## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.  
**SUMMARY:** The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before February 4, 2008.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance

Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: November 29, 2007.

**Angela C. Arrington,**  
IC Clearance Official, Regulatory Information Management Services, Office of Management.

### Office of Special Education and Rehabilitative Services

**Type of Review:** Extension.  
**Title:** Protection and Advocacy for Assistive Technology (PAAT).

**Frequency:** Annually.

**Affected Public:**  
Not-for-profit institutions; State, Local, or Tribal Gov't, SEAs or LEAs.

**Reporting and Recordkeeping Hour Burden:**

**Responses:** 57. **Burden Hours:** 912.

**Abstract:** The Annual PAAT Program Performance Report will be used to analyze and evaluate the PAAT Program administered by eligible systems in states. These systems provide services to eligible individuals with disabilities to assist in the acquisition, utilization, or maintenance of assistive technology devices or assistive technology services. The Rehabilitation Services Administration (RSA) uses the form to meet specific data collection requirements of Section 5 of the Assistive Technology Act of 1998, as amended (AT Act). PAAT programs must report annually using the form, which is due on or before December 30 of each year. The Annual PAAT Performance Report has enabled RSA to

furnish the President and Congress with data on the provision of protection and advocacy services and has helped to establish a sound basis for future funding requests. Data from the form have been used to evaluate the effectiveness of eligible systems within individual states in meeting annual priorities and objectives. These data also have been used to indicate trends in the provision of services from year to year.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3535. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to [ICDocketMgr@ed.gov](mailto:ICDocketMgr@ed.gov) or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to [ICDocketMgr@ed.gov](mailto:ICDocketMgr@ed.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

#### SUPPLEMENTARY INFORMATION:

##### Introduction

MSIX will provide the technology that will allow all States, in accordance with applicable law, to share educational and health information on migrant children who travel from State to State due to their migratory lifestyle and who, as a result, have student records in the migrant student databases of multiple States. Authorized representatives of State and local agencies will use MSIX to assist with school enrollment, grade placement, and accrual of course credits for migrant children nationwide. In doing so, MSIX will work in concert with the existing migrant student information systems that States currently use to manage their migrant student data. Authorized representatives of State educational agencies (SEAs), local educational agencies (LEAs), and other MEP local operating agencies will use MSIX to retrieve educational and health information on migrant students who move from State to State due to their migrant lifestyle.

The Privacy Act (5 U.S.C. 552a(e)(4)) requires the Department to publish in the **Federal Register** this notice of a new system of records maintained by the Department. The Department's regulations implementing the Privacy Act are contained in the Code of Federal Regulations (CFR) in 34 CFR part 5b.

The Privacy Act applies to information about individuals that contains individually identifying information that is retrieved by a unique identifier associated with each individual, such as a name or social security number. The information about each individual is called a “record,” and the system, whether manual or computer-based, is called a “system of records.” The Privacy Act requires each agency to publish notices of new or altered systems of records in the **Federal Register** and to submit reports to the Administrator of the Office of Information and Regulatory Affairs, OMB, the Chair of the Senate Committee

on Homeland Security and Governmental Affairs, and the Chair of the House Committee on Oversight and Government Reform, whenever the agency publishes a new or altered system of records.

It is anticipated that the existence and use of MSIX will help to improve the timeliness of school enrollments, improve the appropriateness of grade and course placements, and reduce incidences of unnecessary immunizations of migrant children. Further, MSIX will facilitate the accrual of course credits for migrant children in secondary school by providing accurate academic information on the student's course history and academic progress.

#### ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Department of Education (Department) may disclose information contained in a record in this system of records, under the routine uses listed in this system of records, without the consent of the individual if the disclosure is compatible with the purposes for which the record was collected. The Department may make these disclosures on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Privacy Act, as amended, under a computer matching agreement.

(1) *MEP Services, School Enrollment, Grade or Course Placement, Accrual of High School Credits, Student Record Match Resolution.* The Department may disclose a record in this system of records to authorized representatives of State education agencies (SEAs), local education agencies (LEAs), and other MEP local operating agencies (LOAs) to facilitate one or more of the following for a student: (a) Participation in the MEP, (b) enrollment in school, (c) grade or course placement, (d) credit accrual, and (e) unique student match resolution.

