BILLING CODE 3190-W8-P

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension:

Rule 17e-1; SEC File No. 270-224; OMB Control No. 3235-0217.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget ("OMB") for extension and approval.

Rule 17e-1 (17 CFR 270.17e-1) under the Investment Company Act of 1940 (15 U.S.C. 80a-1) (the "Act") is entitled "Brokerage Transactions on a Securities Exchange." The rule governs the remuneration that a broker affiliated with a registered investment company ("fund") may receive in connection with securities transactions by the fund. The rule requires a fund's board of directors to establish, and review as necessary, procedures reasonably designed to provide that the remuneration to an affiliated broker is a fair amount compared to that received by other brokers in connection with transactions in similar securities during a comparable period of time. Each quarter, the board must determine that all transactions with affiliated brokers during the preceding quarter complied with the procedures established under the rule. Rule 17e-1 also requires the fund to (i) maintain permanently a written copy of the procedures adopted by the board for complying with the requirements of the rule; and (ii) maintain for a period of six years a written record of each transaction subject to the rule, setting forth: the amount and source of the commission; fee or other remuneration received; the identity of the broker; the terms of the

transaction; and the materials used to determine that the transactions were effected in compliance with the procedures adopted by the board. The Commission's examination staff uses these records to evaluate transactions between funds and their affiliated brokers for compliance with the rule.

The Commission staff estimates that 3583 portfolios of approximately 649 fund complexes use the services of one or more subadvisers. Based on discussions with industry representatives, the staff estimates that it will require approximately 6 hours to draft and execute revised subadvisory contracts in order for funds and subadvisers to be able to rely on the exemptions in rule 17e-1.¹ The staff assumes that all existing funds amended their advisory contracts following amendments to rule 17e-1 in 2002 that conditioned certain exemptions upon these contractual alterations, and therefore there is no continuing burden for those funds.²

Based on an analysis of fund filings, the staff estimates that approximately 600 fund portfolios enter into subadvisory agreements each year.³ Based on discussions with industry representatives, the staff estimates that it will require approximately 3 attorney hours⁴ to draft and execute additional clauses in new subadvisory contracts in order for funds and subadvisers to be able to rely on the exemptions in rule 17e-1. Because these additional clauses are identical to the clauses that a fund would need to insert in their subadvisory contracts to rely on rules 12d3-1, 10f-3, 17a-10, and because we believe that funds that use one such rule generally use all of these rules, we apportion this 3-hour time burden equally to all four rules. Therefore, we

¹ Rules 12d3-1, 10f-3, 17a-10, and 17e-1 require virtually identical modifications to fund advisory contracts. The Commission staff assumes that funds would rely equally on the exemptions in these rules, and therefore the burden hours associated with the required contract modifications should be apportioned equally among the four rules.

² We assume that funds formed after 2002 that intended to rely on rule 17e-1 would have included the contract provision in their initial subadvisory contracts.

³ The use of subadvisers has grown rapidly over the last several years, with approximately 600 portfolios that use subadvisers registering between December 2005 and December 2006. Based on information in Commission filings, we estimate that 31 percent of funds are advised by subadvisers.

⁴ The Commission staff's estimates concerning the wage rates for attorney time are based on salary information for the securities industry compiled by the Securities Industry Association. The \$292 per hour figure for an attorney is from the SIA Report on Management & Professional Earnings in the Securities Industry 2006, modified to account for an 1800-hour work-year and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead.

estimate that the burden allocated to rule 17e-1 for this contract change would be 0.75 hours.⁵ Assuming that all 600 funds that enter into new subadvisory contracts each year make the modification to their contract required by the rule, we estimate that the rule's contract modification requirement will result in 450 burden hours annually, with an associated cost of approximately \$131,400.⁶

Based on an analysis of fund filings, the staff estimates that approximately 300 funds use at least one affiliated broker. Based on conversations with fund representatives, the staff estimates that rule 17e-1's exemption would free approximately 40 percent of transactions that occur under rule 17e-1 from the rule's recordkeeping and review requirements. This would leave approximately 180 funds (300 funds \times .6 = 180) still subject to the rule's recordkeeping and review requirements. The staff estimates that each of these funds spends approximately 60 hours per year (40 hours by accounting staff, 15 hours by an attorney, and 5 director hours)⁷ at a cost of approximately \$10,495 per year to comply with rule 17e-1's requirements that (i) the fund retain records of transactions entered into pursuant to the rule, and (ii) the fund's directors review those transactions quarterly.⁸ We estimate, therefore, that the total yearly hourly burden for all funds relying on this exemption is 10,800 hours,⁹ with yearly costs of approximately \$1,889,100.¹⁰ Therefore, the annual aggregate burden hour associated with rule 17e-1 is

⁵ This estimate is based on the following calculation (3 hours + 4 rules = .75 hours).

⁶ These estimates are based on the following calculations: (0.75 hours \times 600 portfolios = 450 burden hours); (\$292 per hour \times 450 hours = \$131,400 total cost).

⁷ The Commission staff's estimates concerning the wage rate for professional time are based on salary information for the securities industry compiled by the Securities Industry Association. The \$292 per hour estimate for an attorney, \$116 per hour estimate for accountant time, and \$295 per hour estimate for directors (based on comparable position) is from the SIA Report on Management & Professional Earnings in the Securities Industry 2006, modified to account for an 1800-hour work-year and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead.

⁸ This estimate is based on the following calculations: (40 hours accounting staff \times \$116 per hour = \$4640) (15 hours by an attorney \times \$292 per hour = \$4380); (5 hours by directors \times \$295 = \$1475) (\$4640 + \$4380 + \$1475 = \$10,495 total cost).

⁹ This estimate is based on the following calculation: (180 funds \times 60 hours = 10,800).

¹⁰ This estimate is based on the following calculation: (\$10,495 \times 180 funds = \$1,889,100).

11,250,¹¹ and the annual aggregate cost associated with it is \$2,020,500.¹²

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act, and is not derived from a comprehensive or even a representative survey or study. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) Whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information has practical utility; (b) the accuracy of the Commission's estimate of the burdens of the collections of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burdens of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.
