, excluding the treatment and prevention of stenosis and restenosis. The United States of America is an assignee of the patent rights in these inventions.

DATES: Only written comments and/or application for a license, which are received by the NIH Office of Technology Transfer on or before December 17, 2007 will be considered.

ADDRESSES: Requests for a copy of the patent application, inquiries, comments and other materials relating to the contemplated license should be directed to: Susan Carson, D. Phil., Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852–3804; Email: *carsonsu@od.nih.gov;* Telephone: (301) 435–5020; Facsimile: (301) 402–0220.

SUPPLEMENTARY INFORMATION: The search for specific kinase inhibitors is an active area of drug development as there is a continued need for effective anti-proliferative therapeutics with acceptable toxicities. The core invention is a novel method of use of one of the 4H-1-benzopyran-4-one derivatives (LY303511) which has been shown to target mTOR and casein kinase 2 (CK2) without affecting PI3K activity (JPET, May 26, 2005, doi: 10.1124/jpet.105.083550). Proof of concept data is available in an *in vivo* human zenograft PC–3 prostate tumor model, without observed toxicity. *In vitro* data suggest that (2-(4-piperazinyl)-8-phenyl-4H-1-benzopyran-4-one and derivatives may be effective in treating inflammatory, autoimmune and other proliferative disorders including restenosis, inflammatory bowel disease and a variety of cancers. Method of use claims are directed to derivatives of 2-(4-piperazinyl)-substituted 4H-1-benzopyran-4-one compounds as anti-proliferative, immunosuppressive, anti-inflammatory, anti-restenosis and anti-neoplastic agents.

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within 60 days from the date of this published Notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Properly filed competing applications for a license filed in response to this notice will be treated as objections to the contemplated license. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: October 10, 2007.

Steven M. Ferguson,

Director, Division of Technology Development and Transfer, Office of Technology Transfer, National Institutes of Health.

BILLING CODE 4140–01–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. COTP Corpus Christi 07–085]

South Texas Area Maritime Security (STAMS) Committee; Vacancy

AGENCY: Coast Guard, DHS.

ACTION: Solicitation for membership.

SUMMARY: This notice requests individuals interested in serving on the South Texas Area Maritime Security (STAMS) Committee to submit their application for a potential opening on the committee to the Corpus Christi Captain of the Port/Federal Maritime Security Coordinator.

DATES: Applications should reach the Corpus Christi Captain of the Port/Federal Maritime Security Coordinator on or before October 30, 2007.

ADDRESSES: Requests for membership should be submitted to the Captain of the Port/Federal Maritime Security Coordinator at the following address:

Commander, USCG Sector Corpus Christi, 8930 Ocean Drive, Hangar 41, Corpus Christi, Texas 78419.

FOR FURTHER INFORMATION CONTACT: Mr. John Zarbock at 361–888–3162 (X501).

SUPPLEMENTARY INFORMATION:

Authority

Section 102 of the Maritime Transportation Security Act (MTSA) of 2002 (Pub. L. 107–295) added section 70112 to Title 46 of the U.S. Code, and authorized the Secretary of the
