Title: Safer Detergent Stewardship Initiative (SDSI) Program.

ICR Numbers: EPA ICR No. 2261.01, OMB Control No. 2070-NEW.

ICR Status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This information collection addresses paperwork activities that support the administration of the Safer Detergent Stewardship Initiative (SDSI). SDSI is a voluntary program administered by EPA to offer resources and recognition to businesses involved in the transition to safer surfactants.

Surfactants are a major ingredient in cleaning products such as detergents, cleaners, airplane deicers and fire-fighting foams. Safer surfactants are those that break down quickly to non-polluting compounds. Businesses and other organizations that wish to be recognized by EPA should complete and submit an application form (EPA Form 6300-2).

Under SDSI, businesses that have fully transitioned to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Champion status. Businesses that commit to a full and timely transition to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Partner status. This category provides recognition of significant accomplishments towards the use of safer surfactants. Partners will be listed on the EPA SDSI website and may be granted recognition as a Champion in the future if appropriate. Responses to the collection of information are voluntary. Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 10 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are establishments or organizations engaged in formulating, producing, purchasing or distributing surfactants or products containing surfactants.

Estimated No. of Respondents: 375.

Frequency of Collection: On occasion.

Estimated Total Annual Hour Burden: 3,750 hours.

Estimated Total Annual Labor Costs: \$182,625.

Changes in Burden Estimates: This is a new information collection request. The burden associated with responses to this new information collection reflects an increase of 3,750 hours in the total estimated respondent burden from that currently in the OMB inventory. This increase represents a program change.

Dated: November 6, 2007.

Director, Collection Strategies Division.
