

Parts necessary to carry out the modification were a new door pan assembly and a doubler. Since these parts are no longer available, Piaggio Aero Industries S.p.A. (PAI) designed new suitable part numbers introduced by Revision 1 of Service Bulletin 80-0057.

The present AD mandates modification of the fuselage emergency door frame in accordance with Revision 1 of Service Bulletin 80-0057 from PAI.

The MCAI requires the modification of the fuselage frame of the emergency door, using the newly designed door pan assembly and doubler, following Piaggio Aero Industries S.p.A. SB 80-0057, Revision 1, dated May 31, 2007.

Actions and Compliance

(f) Unless already done, replace the emergency exit door pan assembly part number (P/N) 80-111152-401 with a new door pan assembly P/N 80-111152-405, and a new doubler reinforcement P/N 80-111604-001, following Piaggio Aero Industries S.p.A. Mandatory Service Bulletin N. 80-0057, Revision 1, dated May 31, 2007, at whichever of the following occurs later:

- (i) When the airplane reaches 4,500 hours total time-in-service (TIS); or
- (ii) Within 6 months after the effective date of this AD or 500 hours TIS after the effective date of this AD, whichever of these occurs first.

FAA AD Differences

Note: This AD differs from the MCAI and/or service information as follows: No differences.

Other FAA AD Provisions

[Docket No. OSHA-2007-0040]

RIN 1218-AC08

Updating OSHA Standards Based on National Consensus Standards

AGENCY: Occupational Safety and Health Administration (OSHA); Department of Labor.

ACTION: Notice of proposed rulemaking.

SUMMARY: In this Notice of Proposed Rulemaking (NPRM), the Agency is proposing to remove several references to consensus standards that have requirements that duplicate or are comparable to other OSHA rules; this rulemaking also includes correcting a paragraph citation in one these OSHA rules. In addition, the Agency is proposing to remove the reference to American Welding Society standard A3.0-1969 ("Terms and Definitions") in its general-industry welding standards. OSHA also is publishing a direct final rule in today's **Federal Register** taking these same actions. This NPRM is the companion document to the direct final rule. This rulemaking is a continuation of OSHA's ongoing effort to update references to consensus and industry standards used throughout its rules.

DATES: Comments to this NPRM (including comments to the information-collection (paperwork) determination described under the section titled **SUPPLEMENTARY INFORMATION** of companion direct final rule), hearing requests, and other information must be submitted by January 14, 2008. All submissions must bear a postmark or provide other evidence of the submission date. (See the following section titled **ADDRESSES** for methods you can use in making submissions.)

ADDRESSES: Comments and hearing requests may be submitted as follows:

- **Electronic.** Comments may be submitted electronically to <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

- **Facsimile.** OSHA allows facsimile transmission of comments and hearing requests that are 10 pages or fewer in length (including attachments). Send these documents to the OSHA Docket Office at (202) 693-1648; hard copies of these documents are not required. Instead of transmitting facsimile copies of attachments that supplement these documents (e.g., studies, journal articles), commenters must submit these attachments, in triplicate hard copy, to the OSHA Docket Office, Technical Data Center, Room N-2625, OSHA, U.S. Department of Labor, 200 Constitution Ave., NW., Washington, DC 20210. These attachments must clearly identify the sender's name, date, subject, and docket number (i.e., OSHA-2007-0040) so that the Agency can attach them to the appropriate document.

- **Regular mail, express delivery, hand (courier) delivery, and messenger service.** Submit three copies of comments and any additional material (e.g., studies, journal articles) to the OSHA Docket Office, Docket No. OSHA-2007-0040 or RIN No. 1218-AC08, Technical Data Center, Room N-2625, OSHA, U.S. Department of Labor, 200 Constitution Ave., NW., Washington, DC 20210; telephone: (202) 693-2350. (OSHA's TTY number is (877) 889-5627.) Note that security-related problems may result in significant delays in receiving comments and other written materials by regular mail. Please contact the OSHA Docket Office for information about security procedures concerning delivery of materials by express delivery, hand delivery, and messenger service. The hours of operation for the OSHA Docket Office are 8:15 a.m. to 4:45 p.m., e.t.

- **Instructions.** All submissions must include the Agency name and the OSHA docket number (i.e., OSHA Docket No. OSHA-2007-0040). Comments and other material, including any personal information, are placed in the public docket without revision, and will be available online at <http://www.regulations.gov>. Therefore, the Agency cautions commenters about submitting statements they do not want made available to the public, or submitting comments that contain personal information (either about themselves or others) such as social

security numbers, birth dates, and medical data.

OSHA requests comments on all issues related to this NPRM. It also welcomes comments on its findings that there would be no negative economic, paperwork, or other regulatory impacts of this NPRM on the regulated community. This NPRM is the companion document to a direct final rule also published in today's **Federal Register**. If OSHA receives no significant adverse comment on the companion direct final rule, it will publish a **Federal Register** document confirming the effective date of the direct final rule and withdrawing this NPRM. Such confirmation may include minor stylistic or technical corrections to the document. For the purpose of judicial review, OSHA considers the date that it confirms the effective date of the direct final rule to be the date of issuance. However, if OSHA receives significant adverse comment on the direct final rule, it will publish a timely withdrawal of the direct final rule and proceed with this NPRM addressing the same standards.

