Notice of Realty Action: Application for Conveyance of Mineral Interests, Madera County, CA**AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice of Realty Action.**SUMMARY:** This publication supersedes in its entirety the previous publication dated October 18, 2007, found on page 59110, Volume 72, Number 201.

The surface owner of the lands described in this notice, aggregating approximately 25 acres, has filed an application for the purchase of the Federally-owned mineral interests in the lands. Publication of this notice temporarily segregates the mineral interest from appropriation under the public land laws, including the mining law.

DATES: Interested persons may submit written communication to the Bureau of Land Management (BLM) at the address stated below. Comments must be received no later than December 17, 2007.

ADDRESSES: Bureau of Land Management, 2800 Cottage Way, Sacramento, CA 95825. Detailed information concerning this action is available for review at the above address.

FOR FURTHER INFORMATION CONTACT: Kathy Gary, Land Law Examiner, at the above address, or 916-978-4677.

SUPPLEMENTARY INFORMATION: The surface owner of the following described lands has filed an application pursuant to section 209 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1719(b), for the purchase and conveyance of the Federally-owned mineral interest in the following described lands:

Mount Diablo Meridian, Madera County, California

T. 9 S., R. 22 E., Sec. 6, described as follows:

“All coal and other minerals within that portion of Parcel 2 of Parcel Map 2415 recorded October 24, 1985 in the office of the County Recorder, County of Madera, State of California, in Book 31, of Maps, at Page 173, that is within a portion of Lot 3 of Section 6, T. 9 S., R. 22 E., Mount Diablo Base and Meridian, according to the official plat thereof, as reserved in patent number 1096001 dated March 11, 1938, together with the right to prospect for, mine, and remove the same pursuant to the provisions and limitations of the Act of December 29, 1916 (39 Stat., 862). Containing 25 acres, more or less.”

Effective immediately, BLM will process the pending application in accordance with the regulations stated in 43 CFR Part 2720. Written comments concerning the application must be received no later than the date specified above in this notice for that purpose. The purpose for a purchase and conveyance is to allow consolidation of surface and subsurface minerals ownership where (1) there are no known mineral values, or (2) in those instances where the Federal mineral interest reservation interferes with or precludes appropriate non-mineral development and such development is a more beneficial use of the land than the mineral development.

On December 17, 2007 the mineral interests owned by the United States in the above described lands will be segregated to the extent that they will not be subject to appropriation under the public land laws, including the mining laws. The segregative effect shall terminate upon issuance of patent or deed of such mineral interest; upon final rejection of the mineral conveyance application; or 2 years from the date of publication of this notice in the **Federal Register**, whichever occurs first.

Comments: Comments, including names, street addresses, and other contact information of respondents, will be available for public review. Before including your address, telephone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All persons who wish to present comments, suggestions, or objections in connection with the pending application may do so by writing to Robert M. Doyel, Chief, Branch of Lands Management, at the above mentioned address.

(Authority: 43 CFR 2720.1-1(b)).

Dated : October 25, 2007.

SUPPLEMENTARY INFORMATION:

Title: Application for the Inclusion of a Property in the U.S. World Heritage Tentative List.

Bureau Form #(s): None.

OMB #: 1024-0050.

Expiration Date: 08/31/2009.

Type of Request: New Collection.

Description of Need: The U.S. World Heritage List is an international list of cultural and natural properties of outstanding universal value nominated by the signatories of the World Heritage Convention (1972). In 1973, the United States was the first nation to ratify the treaty. U.S. participation and the roles of the Department of the Interior and the NPS are authorized by Title IV of the Historic Preservation Act Amendments of 1980 and conducted in accordance with 36 CFR 73—World Heritage Convention.

A Tentative List is a national list of natural and cultural properties appearing to meet the World Heritage Committee eligibility criteria for nomination to the World Heritage List. It is a list of candidate sites which a country intends to consider for nomination within a given time period.

The World Heritage Committee has issued *Operational Guidelines* asking participating nations to provide Tentative Lists, which aid in evaluating properties for the World Heritage List on a comparative international basis and help the Committee to schedule its work over the long term. The *Guidelines* recommend that a nation review its Tentative List at least once every decade. The new Tentative List will altogether replace the current U.S. Tentative List (formerly Indicative Inventory) that was published by NPS in the **Federal Register** on May 6, 1982 (FR 47, 88: 19648–19655) and amended with an additional site in 1983 and one other in 1990.

In order to guide the U.S. World Heritage Program effectively and in a timely manner NPS intends to prepare and submit through the Secretary of the Interior and the Secretary of State to the World Heritage Centre of UNESCO by February 1, 2008, a Tentative List of properties that appear to meet the criteria for nomination and can be nominated during the ensuing decade (2009–2019), starting on or before February 1, 2009. The number of sites included on the proposed Tentative List is limited so as to meet the World Heritage Committee's request that the Tentative List allow for the nomination of no more than two sites per year by any one nation (excluding potential emergency nominations not at present foreseen).

