SUPPLEMENTARY INFORMATION: Fort McPherson is a 487-acre installation located approximately 4 miles southwest of downtown Atlanta and 3 miles north of Hartsfield-Jackson Atlanta International Airport.

The proposed action (Army primary action) is to dispose of the surplus property generated by the BRAC-mandated closure of Fort McPherson. Reuse of Fort McPherson by others is a secondary action resulting from disposal. The Army has identified two disposal alternatives (early transfer and traditional disposal), a caretaker status alternative, and the no action alternative (as required by the National Environmental Policy Act). Reuse scenarios are evaluated as secondary actions.

The EIS will analyze each alternative's impact upon a wide range of environmental resource areas including, but not limited to, air quality, traffic, noise, biological resources, cultural resources, socioeconomic, utilities, land use, hazardous and toxic substances, and cumulative environmental effects. Impacts to air quality conditions in the region, traffic conditions, land use, and community facilities and services could possibly be significant. Additional resources and conditions may be identified as a result of the scoping process initiated by this NOI.

Opportunities for public participation will be announced in the respective local news media. The public will be invited to participate in scoping activities for the EIS and comments from the public will be considered before any action is taken to implement the disposal and reuse of Fort McPherson.

Dated: November 9, 2007.

Addison D. Davis, IV,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health).
