

to this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OPPT-2006-0852, which is available for online viewing at <http://www.regulations.gov>, or in person inspection at the OPPT Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Pollution Prevention and Toxics Docket is 202-566-0280.

Use EPA's electronic docket and comment system at www.regulations.gov, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Chemical-Specific Rules, TSCA Sec. 8(a).

ICR numbers: EPA ICR No. 1198.08, OMB Control No. 2070-0067.

ICR Status: This ICR is scheduled to expire on October 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 8(a) of the Toxic Substances Control Act (TSCA) authorizes the Administrator of the EPA

to promulgate rules that require persons who manufacture, import or process chemical substances and mixtures, or who propose to manufacture, import, or process chemical substances and mixtures, to maintain such records and submit such reports to EPA as may be reasonably required. Any chemical covered by TSCA for which EPA or another Federal agency has a reasonable need for information and which cannot be satisfied via other sources is a proper potential subject for a chemical-specific TSCA section 8(a) rulemaking. Information that may be collected under TSCA section 8(a) includes, but is not limited to, chemical names, categories of use, production volume, by-products of chemical production, existing data on deaths and environmental effects, exposure data, and disposal information. Generally, EPA uses chemical-specific information under TSCA section 8(a) to evaluate the potential for adverse human health and environmental effects caused by the manufacture, importation, processing, use or disposal of identified chemical substances and mixtures. Additionally, EPA may use TSCA section 8(a) information to assess the need or set priorities for testing and/or further regulatory action. To the extent that reported information is not considered confidential, environmental groups, environmental justice advocates, state and local government entities and other members of the public will also have access to this information for their use. This collection addresses the above information requirements.

Responses to the collection of information are mandatory (see 40 CFR Part 704). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 68.8 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the

time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, process or import, or propose to manufacture, process or import, chemical substances and mixtures.

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 1.

Estimated No. of Respondents: 4

Estimated Total Annual Burden on Respondents: 275 hours.

Estimated Total Annual Costs: \$14,080.

Changes in Burden Estimates: There is no change in the total estimated respondent burden from that currently in the OMB inventory.

Dated: October 12, 2007.

Title: Reporting and Recordkeeping for Asbestos Abatement Worker Protection (Renewal).

ICR Numbers: EPA ICR No. 1246.10, OMB Control No. 2070-0072.

ICR Status: This ICR is scheduled to expire on October 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA's asbestos worker protection rule is designed to provide occupational exposure protection to state and local government employees who are engaged in asbestos abatement activities in states that do not have State plans approved by the Occupational Safety and Health Administration (OSHA). The rule provides protection for public employees not covered by the OSHA standard from the adverse health effects associated with occupational exposure to asbestos. Specifically the rule requires State and local governments to monitor employee exposure to asbestos, take action to reduce exposure to asbestos, monitor employee health and train employees about asbestos hazards.

The rule includes a number of information reporting and recordkeeping requirements. State and local government agencies are required to provide employees with information about exposures to asbestos and the associated health effects. The rule also requires state and local governments to

notify EPA before commencing any asbestos abatement project. State and local governments must maintain medical surveillance and monitoring records and training records on their employees, must establish a set of written procedures for respirator programs and must maintain procedures and records of respirator fit tests. EPA will use the information to monitor compliance with the asbestos worker protection rule. This request addresses these reporting and recordkeeping requirements.

Responses to the collection of information are mandatory (see 40 CFR 763 Subpart G). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.32 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are state and local government employers in 26 states, the District of Columbia, and certain U.S. Territories that have employees engaged in asbestos-related construction, custodial and brake and clutch repair activities without OSHA-approved State plans.

Frequency of Collection: On occasion.
Estimated average number of responses for each respondent: 50.

Estimated No. of Respondents:
25,312.

Estimated Total Annual Burden on Respondents: 402,749 hours.

Estimated Total Annual Costs:
\$14,980,583.

