SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0057.

Title: Application for Equipment Authorization.

Form No.: FCC Form 731.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 600 respondents; 600 responses.

Estimated Time Per Response: 25 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 250,000 hours.

Total Annual Cost: \$11,107,500.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this revision to the OMB after this 60 day comment period to obtain the full three-year clearance from them. On April 23, 2007, the Commission released a *Second Report and Order*, FCC 07-56, ET Docket No. 03-201. The Commission amended the rules to provide for more efficient equipment authorization of both existing modular transmitter devices and emerging partitioned (or "split") modular transmitter devices in Section 15.212. Single modular transmitters consist of a completely self-contained radio frequency transmitter device that is typically incorporated into another product, host or device.

Split modular transmitters consist of two components: a radio front-end with antenna (or radio devices) and a transmitter control element (or specific hardware on which the software that controls the radio operation resides). All single or split modular transmitters are approved with an antenna. The modular transmitter must be labeled with its own FCC ID number, and if the FCC ID number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains Transmitter Module FCC ID: XYZMODEL1" or "Contains FCC ID: XYZMODEL1." Any
