

on certain orange juice from Brazil. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 72 FR 20986 (Apr. 27, 2007). The period of review is August 24, 2005, through February 28, 2007, and the preliminary results are currently due no later than December 3, 2007. The review covers three producers/exporters of the subject merchandise to the United States.

Extension of Time Limit for Preliminary Results

Pursuant to section 751(a)(3)(A) of Tariff Act of 1930, as amended (the Act), the Department shall make a preliminary determination in an administrative review of an antidumping order within 245 days after the last day of the anniversary month of the date of publication of the order. Section 751(a)(3)(A) of the Act further provides, however, that the Department may extend the 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period. We determine that it is not practicable to complete this administrative review within the time limits mandated by section 751(a)(3)(A) of the Act because of technical issues contained in supplemental questionnaire responses. Analysis of these issues requires additional time. Therefore, we have fully extended the deadline for completing the preliminary results until March 31, 2008, the next business day after 365 days from the last day of the anniversary month of the date of publication of the order. The deadline for the final results of the review continues to be 120 days after the publication of the preliminary results.

This extension notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: November 5, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent

scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States. Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before December 3, 2007. Address written comments to Statutory Import Programs Staff, Room 2104, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 a.m. and 5 p.m. at the U.S. Department of Commerce in Room 2104.

Docket Number: 07-062. Applicant: Battelle Memorial Institute, Pacific Northwest Division, 902 Battelle Blvd., Richland, WA 99354. Instrument: Electron Microscope, Model FIB/SEM. Manufacturer: FEI Company, Netherlands. Intended Use: The instrument is intended to be used for all science disciplines from biological to material science samples. The Environmental Molecular Science Laboratory, where the instrument will be housed, is a National Scientific User Facility and any scientist may use the laboratory and this instrument for free as long as they agree to publish their findings. The instrument will be used to support the ongoing science of interfacial phenomena, nanotechnology and catalysts interaction, along with other studies. Application accepted by Commissioner of Customs: October 26, 2007.

Docket Number: 07-063. Applicant: University of California San Diego, National Center for Microscopy and Image Research, 9500 Gilman Drive, MC 0608, Basic Science Building, Room 1000, La Jolla, CA 92093-0608. Instrument: Electron Microscope, Model Titan 80-300 C-Twin STEM.

Manufacturer: FEI Company, Netherlands. Intended Use: The instrument is intended to be used to study biological specimens prepared for electron microscopic imaging and involves the elucidation of the 3D structural information of target materials. Project investigations span basic and translational science, including neuroscience, neurodegenerative diseases, heart disease, stroke, etc. Application accepted by Commissioner of Customs: November 2, 2007.

Docket Number: 07-066. Applicant: St. Jude Children's Research Hospital, 332 North Lauderdale, Memphis, TN 38105. Instrument: Electron Microscope, Model Tecnai G² F20 TWIN. Manufacturer: FEI Company, Netherlands. Intended Use: The instrument is intended to be used to study the intracellular components of biological samples obtained from mice, rats, cell cultures, viruses, bacteria and

particulate material. The study will perform experiments using genetically altered mice and rats to better understand the mechanism involved in cancer at the intracellular level.

Application accepted by Commissioner of Customs: October 29, 2007. Docket Number: 07-067. Applicant: National Institute for Occupational Safety and Health, 4676 Columbia Parkway, Cincinnati, OH 45226. Instrument: Electron Microscope, Model JEM-2100F. Manufacturer: Jeol Ltd., Japan. Intended Use: The instrument is intended to be used for multiple research projects throughout the Institute. Applications include analysis of asbestos and other fiber types, nanotechnology-related materials (e.g., carbon nanotubes and fibers, tungsten fibers, metal oxides), aerosol research, ultrafine particles emissions, general support for laboratory and field research, methods development, and evaluation of engineering controls and personal protective equipment. Application accepted by Commissioner of Customs: October 30, 2007.

Dated: November 6, 2007.

Faye Robinson,

Director, Statutory Import Programs Staff.

Circular Welded Carbon Quality Steel Pipe from the People's Republic of China: Preliminary Affirmative Countervailing Duty Determination; Preliminary Affirmative Determination of Critical Circumstances; and Alignment of Final Countervailing Duty Determination with Final Antidumping Duty Determination

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce preliminarily determines that countervailable subsidies are being provided to producers and exporters of circular welded carbon quality steel pipe from the People's Republic of China. For information on the estimated subsidy rates, see the "Suspension of Liquidation" section of this notice. The Department further determines preliminarily that critical circumstances exist with respect to imports of the subject merchandise. This notice also serves to align the final countervailing duty determination in this investigation
