

report compliance/enforcement activities undertaken at stationary sources using the Minimum Data Requirements (MDRs) as outlined in the renewal of this ICR. This renewal requires the continuation of reporting of previously established MDRs with no additional new burden. The provision of Section 114(a)(1) of the Clean Air Act, 42 U.S.C. 7414(a)(1) provide the broad authority for the reporting of compliance monitoring and enforcement information, along with Subpart Q—Reports in 40 CFR part 51: §§ 51.324(a) and (b), and 51.327.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information was estimated to average 509 hours per year for a small State/local agency (150 major sources or less), 1,463 hours per year for a medium state/local agency (151–499 major sources) or 2,572 hours per year for large State/local agencies (greater or equal to 500 major sources per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate. The estimates from the previous ICR are briefly summarized here:

Estimated total number of potential respondents: 99.

Frequency of response: Six times per year (every 60 days).

Estimated total average number of responses for each respondent: A minimum of six responses from each respondent.

Estimated total annual burden hours: 98,183 hours.

Estimated total annual costs: \$3,277,935 annually.

Are There Changes in the Estimates From the Last Approval?

EPA acknowledges that the estimated operational and maintenance costs will increase due to inflationary pressures that increase hourly resource costs for

management, professional, and related occupational groups. The labor rates used in the ICR estimates will be taken from the Department of Labor Employment Compensation and Costs (ECEC) Web site. These changes will be reflected in the final supporting statement for this ICR. Additionally, the number of respondents will be corrected to reflect 99 respondents, an increase from 93 in the previous ICR resulting in an overall increase in hours and resources for reporting.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will be submitted by EPA to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB, and a second opportunity to submit additional comments to OMB. If you have any questions about this ICR, or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Title: National Volatile Organic Compound Emission Standards for Consumer Products (Renewal).

ICR numbers: EPA ICR No. 1764.04, OMB Control No. 2060-0348.

ICR Status: This ICR is scheduled to expire on October 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The information collection includes initial reports and periodic recordkeeping necessary for EPA to ensure compliance with Federal standards for volatile organic compounds in consumer products. Respondents are manufacturers, distributors, and importers of consumer products. Responses to the collection are mandatory under 40 CFR part 59, subpart C, National Volatile Organic Compound Emission Standards for Consumer Products. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B, Confidentiality of Business Information.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers and importers of consumer products.

Estimated Number of Respondents: 732.

Frequency of Response: On occasion.

Estimated Total Annual Hours

Burden: 29,613 hours.

Estimated Total Annual Costs:

\$1,187,537. This includes labor costs of \$1,187,537 and no capital or O&M costs.

Changes in Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved Burdens. However, the estimated total annual costs are increased by \$83,480 due to increased costs of employment compensation since the previous approval.

Dated: October 16, 2007.

Sara Hisel-McCoy,
Acting Director, Collection Strategies
Division.