Changes in Burden Estimates: This request reflects a net decrease of 9,494 hours (from 412,243 hours to 402,749 hours) in the total estimated respondent burden from that currently in the OMB inventory. This net decrease principally reflects EPA's correction of certain training burdens that results from correctly annualizing the training requirement over five years rather than over a three-year period. The Supporting Statement provides details on the change in burden estimate. The change is an adjustment.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202-564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 6, 2007 (72 FR 17156).

Draft EISs

EIS No. 20070261, ERP No. D-FHW-E40814-KY, I-65 to US 31 W Access Improvement Project, To Meet the Existing and Future Transportation Demand, in northeast Bowling Green, Warren County, KY.

Summary: EPA expressed environmental concerns about the impacts to groundwater and karst topography, as well as an unavoidable number of sinkholes that will be directly and indirectly impacted by the project. EPA is also concerned that the preferred alternative would also result in indirect adverse effects on two historic sites. Rating EC1.

EIS No. 20070322, ERP No. D-NPS-K61167-AZ, Saguaro National Park

General Management Plan, Implementation, Rincon Mountain District and Tucson Mountain District, Pima County, AZ.

Summary: EPA has no objections to this project. Rating LO.

EIS No. 20070356, ERP No. D-FRC-J03019-CO, High Plains Expansion Project, (Docket No. CP07-207-000) Natural Gas Pipeline Facility, Construction and Operation, U.S. Army COE 404, Weld, Adams, and Morgan Counties, CO.

Summary: EPA expressed environmental concerns about impacts to water quality, wetlands, and wildlife from proposed pipeline water crossing construction. EPA requested additional analysis of construction methods and mitigation measures in Final EIS. Rating EC2.

EIS No. 20070363, ERP No. D-COE-K28022-CA, Carryover Storage and San Vicente Dam Raise Project, Providing Additional Storage Capacity for 100,000 area feet of Water by the Year 2011, Issuance of Permits, Section 10 and 404 Permits, San Diego County, CA.

Summary: EPA expressed environmental concerns about air, water and noise impacts, and requested additional information regarding the project's "Purpose and Need" statement, proposed compensatory mitigation sites for impacts to waters of the United States, efficient use of the emergency and new carryover storage, and mitigation measures for identified adverse air and noise impacts. Rating EC2.

EIS No. 20070311, ERP No. DS-COE-J28021-CO, Rueter-Hess Reservoir Expansion Project, Enlarges Reservoir to Provide Storage of Denver Basin Groundwater for Meeting Peak Municipal Water Supply, U.S. Army COE Section 404 Permit, Town of Parker, Douglas County, CO.

Summary: EPA expressed environmental concerns about the lack of information regarding future water supplies, and impacts to aquatic resources at Cherry Creek and Cherry Creek Reservoir. EPA also expressed concerns that the project's purpose and need statement was narrowly defined, thereby eliminating some potential project alternatives from consideration. Rating EC2.

Final EISs

EIS No. 20070374, ERP No. F-SFW-C64004-PR, Vieques National Wildlife Refuge Comprehensive Conservation Plan, Implementation, Vieques, PR.

Summary: No formal comment letter was sent to the preparing agency.

EIS No. 20070376, ERP No. F-FRC-L05237-00, Hells Canyon Hydroelectric

Project, Application for Relicensing to Authorize the Continued Operation of Hydroelectric Project, Snake River, Washington and Adams Counties, ID and Wallowa and Baker Counties, OR.

Summary: EPA continues to have environmental objections due to potential violations of water quality standards and impacts to salmonids. EPA believes that additional information is needed regarding the feasibility of installing a temperature control structure, the details of the proposed Temperature Adaptive Management Plan, and information regarding the project's ability to meet all applicable water quality standards.

EIS No. 20070380, ERP No. F-AFS-K02012-NV, White Pine & Grant-Quinn Oil and Gas Leasing Project, Exploration and Development, Humboldt-Toiyabe National Forest, Ely Ranger District, White Pine, Nye and Lincoln Counties, NV.

Summary: EPA continues to have environmental concerns about impacts to water quality and habitat. EPA recommended the Record of Decision commit to appropriate mitigation measures as lease stipulations.