(2) *Contract Disclosure.* If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees who have received the appropriate level security clearance from the Department. Before entering into such a contract, the Department will require the contractor to maintain Privacy Act safeguards, as required under 5 U.S.C. 552a(m), with respect to the records in the system.

(3) *Research Disclosure.* The Department may disclose records from this system to a researcher if an appropriate official of the Department determines that the individual or organization to which the disclosure would be made is qualified to carry out specific research related to functions or purposes of this system of records. The official may disclose information from this system of records to that researcher solely for the purpose of carrying out that research related to the functions or purposes of this system of records. The researcher will be required to maintain Privacy Act safeguards with respect to the disclosed records.

(4) *Freedom of Information Act (FOIA) and Privacy Act Advice Disclosure.* The Department may disclose records to the U.S. Department of Justice (DOJ) or OMB if the Department concludes that disclosure is

desirable or necessary to determine whether particular records are required to be disclosed under FOIA or the Privacy Act.

(5) *Disclosure in the Course of Responding to Breach of Data.* The Department may disclose records to appropriate agencies, entities, and persons when (a) it is suspected or confirmed that the security or confidentiality of information in MSIX has been compromised; (b) the Department has determined that as a result of the suspected or confirmed compromise, there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of MSIX or other systems or programs (whether maintained by the Department or by another agency or entity) that rely upon the compromised information; and, (c) the disclosure is made to such agencies, entities, and persons who are reasonably necessary to assist the Department in responding to the suspected or confirmed compromise and in helping the Department prevent, minimize, or remedy such harm.

#### (6) Litigation or Alternative Dispute Resolution (ADR) Disclosure.

(a) *Introduction.* In the event that one of the following parties is involved in litigation or ADR, or has an interest in litigation or ADR, the Department may disclose certain records to the parties described in paragraphs b, c, and d of this routine use under the conditions specified in those paragraphs:

(i) The Department or any of its components.

(ii) Any Department employee in his or her official capacity.

(iii) Any employee of the Department in his or her individual capacity where DOJ has agreed to or has been requested to provide or arrange for representation of the employee.

(iv) Any employee of the Department in his or her individual capacity where the Department has agreed to represent the employee.

(v) The United States where the Department determines that the litigation is likely to affect the Department or any of its components.

(b) *Disclosure to DOJ.* If the Department determines that disclosure of certain records to DOJ, or attorneys engaged by DOJ, is relevant and necessary to litigation or ADR, and is compatible with the purpose for which the records were collected, the Department may disclose those records as a routine use to DOJ.

(c) *Adjudicative Disclosure.* If the Department determines that disclosure of certain records to an adjudicative body before which the Department is authorized to appear, individual, or

entity designated by the Department or otherwise empowered to resolve or mediate disputes is relevant and necessary to litigation or ADR, and is compatible with the purpose for which the records were collected, the Department may disclose those records as a routine use to the adjudicative body, individual, or entity.

(d) *Disclosure to Parties, Counsel, Representatives, and Witnesses.* If the Department determines that disclosure of certain records to a party, counsel, representative, or witness is relevant and necessary to litigation or ADR, and is compatible with the purpose for which the records were collected, the Department may disclose those records as a routine use to a party, counsel, representative, or witness.

(7) *Congressional Member Disclosure.* The Department may disclose information from a record of an individual to a member of Congress and his or her staff in response to an inquiry from the member made at the written request of that individual. The member's right to the information is no greater than the right of the individual who requested it.

#### **DISCLOSURE TO CONSUMER REPORTING AGENCIES:**

Not applicable to this system notice.

#### **POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

##### **STORAGE:**

The Data Center of the Department's contractor, EDS, stores computerized student records on server hardware and MSIX backup tapes, including MSIX Help Desk tapes, in locked file cabinets.

##### **RETRIEVABILITY:**

Records in this system are indexed by a unique number, assigned to each individual, that is cross-referenced by the individual's name.

