AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and receipt of application.

SUMMARY: This notice announces the availability of the draft Coyote Springs Investment Multi-Species Habitat Conservation Plan (Plan), draft Implementing Agreement (IA), and draft Environmental Impact Statement (EIS) for public review and comment. In response to receipt of an application from Coyote Springs Investment LLC (CSI; Applicant), we, the Fish and Wildlife Service (Service), are considering the proposed action of issuing a 40-year permit for five species. The proposed permit would authorize the take of individual species listed under the Federal Endangered Species Act of 1973, as amended (Act). The permit is needed because take of species could occur during proposed urban development activities located in a 21,454-acre area in southern Lincoln County, Nevada. In addition, take of species could occur during recreational and resource management activities within the 13,767-acre proposed Coyote Springs Resource Management Area (CSRMA), an area leased by the Applicant from the U.S. Bureau of Land Management (BLM), which would be managed for the conservation of the desert tortoise (*Gopherus agassizii*) and other covered species pending BLM approval, located in Clark and Lincoln counties, Nevada.

Background Information

Section 9 of the Federal ESA of 1973, as amended, and Federal regulations prohibit the take of fish and wildlife species listed as endangered or threatened (16 U.S.C. 1538). The term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct (16 U.S.C. 1532). Harm includes significant habitat modification or degradation that actually kills or injures listed wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, and sheltering [50 CFR 17.3(c)]. Under limited circumstances, we may issue permits to authorize incidental take of listed fish or wildlife; i.e., take that is incidental to, and not the purpose of, otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are found in 50 CFR 17.32 and 17.22, respectively.

Although take of listed plant species is not prohibited under the Federal ESA, and therefore cannot be authorized under an incidental take permit, plant species may be included on a permit in recognition of the conservation benefits provided to them under a habitat conservation plan. All species included on an incidental take permit would receive assurances under the Services "No Surprises" regulation 50 CFR 17.22(b)(5) and 17.32(b)(5).

We have received an application for an incidental take permit for implementation of the Coyote Springs Investment Multi-Species Habitat Conservation Plan. The application has been prepared and submitted by Coyote Springs Investment LLC (Applicant). The Applicant has prepared the Plan to satisfy the application requirements for a section 10(a)(1)(B) permit under the Federal ESA, of 1973, as amended.
