

provide incident data without having completed the S&S-30 Form.

Also, FTA has modified the available answers to many of the questions from the old Safety & Security forms to reduce unneeded answers, and to fill in gaps where the previously provided answers did not account for all possible reporting situations. These changes are non-substantive in nature, as they do not add any additional reporting requirements, but may be found in the full 2008 Safety & Security Reporting Manual, available on the NTD Web site at <http://www.ntdprogram.gov>.

Issued in Washington, DC, this 15th day of November, 2007.

James S. Simpson,

Administrator.