##### **SAFEGUARDS:**

###### **(1) Introduction**

Security personnel control and monitor all physical access to the site of the Department's contractor and subcontractors, where this system of records is maintained. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This computer system limits data access to Department and contract staff on a "need to know" basis, and controls individual users' ability to access and alter records within the system by granting user names and passwords, and assigning user roles to individuals that restrict access based on user category

(e.g., district administrator, counselor, state administrator).

The contractor has established a set of procedures to ensure confidentiality of data, and will maintain the security of the complete set of all master data files and documentation. The contractor and subcontractor employees who collect, maintain, use, or disseminate data in this system, must comply with the requirements of the Privacy Act.

###### **(2) Physical Security of Electronic Data**

Physical security of electronic data will be maintained. The MSIX infrastructure is housed in a secured data center, access to which is controlled by multiple access controls. These access controls include a combination of personal photo identification/card scans, biometric hand scanning, and personal access codes. These access controls also include man-traps and physical barricades that limit access to the data center floor and machine rooms. Further, all entrances, exits, and key points throughout the facility are monitored in real-time via closed circuit television (CCTV) 24 hours per day. All CCTV is recorded and stored on tape for audit purposes. These access control mechanisms are centrally managed by resources within the data center, which is staffed 24 hours per day.

Security personnel are required to inspect picture identification and have visitors sign in before granting access to the facility. Visitors are pre-authorized and registered in a database at least 24 hours prior to their arrival, and are required to provide picture identification that matches the name given previously to the data center. All personnel are required to display an identification badge or an authorized visitor badge at all times while on the premises; and all packages brought into the data center are subject to inspection.

Backup tapes are employed, and numerous mechanisms protect the physical security of these backup tapes. First, in the event of a disaster recovery situation, MSIX backup tapes will be transferred in locking containers. Contractor and subcontractor employees holding Department of Defense (DoD) Secret or Interim Secret clearances will ship the tapes from the EDS Data Center to the Navasite Data Center, the disaster recovery site. Thus, the MSIX system can be restored in the event of a disaster at the Navasite Data Center. Second, the backup tapes are stored in a tape library within the EDS Data Center and are only available to authorized personnel. Access to the backup tapes is limited through the use of biometric access

control mechanisms. Third, the backup tapes are stored in fireproof safes.

###### **(c) User Access to Electronic Data**

MSIX incorporates a series of security controls mandated by the Federal Information Security Management Act of 2002 (FISMA) and the Department. MSIX leverages role-based accounts and security controls to limit access to the application, its servers, and its infrastructure to authorized users. All MSIX users must follow a registration process that involves identity validation and verification prior to gaining access to MSIX. Once validated and approved, MSIX User Administrators will grant access to authorized users by creating their MSIX accounts and assigning the appropriate MSIX roles. MSIX requires users to use strong passwords, comprised of alphanumeric and special characters, and uses Oracle's Internet Directory (OID) application to manage its user accounts. OID stores the name of each MSIX user, each MSIX user's associated roles and access privileges, and each MSIX user's passwords using an encrypted format. The MSIX application is only available to authorized users via a Uniform Resource Locator (URL) that runs under the Hypertext Transfer Protocol over Secure Socket Layer (HTTPS). No user may alter records in this system of records except to identify and assign a student a unique student identifier through the record matching process. Further, MSIX limits data submissions from State systems to specific Internet Protocol addresses and requires the use of Secure File Transfer Protocol.

###### **(d) Additional Security Measures**

The MSIX infrastructure also leverages a series of firewalls to limit internal access to specific protocols and ports, as well as intrusion detection systems to help identify unauthorized access to MSIX. MSIX logs and tracks login attempts, data modifications, and other key application and system events. The MSIX operations and maintenance team monitors these logs on a regular basis. Further, the MSIX operations and maintenance team performs vulnerability scans on a routine basis, monitors the U.S. Computer Emergency Response Team (CERT) bulletins (see <http://www.us-cert.gov/> for more details), and applies routine operating system and vendor patches as appropriate.

##### **RETENTION AND DISPOSAL:**

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules as listed under ED 231—Public and Restricted Use Data Files—Studies.
