BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY
Federal Emergency Management Agency
44 CFR Part 67
Final Flood Elevation Determinations
AGENCY: Federal Emergency Management Agency, DHS.
ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director of FEMA has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community.

The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30,

1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

■ Accordingly, 44 CFR part 67 is amended as follows:

PART 67—[AMENDED]

■ 1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.11 [Amended]

■ 2. The tables published under the authority of § 67.11 are amended as follows:

Flooding source(s)	Location of referenced elevation	*Elevation in feet (NGVD) +Elevation in feet (NAVD) # Depth in feet above ground Modified	Communities affected

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

49 CFR Part 630

[Docket No: FTA-2007-27319]

RIN 2132-AA94

National Transit Database: Amendment to Reporting Requirements and Non-Substantive Technical Changes

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Final rule.

SUMMARY: This notice announces the final rule requiring recipients of grants under 49 U.S.C. 5311, Formula Grants for Other Than Urbanized Areas (Nonurbanized Area Formula Grants,) to report annual data to the National Transit Database (NTD) as a condition for receiving these grants. In addition, this final rule makes non-substantive changes, technical corrections, and conforming amendments to the "National Transit Database" regulation.

DATES: *Effective Date:* January 7, 2008.

FOR FURTHER INFORMATION CONTACT: For program issues: John D. Giorgis, Office of Budget and Policy, (202) 366-5430 (telephone); (202) 366-7989 (fax); or john.giorgis@dot.gov (e-mail). For legal issues: Richard Wong, Office of the Chief Counsel, (202) 366-4011 (telephone); (202) 366-0675 (fax); or richard.wong@dot.gov (e-mail).

SUPPLEMENTARY INFORMATION:

I. Background

The National Transit Database (NTD) is FTA's primary national database for statistics on the transit industry. Section 3033 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) [Pub. L. 109-59 (August 10, 2005)] amended the NTD provisions under 49 U.S.C. 5335 to require that each recipient receiving Formula Grants for Other Than Urbanized Areas (Nonurbanized Area Formula Grants), or any person that will receive benefits directly from these funds, must be subject to the

reporting and uniform systems of the NTD. Section 5335(b) continues to require NTD reporting for recipients of and beneficiaries of assistance from Urbanized Area Formula Grants.

In addition, section 3013(b) of SAFETEA-LU amended 49 U.S.C. 5311(b)(4) to require each recipient receiving Nonurbanized Area Formula Grants to submit an annual report containing information on capital investment, operations, and service provided with grant funds from this program. The recipient must include the following information in the report: Total annual revenue; sources of revenue; total annual operating costs; total annual capital costs; fleet size and type, and related facilities; revenue vehicle miles; and ridership. The mandatory reporting criteria will assist FTA in understanding the effectiveness of Nonurbanized Area Formula Grants in improving rural public transportation. These data are similar to those already collected by FTA for recipients of Urbanized Area Formula Grants, but are streamlined for rural recipients.

This final rule revises 49 CFR Part 630, the Uniform System of Accounts and Reporting System, to conform with 49 U.S.C. 5335 and 5311, as amended by sections 3033 and 3013(b) of SAFETEA-LU.

II. Comments and FTA Response to Comments

On March 26, 2007, FTA issued a notice of proposed rulemaking (NPRM) that provided interested parties with the opportunity to comment on substantive amendments to FTA's NTD Regulation that would implement the annual reporting requirements for recipients and beneficiaries of Nonurbanized Area Formula Grants (72 FR 14061). In this NPRM, FTA proposed changes that would: (1) Require recipients of Nonurbanized Area Formula Grants to report data to the NTD; and, (2) require the annual reporting of rural transit data as a condition for receiving Nonurbanized Area Formula Grants. The proposed rule also contained technical corrections and conforming amendments, such as changes to statutory references. FTA invited comments on the proposed substantive amendments that would implement the annual reporting requirements for Nonurbanized Area Formula Grant recipients and beneficiaries. In accordance with 5 U.S.C. 553(b)(3)(A), FTA did not invite comments on the technical corrections and conforming amendments because those changes are "interpretative" in nature, and FTA was

not required to accept or consider comments on them.

FTA received ten comments on the proposed substantive amendments that would implement the annual reporting requirements for Nonurbanized Area Formula Grant recipients and beneficiaries. FTA hereby responds to these comments in the following order: (a) General Coordination and Reporting Concerns; (b) Failure to Report Data; (c) Late and Incomplete Reports; (d) Questionable Data Items; (e) Notice of FTA action; (f) Waiver of Reporting Requirements; (g) Proposed Appendix A; (h) Comments on the proposed 2007 Rural NTD Module Reporting Manual; and, (i) Additional Technical Revisions.

(a) General Reporting Concerns

Four comments expressed concern about the burden of the proposed reporting requirements. One commenter strongly encouraged FTA to follow its stated purpose to provide streamlined reporting requirements for the rural program. Another commenter expressed concern that rural systems will experience significant difficulties in complying with reporting, which will impact the reliability and usefulness of the data. One commenter noted that FTA's historical position has been to not be involved with subrecipients and that data collection on individual subrecipients is a major departure from this practice.

FTA response: FTA is seeking the data to comply with 49 U.S.C. 5335 and 49 U.S.C. 5311(b)(4), and the proposed reporting requirements are largely specified by statute. FTA notes that it is only requiring the States to complete and submit a one-page form for each Section 5311 grant subrecipient, and is only requiring Tribes that are direct recipients of Section 5311 grants to complete the same form. Comments on the specific nature of the reporting requirements, however, are outside the scope of this rulemaking. FTA considered these comments as part of the process of finalizing the 2007 Rural NTD Reporting Manual.

In response to the commenter regarding data collection from subrecipients, FTA notes that FTA has the statutory authority to require recipients to gather and report subrecipients' NTD data to FTA pursuant to 49 U.S.C. 5335. Section 5335(a) states that FTA may request and receive appropriate information for the NTD from "any source," which includes requesting information from a Nonurbanized Area Formula Grant subrecipient. Moreover, Section 5335(b) states that FTA "may award a grant under section 5307 or 5311 only if the