- *Docket*. To read or download comments or other material in the docket, go to <http://www.regulations.gov> or to the OSHA Docket Office at the address above. Documents in the docket are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Contact the OSHA Docket Office for assistance in locating docket submissions.

FOR FURTHER INFORMATION CONTACT: For general information and press inquiries contact Mr. Kevin Ropp, Director, OSHA Office of Communications, Room N-3647, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210; telephone: (202) 693-1999. For technical inquiries, contact Ted Twardowski, Office of Safety Systems, Directorate of Standards and Guidance, Room N-3609, OSHA, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210; telephone: (202) 693-2255; fax: (202) 693-1663. SUPPLEMENTARY INFORMATION:

I. Discussion of the Proposal

OSHA is proposing to remove several references to outdated consensus standards in its general-industry rules that have requirements that duplicate or are comparable to other OSHA rules. In addition, the Agency is correcting a paragraph citation in one these OSHA rules. The Agency also proposes to remove the reference to American Welding Society standard A3.0-1969 ("Terms and Definitions") in its general-industry welding standards. This NPRM is the companion document to a direct final rule concerning the same standards published in the "Rules" section of today's **Federal Register**. For a complete discussion of this action, the relevant consensus standards and OSHA standards affected by this NPRM, as well as a discussion of the economic analysis and Regulatory Flexibility Act certification, paperwork determination, issues involving federalism and State-Plan States, and OSHA's response under the Unfunded Mandates Reform Act, see the preamble to the direct final rule.

II. Public Participation

OSHA requests comments on all issues related to this NPRM. The Agency also welcomes comments on its findings that this rulemaking would have no negative economic or other regulatory impacts of this NPRM on the regulated community. If OSHA receives no significant adverse comment, it will publish a **Federal Register** document confirming the effective date contained in the companion direct final rule and withdrawing this NPRM. Such confirmation may include minor stylistic or technical corrections to the document. A full discussion of what constitutes a significant adverse comment is contained in the companion direct final rule.

The Agency will withdraw the direct final rule if it receives significant adverse comment on the amendments contained in the direct final rule, and proceed with this NPRM by addressing the comment and publishing a new final rule. Should the Agency receive a significant adverse comment regarding some actions taken in the direct final rule, but not others, it may (1) finalize those actions that did not receive significant adverse comment, and (2) conduct further rulemaking under this NPRM for the actions that received significant adverse comment. The comment period for this NPRM runs concurrently with that of the direct final rule. Therefore, any comments received

under this NPRM will be treated as comments regarding the direct final rule. Likewise, significant adverse comments submitted to the direct final rule will be considered as comments to this NPRM; the Agency will consider such comments in developing a subsequent final rule.

Comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Accordingly OSHA cautions commenters about submitting personal information such as social security numbers and birth dates.

Approval and Promulgation of Implementation Plans; Revisions to the Nevada State Implementation Plan; Updated Statutory and Regulatory Provisions; Rescissions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Under the Clean Air Act, EPA is proposing to approve certain revisions, and to disapprove certain other revisions, to the Nevada State Implementation Plan submitted by the Nevada Division of Environmental Protection on January 12, 2006 and June 26, 2007. The provisions that are proposed for approval include certain definitions; prohibitory rules; provisions related to legal authority and enforcement; rules establishing opacity, sulfur and volatile organic compound limits; and rescission of abbreviations.

The proposed approval of a certain statutory provision related to legal authority is contingent upon receipt of public process documentation of adoption of the provision as a revision to the state implementation plan. The proposed disapproval relates to rescission of a certain definition and rescission of a rule related to emission discharge information. EPA is proposing this action under the Clean Air Act obligation to take action on submittals of revisions to state implementation plans. The intended effect is to update the Nevada state implementation plan with amended or recodified rules and with an amended statutory provision and to rescind a provision found to be unnecessary for further retention in the plan.

I. The State's Submittal

A. Which SIP revisions did the State submit?

On February 16, 2005, the Governor's designee, the Nevada Division of Environmental Protection (NDEP), submitted a large revision to the applicable Nevada State Implementation Plan (SIP) to EPA for approval under section 110 of the Clean Air Act (CAA or "Act"). The February 16, 2005 SIP submittal includes new and amended statutory provisions and rules as well as rescissions of certain statutory provisions and rules approved by EPA into the applicable SIP. The statutes, rules and rescissions submitted by NDEP on February 16, 2005 relate to definitions, administrative requirements, prohibitory rules, and permitting-related requirements and procedures. The February 16, 2005 SIP submittal also contains documentation of public participation (i.e., notice and public hearing) and adoption for all rule amendments up to and including those adopted by the State Environmental Commission on November 30, 2004.

On January 12, 2006, NDEP re-submitted most of the earlier submittal as modified to reflect new or amended rules adopted by the State Environmental Commission on October 4, 2005. The January 12, 2006 SIP revision submittal supersedes the regulatory portion of the earlier SIP submittal but is not a complete re-submittal in that it did not include the documentation of public notice and
