SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1061.

Title: Earth Stations on Board Vessels (ESVs).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 15 respondents; 15 responses.

Estimated Time per Response: 2 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 113 hours.

Annual Cost Burden: \$15,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: This collection will be submitted as an extension (no change in reporting or recordkeeping requirements) after this 60-day comment period to Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

The Federal Communications Commission (FCC) obtained approval from the Office of Management and Budget (OMB) under this OMB Control Number (3060-1061) for the following

purposes: (1) To develop licensing and service rules for Earth Stations on Board Vessels (ESVs) in the Ku-band and C-band; (2) to prevent interference to Fixed Services (FS), Fixed Satellite Service (FSS) and other satellite services; (3) to further the Commission's goals to manage spectrum efficiently; and (4) to advance the provision of broadband telecommunications services that will benefit U.S. citizens on passenger, government (military and civilian), cargo and large recreational vessels. The consequence to the Commission if the collection were not conducted is that there would continue to be regulatory uncertainty with respect to ESVs and other satellite services that operate in the Ku-band and the C-band. Without this information collection, the Commission would not be able to take the necessary measures to prevent harmful interference to satellite services from ESVs. Finally, the Commission would not be able to advance its goals of managing spectrum efficiently and promoting broadband technologies to benefit American consumers throughout the United States and abroad.
