

centers. This supports OLE's message needs and, optionally, fishermen's private message needs.

The vessel owner can configure automatic position reports to be sent to a private address, such as to a fleet management company. The vessel can send and receive private e-mail and other messages when the transceiver has such an input device as a laptop or personal computer attached.

Vessel owners wishing to use Stratos Global or VIZADA services will need to purchase an Inmarsat-C transceiver approved for the fishery. The owner will need to complete an Inmarsat-C system use contract with Stratos Global or VIZADA, including a mobile earth station license (FCC requirement). The transceiver will need to be commissioned with Inmarsat according to Stratos Global's or VIZADA instructions. The owner should refer to and follow the configuration, installation, and service activation procedures for the specific transceiver purchased.

SUPPLEMENTARY INFORMATION:

Title: Part 41 Relating to Security Futures Products (OMB Control No. 3038-0059). This is a request for extension of a currently approved information collection.

Abstract: Section 4d(c) of the Commodity Exchange Act (EAC), 7 U.S.C. 6d(c), requires the CFTC to consult with the SEC and issue such rules, regulations, or orders as are necessary to avoid duplicative or conflicting regulations applicable to firms that are fully registered with the SEC as brokers or dealers (broker-dealers) and the CFTC as futures commission merchants (FCMs) involving provisions of the CEA that pertain to the treatment of customer funds. The CFTC, jointly with the SEC, issued regulations requiring such dually-registered firms to make choices as to how its customers' transactions in security futures products (SFP) will be treated, either as securities transactions held in a securities account or as futures

transactions held in a futures account. How an account is treated is important in the unlikely event of the insolvency of the firm. Only securities accounts receive insurance protection under provisions of the Securities Investor Protection Act. By contrast, only futures accounts are subject to the protections provided by the segregation requirements of the CEA.

As agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on August 21, 2007 (72 FR 46613).

Burden Statement: The respondent burden for this collection is estimated to average .59 hours per response. These estimates include the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 144.

Estimated number of responses: 2,739.

Estimated total annual burden on respondents: 1,620.48 hours.

Frequency of collection: On occasion.

Send comments regarding the burden estimated or any other aspect of the information collection, including suggestions for reducing the burden, to the addresses listed below. Please refer to OMB Control No. 3038-0059 in any correspondence.
