SUPPLEMENTARY INFORMATION:

Background: Title 49 U.S.C. 504(b)(2) provides the Secretary of Transportation (Secretary) with authority to require carriers, lessors, associations, or classes of them to file annual, periodic, and special reports containing answers to questions asked by the Secretary. The Secretary may also prescribe the form of records required to be prepared or compiled and the time period during which records must be preserved (See §§ 504(b)(1) and (d)). The FMCSA will use this data to administer its safety programs by establishing a database of entities that are subject to its regulations. This database necessitates that these entities notify the FMCSA of their existence. For example, under 49 CFR 390.19(a), FMCSA requires all motor carriers beginning operations to file a Form MCS-150 entitled, "Motor Carrier Identification Report." This report is filed by all motor carriers conducting operations in interstate or international commerce within 90 days after beginning operations. It asks the respondent to provide the name of the business entity that owns and controls the motor carrier operation, address and telephone of principal place of business, assigned identification number(s), type of operation, types of cargo usually transported, number of vehicles owned, term leased and trip leased, driver information, and certification statement signed by an individual authorized to sign documents on behalf of the business entity.

The Department of Transportation (DOT) and Related Agencies Appropriations Act for fiscal year 2002 (DOT Appropriations Act) (Pub. L. 107-87, 115 Stat. 833 (December 18, 2001) directed the agency to issue an interim final rule (IFR) to ensure that new entrant motor carriers are knowledgeable about the Federal Motor Carrier Safety Regulations (FMCSRs) and standards. The IFR was published on May 13, 2002 (67 FR 31983). The Form MCS-150A associated with this rule is entitled, "Safety Certification for Application for U.S. DOT Number," and is used to help ensure that new entrants are knowledgeable about the Federal motor carrier safety regulations and standards before being granted registration authority to operate in interstate commerce (Intrastate carriers are not considered new entrants since they do not operate in interstate
