Notice of Availability (NOA) of the Final Environmental Impact Statement (FEIS) for the Bald Mountain Ski Resort Master Development Plan EIS

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 *et. seq.*, as amended, and the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et. seq.*, as amended, the Bureau of Land Management (BLM), Shoshone Field Office, announces the availability of the Final Environmental Impact Statement (FEIS) for the Bald Mountain Ski Resort Master Development Plan EIS. The FEIS analyzes and discloses the effects of the updated Bald Mountain Ski Area Master Development Plan and 40-year term ski permit application for the Bald Mountain Ski Area near Ketchum, Idaho.

DATES: The FEIS will be available for public review for 30 calendar days from the date of this publication, which coincides with the NOA published in the **Federal Register** by the Environmental Protection Agency (EPA). Following this 30 day period, the Bureau of Land Management (BLM) and U.S. Forest Service will each issue a separate Record of Decision, which will identify the Responsible Officials' Selected Alternative and discuss the rationale for their decisions.

ADDRESSES: A copy of the FEIS was sent to affected Federal, State, and local government agencies and interested parties. The document is also available electronically on the following Web site: <http://www.fs.fed.us/r4/sawtooth/projects>. Copies of the Final EIS will be available for public inspection at the following locations: Ketchum Ranger District, 206 Sun Valley Road, Ketchum, ID. 83340, Business Hours 8:30 a.m.–5 p.m.

FOR FURTHER INFORMATION CONTACT: Joe Miczulski, Winter Sports Manager at the Ketchum Ranger District; P.O. Box 2356,

Ketchum, ID. 83340; or phone at (208)–622–5371.

SUPPLEMENTARY INFORMATION: Sun Valley Company (SVC) has requested a new 40-year term ski area permit for the Bald Mountain Ski Resort. The existing ski area permit, which was issued in December 1977, expires December 2007. To be valid, a ski area permit must have an approved Master Development Plan (MDP), which is prepared by the permit holder and encompasses the entire winter sports resort envisioned for development and authorization by the permit. Upon acceptance by the Authorized Officers, the MDP becomes part of the ski area permit. The EIS analyzes the effects of the proposed action and alternatives. The agencies give notice of the NEPA analysis and decision making process on the proposal so interested and affected members of the public may participate in and contribute to the final decision.

A 1989 MDP currently guides the Forest Service and BLM in their administration of the Special Use Permit (SUP) for the ski area. A majority of the actions described in the 1989 MDP have been implemented. Given the age and status of the 1989 MDP, the Forest Service, BLM and SVC determined that an updated plan would be appropriate at this time.

In August 2005, the Sun Valley Master Plan (2005 Master Plan) was produced and submitted to the Forest Service and BLM. The 2005 Master Plan was accepted at that time, and the Phase 1 projects on public lands were advanced for site-specific review and analysis under requirements of NEPA.

A Draft Environmental Impact Statement (DEIS) for the Phase 1 projects of the 2005 Master Plan was released for public comment in February 2007. The comment period on the DEIS extended through April 9, 2007, eliciting ninety-three comment letters from individuals, organizations, and public agencies. Major themes of the letters included comments relating to the proposal to construct a trail on Guyer Ridge (and associated impacts on the visual environment), installation of additional snowmaking infrastructure (and associated impacts on the acoustic environment), as well as effects to recreation resources associated with trail construction, installation of snowmaking machinery, and seasonal construction of a terrain park on the Warm Springs side of the ski area. The Agencies formally addressed comments in the "Response to Comments on the DEIS" which is included with the FEIS. In addition, some comments warranted clarifications and factual changes in the
