

listed and described in the Supporting Statement for the ICR.

Reviewing authorities, either State, local or Federal, review the permit application and provides for public review of the proposed project and issues the permit based on its consideration of all technical factors and public input. The EPA, more broadly, reviews a fraction of the total applications and audits the State and local programs for their effectiveness. Consequently, information prepared and submitted by the source is essential for the source to receive a permit, and for Federal, State and local environmental agencies to adequately review the

permit application and thereby properly administer and manage the NSR programs.

Information that is collected and handled according to EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2). See also section 114(c) of the Act.

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for

the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and, transmit or otherwise disclose the information.

The annual public reporting and recordkeeping burden for this collection of information is broken down as follows:

Type of permit action	Major PSD	Major Part D	Minor
Number of Sources	282	519	74,591
Burden Hours per Response:			
Industry	839	577	40
Permitting Agencies	272	109	30
Total Annual Burden Hours:			
Industry	236,262	299,578	2,983,640
Permitting Agencies	76,595	56,593	2,237,730

Respondents/Affected Entities: Industrial plants, State and local permitting agencies.

Estimated Number of Respondents: 150,784.

Estimated Total Annual Burden: 5,890,399 hours.

Are There Changes in the Estimates From the Last Approval?

Since the last renewal of this ICR (November 2, 2004; 69 FR 63530), the estimated number of respondents has increased by 51 due to the decision by the U.S. Court of Appeals for the D.C. Circuit to vacate the Clean Units and Pollution Control Project Exclusion provisions of the NSR program. See *New York v. EPA*, 413 F.3d 3 (D.C. Cir. 2005). As a result, the total annual burden has been increased by 39,273 hours. The burden per type of permit remains unchanged.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICRs as appropriate. The final ICR packages will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICRs to OMB and the opportunity to submit additional comments to OMB. If you have any questions about these ICRs or the approval process, please contact the

technical person listed under **FOR FURTHER INFORMATION CONTACT.**

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202-564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 6, 2007 (72 FR 17156).

Draft EISs

EIS No. 20070359, ERP No. DS-BLM-L65462-AK, Northeast National Petroleum Reserve—Alaska Integrated Activity Plan, Updated Information, addressing the need for more Oil and Gas Production through Leasing Lands, Consideration of 4

Alternatives, North Slope Borough, AK.

Summary: EPA expressed environmental objections to each action alternative because of potential adverse impacts to wetlands, aquatic habitat and fish and wildlife. EPA suggests considering an alternative that will reduce the potential impacts, especially to water quality, by retaining the current leasing acreage, and surface activity restrictions, incorporating both performance based stipulations and Required Operating Procedures until data on effectiveness of these measures become available.

Rating EO2.

Final EISs

EIS No. 20070398, ERP No. F-BLM-L65510-AK, Kobuk-Seward Peninsula Resource Management Plan, from Point Lay to the North Sound and from the Bering and Chukchi Seas East to the Kobuk River, AK.

Summary: While the final EIS provides for the development of a habitat management plan, EPA continues to have environmental concerns about impacts to resources from the lack of specific requirements for the abandonment, removal, and reclamation of activities relating to resource exploration, development, and operation after leases have expired and operations have cease.

EIS No. 20070418, ERP No. F-NPS-E65078-NC, North Shore Road, Great Smoky Mountains National Park,

General Management Plan, Implementation, Fontana Dam, Swain County, NC.

Summary: EPA does not object to the selection of the preferred alternative.

EIS No. 20070433, ERP No. F-BIA-L65495-ID, PROGRAMMATIC—Coeur d' Alene Tribe Integrated Resource Management Plan, Implementation, Coeur d' Alene Reservation and Aboriginal Territory, ID.

Summary: No formal comment letter was sent to the preparing agency.
