[Docket No. QF08-110-000]

Tiqun Energy, Inc.; Notice of Filing of Notice of Self-Certification of Qualifying Status of a Cogeneration Facility

December 7, 2007.

Take notice that on December 6, 2007, Tiqun Energy, Inc. filed with the Federal Energy Regulatory Commission a notice of self-certification of a facility as a qualifying cogeneration facility pursuant to 18 CFR 292.207(a) of the Commission's regulations.

The facility is a cogeneration facility with the primary energy source being natural gas. The production equipment will consist of two GE LM 6000 PF Sprint gas turbine generators each with a duct-fired heat recovery steam generator driving a steam turbine generator for a total net output capacity of 140 MWe. The facility will be located in Anchorage, Alaska.

Chugach Electric Association, Inc. and Anchorage Municipal Light & Power are the electric utilities with which the facility expects to interconnect, transmit or sell electric energy to, or purchase supplementary, standby, back-up and maintenance power.

A notice of self-certification does not institute a proceeding regarding qualifying facility status; a notice of self-certification provides notice that the entity making the filing has determined the facility meets the applicable criteria to be a qualifying facility. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii).

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC.
