III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received one comment in response to the **Federal Register** notice of April 18, 2007 (72 FR 19491) (FRL-8124-4), announcing the Agency's receipt of the request for voluntary cancellation. The comment received was a request for an extension of the Special Local Need label to allow the use of existing stocks of pyridate by mint growers. However, the **Federal Register** notice already specified that mint growers may use the FIFRA 24(c) labels to apply existing stocks of the previously-canceled parent product, Tough EC (EPA Reg. No. 100-880) to mint, until such existing stocks are exhausted. For this reason, the Agency does not believe that the comment submitted during the comment period merits further review or a denial of the request for voluntary cancellation.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellation to terminate use of the pyridate FIFRA section 24(c) registrations identified in Table 1. Accordingly, the Agency orders that the pyridate FIFRA 24(c) registrations identified in Table 1 are hereby canceled. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit II. in a

manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be considered a violation of FIFRA.

V. What Is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The cancellation order issued in this notice includes the following existing stocks provisions.

The Agency intends to allow persons other than the registrant to continue to use the FIFRA section 24(c) labels to apply existing stocks of the previously-canceled parent section 3 product, Tough 5EC (EPA Reg. No. 100-880), to mint, provided such use is consistent with the section 24(c) labels, until such existing stocks are exhausted. The registrant will not be permitted to sell or distribute the previously-canceled parent section 3 product, Tough 5EC (EPA Reg. No. 100-880), but existing stocks already in the hands of dealers or users may be distributed, sold or used legally until they are exhausted.

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA–HQ–OPP–2007–1071. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. 2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgstr>.

II. Background*A. What Action is the Agency Taking?*

EPA is issuing an updated schedule for the registration review program, the Agency’s periodic review of all registered pesticides mandated by section 3(g) of FIFRA. This updated schedule provides the timetable for opening dockets for the next four years of the program—FY 2008 to 2011. (See the **Federal Register** of October 11, 2006 (71 FR 59786, FRL–8096–8); <http://www.epa.gov/fedrgstr/EPA-PEST/2006/October/Day-11/p16483.htm>).

The Pesticide Registration Improvement Act of 2003 was recently amended and extended. The Act provides for the continuation of annual pesticide maintenance fees and authorizes their use for registration review. The Act also requires EPA to complete registration review decisions by October 1, 2022 for all pesticides registered as of October 1, 2007. To ensure meeting this requirement, EPA will open approximately 70 pesticide registration review dockets annually beginning in fiscal year 2009 and continuing through 2017 so that almost all currently-registered pesticides have dockets opened by 2017. Some biopesticide dockets will be opened in 2018 through 2020. The Agency anticipates that this scheduling will provide adequate lead times to complete registration review decisions for all

currently-registered pesticides by 2022. For the first several years of the program, EPA will be developing a pipeline of pesticides under review so that it will have the capacity to make approximately 70 decisions each year. EPA expects a total of 722 pesticide cases comprising 1,135 pesticide active ingredients to undergo registration review by 2022.

Each pesticide’s place on the schedule is generally determined by its baseline date — the date of its last substantive review — with the oldest cases going first. The baseline date for a pesticide that was subject to reregistration is the date of the Reregistration Eligibility Decision (RED). The baseline date for pesticides that were not subject to reregistration is the registration date of the first product containing the active ingredient. Although the schedule generally is constructed chronologically, some registration review cases are grouped in the schedule for greater efficiency. For example, pesticides that are chemically related or use-related (e.g., organophosphate and carbamate chemical classes, the coppers group, and the pyrethroids, pyrethrins, and synergists group) generally will be reviewed during the same time frame.

Background information on the program is provided at: http://www.epa.gov/oppsrrd1/registration_review/.

An explanation of the schedule is at: http://www.epa.gov/oppsrrd1/registration_review/explanation.htm.

The current schedule is available at: http://www.epa.gov/oppsrrd1/registration_review/schedule.htm.

B. What is the Agency’s Authority for Taking this Action?

EPA is announcing this updated schedule for the registration review program as provided in 40 CFR 155.42(d) and 155.44 of the Procedural Regulations for Registration Review: Final Rule (<http://www.epa.gov/fedrgstr/EPA-PEST/2006/August/Day-09/p12904.htm>). The Agency may consider issues raised by the public or registrant when reviewing a posted schedule, to schedule a pesticide registration review, or to modify the schedule of a pesticide registration review as appropriate. This schedule will be updated at least once every year.

FEDERAL DEPOSIT INSURANCE CORPORATION

Deposit Insurance Assessments—2008 Designated Reserve Ratio

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice.

At a meeting on November 5, 2007, pursuant to provisions in the Federal Deposit Insurance Act, the Board of Directors of the FDIC (Board) set the 2008 designated reserve ratio (DRR) for the Deposit Insurance Fund (DIF) at 1.25% of estimated insured deposits.¹ The 2008 DRR of 1.25% is unchanged from the 2007 DRR.² The Board is publishing this notice as required by section 7(b)(3)(A)(i) of the Federal Deposit Insurance Act (12 U.S.C. 1817(b)(3)(A)(i)).³

The following is the link to the staff memorandum on which the Board acted when setting the DIF 2008 DRR: <http://www.fdic.gov/news/board/07memo4nov5.pdf>

FOR FURTHER INFORMATION CONTACT: Munsell W. St. Clair, Senior Policy Analyst, Division of Insurance and Research, (202) 898-8967; or Joseph A. DiNuzzo, Counsel, Legal Division, (202) 898-7349.

¹ Section 7(b)(3)(C) of the FDI Act provides that, in setting the DRR for any year, the Board must: "(i) Take into account the risk of losses to the Deposit Insurance Fund in such year and future years, including historic experience and potential and estimated losses from insured depository institutions; (ii) take into account economic conditions generally affecting insured depository institutions so as to allow the designated reserve ratio to increase during more favorable economic conditions and to decrease during less favorable economic conditions, notwithstanding the increased risks of loss that may exist during such less favorable conditions, as determined to be appropriate by the Board of Directors; (iii) seek to prevent sharp swings in the assessment rates for insured depository institutions; and (iv) take into account such other factors as the Board of Directors may determine to be appropriate, consistent with the requirements of this subparagraph." 12 U.S.C. 1817(b)(3)(C).

² The DRR is indicated in section 327.4(g) of the FDIC's regulations. 12 CFR 327.4(g). There is no need to amend this provision because, as noted, the DRR for 2008 is the same as the current DRR.

³ The applicable provision of the FDI Act requires notice-and-comment rulemaking only when the Board changes the DRR. 12 U.S.C. 1817(b)(3)(A)(ii).