Only sites that have been formally found to be of national significance and that have such legal protections as appear necessary to ensure the preservation of the properties and their

environment may even be given preliminary consideration for nomination by the United States. By law and regulation, all property owners must also concur in any World Heritage nomination. Only properties for which Applications were submitted and signed by owners or authorized representatives have been considered for inclusion in the new U.S. World Heritage Tentative List.

Inclusion in the Tentative List does not confer World Heritage status or confer any other legal effects on a property, but merely indicates that a property may be further examined for possible World Heritage nomination in the future.

The National Park Service Office of International Affairs (NPS–OIA) and the George Wright Society (GWS) have worked together under a cooperative agreement to prepare the new U.S. Tentative List. The present notice provides an opportunity for property owners and the public to comment on the NPS staff recommendations for the Tentative List and the accompanying explanatory essay. Subsequently, the Secretary of the Interior, through the Assistant Secretary for Fish and Wildlife and Parks, will determine the composition of the new Tentative List and will, as previously noted, submit it through the U.S. Department of State to the World Heritage Committee.

The NPS staff recommendations along with the U.S. National Commission for UNESCO recommendations appear at the end of this Notice. The Tentative List is to consist of properties that appear to qualify for World Heritage status and which may be considered for nomination by the United States to the World Heritage List during the next decade. The opportunity for the public to comment is part of a process that has also included the review of the NPS staff recommendations by the U.S. National Commission for UNESCO, a Federal Advisory Commission (FACA) to the U.S. Department of State.

Process for Developing the U.S. World Heritage Tentative List: The NPS–OIA provided an Application form in August 2006 for voluntary applications to a new U.S. World Heritage Tentative List by governmental and private property owners. It was intended that preparers use the Application to demonstrate that their properties meet the criteria established by the World Heritage Committee for inclusion in the World Heritage List (which can be found in the general information on the Tentative List on the NPS–OIA website) and other requirements, including those of U.S. domestic law (16 U.S.C. 470 a–1, a–2, d)

and the program regulations (36 CFR 73—World Heritage Convention).

Thirty-seven (37) Applications were received by the April 1, 2007 deadline. Two were subsequently withdrawn. The NPS recommendations were based on staff review of the Applications by the OIA, in consultation with NPS subject matter experts and external reviewers for cultural and natural resources who are knowledgeable about the World Heritage Committee's policies, practices and precedents. Additional correspondence and/or Addenda containing revised or expanded material was received from most applicants in response to written reviews that were provided to them; all of this material has been carefully considered.

Results of Review: Below is a summary of the NPS staff recommendations, which were also provided to the World Heritage Tentative List Subcommittee of the U.S. National Commission for UNESCO for review. The specific NPS staff recommendations are listed at the end of this notice.

The OIA recommends 19 sites for a new Tentative List. These include three natural properties, 15 cultural properties (two of which are extensions to currently inscribed World Heritage Sites), and one mixed natural and cultural property. The staff review recommends four additional sites for future consideration.

NPS specifically requests comments on: (1) The qualifications of the properties listed below as staff recommendations for inclusion in the U.S. World Heritage Tentative List; (2) their assignment to the categories in which they are grouped; (3) how the Tentative List should be added to or revised in the future; (4) how and by whom World Heritage nominations will be prepared; and (5) how to improve public awareness and understanding of the World Heritage program in the United States. In formulating your comments, you may wish to take account of the U.S. National Commission for UNESCO's recommendations referenced just below.

It should be emphasized that the attached list reflects an interim step in the process and is not the final version of the new U.S. World Heritage Tentative List. All public comments that will contribute to the development of the final Tentative List are welcomed and will be summarized and provided to the Department of the Interior officials who will determine the content of the Tentative List.

Comments are also invited on: (1) The practical utility of the information being gathered; (2) the accuracy of the burden

hour estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information technology. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Review by U.S. National Commission for UNESCO: The staff recommendations for the draft Tentative List were reviewed by a subcommittee of the U.S. National Commission for UNESCO—which included Federal agency representatives drawn from the Federal Interagency Panel on World Heritage—on September 27, 2007. The subcommittee presented its recommendations to the full Commission in a conference call on October 4, 2007, in which the public participated. The recommendations by the National Commission, including those which differ from the NPS staff recommendations, are being displayed on the NPS staff recommended list below and posted on the National Commission's website where they may be consulted at <http://www.state.gov/p/io/unesco>. The members of the National Commission and the World Heritage Draft Tentative List Subcommittee are identified on the same Web site. The contact for the U.S. National Commission for UNESCO is Ken Kolson at 202/663-0289 (kolsonk@state.gov).

Further Actions: The NPS will consider public comments and the National Commission's advice and submit a proposed Tentative List through the Assistant Secretary for Fish and Wildlife and Parks to the U.S. Secretary of the Interior, who will determine the final composition of the Tentative List. The list will be transmitted to the World Heritage Centre by the Department of State by February 1, 2008. This deadline complies with the necessary timeline for preparing the first nominations of sites from the Tentative List in calendar 2008 for submission by February 1, 2009. Such nominations will be prepared in full compliance with the applicable portion of 36 CFR 73.7, the World Heritage Program Regulations.
